December 12, 1959

Mr. Jones J. Spencer,
Route 1,
Harr'ah, Wash.

Dear Jones:

Received your letter today at the office. And while right at this stage I really couldn't afford it, I went into the business office and paid for the subscription. I'm enclosing areceipt for you.

After the holidays or when better weather arrives perhaps we can get together for some talks. Don't know what I'll do with the information but I know it should be preserved. And background like that helps with writing stories to be of general benefit to you and everyone. Lord knows there will be need for some good writing later on so the suyapos won't run off with everything you have.

When I was over at Pacoma to a state historical society board meeting last weekend I asked Dr. Gates of the UW who is also a state board member like myself if he knew where Dr. Jacobs was. He said he was on the campus there and sees him frequently. I gave him yourname etc. and told him to tell Dr. Jacobs you inquired about him and would be glad to hear from him.

Keep in mind for our talks stories about notable old people and days most people have forgotten about; place names and grandfather stories. I'm no language man like Dr. Jacobs. I like to know about the old culture and the old days.

And I wish to extend the best of the Christmas season to you and yours atthis time.

Sincerely

Click Relander
