Dear Mr. Lockley:-

I'm enjoying perusing your Oregon Folks, and running through McConnell's Idaho. I note you give me a \$2.00 credit and I'll absorb this with the Reports of the Governor of Alaska, 1886 and 1892 @ \$1.00 each as listed on p. 2 of your list #200.

I've received a good bite from your old Yakima pioneer whose letter you gave me; the first opportunity I get I'll stop off and see him. On the way up from Portland recently I got stalled at Umatilla from 2PM to 1.15AM and employed part of my time interviewing an Old-timer I found running the little motion picture theatre- It should show up in next Sunday's Spokesman Review

Had our annual meeting of the Eastern Washington State Historical Society here last night and for the first time in six years we are out of debt with a substantial bank balance so we should soon be able to commence and continue some real work along historical and other lines.

I inclose a couple of sketches on the characters of the old Coeur d'Alene mining country; please read them and give me your frank criticism as a newspaper may, and suggest where I might place such stuff for publication. I inclose return postage with addressed envelope therefor.

If I can ever be of any friendly service to you up here, please let me know.

With sincere regards,

WSL/MC
