"The biggest anti-communist force in the world, and the only force of which the Kremlin is afraid, is the 180 millions of Russian people" 1946

Dear Sir:

Inasmuch as there can be no doubt that you wish to be of all possible help to our 500,000 men mired in the bloody mess in Vietnam, why do you not come out with the demand that Chiang Kai-shek be allowed by the United States to accomplish his life's objective of freeing China from the tottering Communist domination?

Dear Sir:

Inasmuch as there can be no doubt that you wish to be of all possible help to our 500,000 men mired in the bloody mess in Vietnam, and the more than 50,000 men in South Korea, why do you not come out with the demand that Chiang Kai-shek be allowed by the United States to accomplish his life's objective of freeing China from the tottering Communist domination?

We must win the Vietnam War!

We must win the Vietnam War to bring our men home!

We CAN win the Vietnam War!

Let us remember that in any country still dominated by Communists, no invasion is needed for the overthrow of the hated regime any more than an invasion was needed in Hungary when it freed itself.

Communist Mao is not dominating even half of the Provinces of China.

Half of the Provinces of China are either in open rebellion or uprising against Mao.

Under circumstances of the existing rebellion and unrest, is it not reasonable to expect that for the speedy downfall of the tottering Mao, by the revolt of the majority of the disgruntled people of the mainland of China, the news of Chiang Kai-shek's freedom of action may be all that is necessary?

War in Vietnam must be won! Ho Chi Minh cannot outlast Mao's downfall and by the uprising of his own North Vietnamese people, Ho Chi Minh will lose the war in Vietnam.

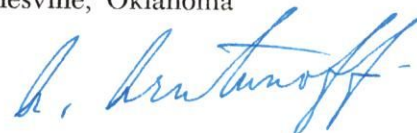

And not only the Vietnam, but the Korean war will be won.

War in Vietnam must be won!

Demand that Chiang Kai-shek be set free!

Dear American:

Inasmuch as there can be no doubt that you wish to be of all possible help to our 550,000 men mired in the bloody mess in Vietnam, and the more than 50,000 men in South Korea, why do you not come out with the demand that Chiang Kai-shek be allowed by the United States to accomplish his life's objective of freeing China from the tottering Communist domination?

Unless you can come forward with a better plan of help to our 550,000 men mired in the bloody mess in Vietnam, for your soul's sake is it not your duty as an American to demand that Chiang Kai-shek be set free! Is not this the least you can do as an American? Speak in your church, write to the editor of your newspaper, demand of your senators and congressmen. Every day counts!

Demand that Chiang Kai-shek be set free! With God's help, you will succeed!
