

## SUNSHINE MINING CO.

*Rolland Whitmore*

Yakima, Wash., July 24, 1922.

TO THE STOCKHOLDERS OF THE SUNSHINE MINING CO.,

As most of you know, following the readjustment of the management of the company, an investigation and audit of the business of the previous year was had, and it developed a condition that brought about the return of 130,359 shares of promotion stock to square some shortage.

It was also found that the floating indebtedness was much more than we had any previous knowledge of.

Following the employment of Mr. Merriman, as mining engineer and manager of the mine, every effort was made by certain individuals to obstruct, delay and, if possible, cause the complete failure of his efforts. As soon as this was known, legal steps were taken to remove this condition, and since that time everything has been moving forward very satisfactorily, and we are now making some money and doing better every day and are certain, within a short time to be able to deliver more ore than the mill, as it now stands, can handle, when the additional ball will be installed and production will then immediately increase to a point that will enable us to clean up all our indebtedness in a few weeks,

But, while we are making some money at present time, the indebtedness incurred under the old management is falling due faster than we are making money until we can increase the mill capacity, and, while some of the creditors are very threatening, the most of them are willing to wait until we get squared away, as they know it will be only a short time.

To make the company safe from litigation and insure the fulfillment of our options, it is proposed to sell to old stockholders \$5,000 of the stock which has been returned to the treasury at 10c. per share; prorated to each stockholder according to his present holdings. Your allotment is 500 shares, amounting to \$50. You are expected to attend the informal meeting, Friday, July 29th, at 8:00 o'clock at the office of the Quick Print, 116 East A Street, and receive and pay for your allotment of this stock.

This is vital to the safety of the company, and if you do not do so you are jeopardizing your own interests by not doing your share and the stock will be sold to some one else at this low price, which is only open to present holders and for this amount only.

Be sure to attend this meeting.

By order of the Board of Trustees.

JOHN  SAWBRIDGE, President.

W. V. COONS, Assistant Secretary.
