Dear Mr. Janeck,

I'm extremely sorry that I neglected your letters, but I have been so busy that I simply neglected it. Did you know that I am married? I was married one year in June. Last April I went to work for the Washington Water Tower and did not go to school at all last year. However, I'm going to finish this year.

About the loan - would it be satisfactory to you if I made a small monthly payment on it until after this coming school year, anyway. I will send just as much as I possibly can each time, but I'm not sure that I can do this until November.

I have certainly appreciated this

loan, and I feel badly because I have
not been able to do anything on it
before. Please let me know if what I
have suggested is satisfactory.

Sincerely yours,

Kathryn Davis Paschal
