Dear Mrs. Carmack:-

I have just been in conversation with Mr. H. P. Dechant, the attorney for the Forest Service and spoke to him relative to the setting of a date for the hearing in connection with the Contest proceedings against your mining claims. Mr. Dechant wishes to give you time to have your witnesses here and advised me to have you definitely set a time when you and your witnesses can appear. The Forest Service will then accordingly make the necessary arrangements to have the hearing set for that date.

If you will let me know when you can appear I will immediately get in touch with Mr. Dechant and the date will be set and we can then make our arrangements accordingly.

Yours very truly,

ARMSTRONG AND TABER.
