Click Belander,

Just a line to tell you how much we enjoyed the stories on Mr & Mrs Antoine Shaban & Judge Fred Colfax.

If you would be interested in the life of a Fisherman, my Father Louis Jack who is 73 years old would have an interesting story to tell. He is fishing his last year in Celilo before the back water comes in. He makes boats, nets, and most of his own equipment & since he is over the age of being employed & since he hasn't farmed since we were flooded out in 1948, Fishing is his only means

of livelihood.

He & my Mother are living in
Calico now for the summer, they
have a small house by the canal
along side the river.

Thank you for making my
suggestion
