Mr. Albert Culverwell,
Historian, State Parks Commission,
Seattle, Wash.

Dear Al:

I'm enclosing some typescript material pertaining to the Chinook and Cowlitz. It occurs to me that you would like to forward it to Mr. John McClelland, remembering his interest in things of this nature. It may give you a little insight from another angle on that part of the country and the situation at that time, although I know all but the actual copy is pretty old stuff to you.

Also, I think I'm narrowing down on the Whidbey material and might come across it in some microfilm I have yet to work through. In that event, I shall send a copy to you. It may also be old stuff to you and Mr. Vandersicht but at least it will be actual copies of letters pertaining to the Col. Abby (?) affair.

Do you have any ideas about the actual execution of the Concomley work? John Mc. will probably be interested in knowing that I'm working it over in my mind, researching etc. (with your very good help) Something like that has to cook quite a bit and really requires more anatomical research etc. then realized at first blush. I also am going great guns on one of my other heads and want to get that out of the way.

Meanwhile, I should round up clips etc. for you before long. Things are getting about to the point here where I have to take time and do some filing, cleaning up etc.

Sincere regards and many thanks to you for your help. Now if I can only find out which eye was out, I'll be pretty well fixed.

Sincerely
