

Sept. 22, 1953

Mr. Roland East,
Room 2129 Department of Justice Building,
Washington, 25, D.C.

Dear Sir:

The University of Washington pre-sailing department has finally come through with a copy of the Pacific Northwest Quarterly for April, 1936. It is the issue I have obtained to send for the files in connection with the Yakima Ceded Lands Claims Case.

This was contained in the bound volume of the Quarterly that Mr. Ray went to the library to procure during luncheon recess at the Yakima hearing on August 22 (Saturday). It may give you some background ideas, or it may save Dr. Annis V. the trouble of procurement.

My ty list had a touch of flu but should have the first "report," "treatise" or "dissertation," out now and it concerns the Waiilatpu Reservation, overlap with Palouse etc. The second, much more extensive gets into the Colville Reservation, the Palouse, the Kaniakum etc. and is ready for her to get busy on. I have a good start on the Yakima but have some checking on agency letters record books, enrollment notes etc. It's beginning to develop indications of fringe cases along the Columbia River fishery, to the south that at present have no merely raising an eyebrow, lightly.

Kind regards

P.S. (Pret returns from radio program coming in. NINE high crown STIMSON! How I have to dig up more "anapams to fill hats!")
