W. L. Stoble, Esq.,
U. S. Indian Agent,
Yakama Agency,
Fort Simcoe,
Washington Territory.

Sir:

In a communication, dated September 7, 1889, late Agent Priestly recommended the survey of the western boundary of the Yakama reservation, and the re-survey of the southern boundary, referring for reasons to his annual report. In said report, however, he makes no allusion to the western boundary.

You will report, whether, in your opinion, any necessity exists for the survey of any portion of the boundary lines of the reservation, and if so, give your reasons in full.

You will also state the length of the line to be surveyed, and the nature of the country through which it runs.

Very respectfully,

R. V. Belt,
Acting Commissioner.
