DIVISION OF FINE AND APPLIED ARTS

Dear Mr. Relander,

I was very interested in your work in clay and think you do a good job. My only suggestion is that I'd like to see you try a number of approaches and a number of different kinds of materials simply as a stimulation to your thinking. At the present

We are having a very nice art show of student textiles and sculpture. There are some very nice things in great variety

CENTRAL WASHINGTON COLLEGE OF EDUCATION

of approaches in sculpturing -
kinds of wood, stone, mobiles, and
plaster. This is being shown
from March 27 thru April 15 in
the Administration Building - Room
300. At the moment it is being
assembled, then Friday starts
a week's spring vacation and
on the 27th it will be official.

Also of interest to you will
be an exhibit of mobiles at
the Henry Gallery, U. of W. campus,
Seattle by Don Hypple. He is one
of our very capable art students
and will have his work
there from Mar. 28 thru April 15.

I am hoping to cover
the Yakima museum exhibits
now that winter has departed.
We are in the mad throws
of ending a quarter but
will be around again after
March 28th so do come
visit us. Also hope this
news will find its way into
your columns since we
would enjoy having the Yakima
people come up our way.

By the way, two more items, one
our High school art Festival, April 15
and Washington Arts Convention, April
28 and 29.

Sincerely
Josephine Burley
