GENERAL NOTICES

INFORMATION ABOUT TELEPHONE SERVICE

The Telephone Company desires to render the best telephone service possible; the telephone patrons desire to receive the best telephone service possible. One of the most important factors of good service is a better and wider knowledge on the part of our subscribers and patrons of the best method of using the service. The data on this and following pages contains valuable information and suggestions, a study of which will help you to use your telephone more efficiently.

HOW TO USE THE TELEPHONE

Subscribers' Numbers. Each subscriber's telephone is designated by a number and prefix placed to the right of his name and address in the directory. In calling for subscribers it is necessary that both the prefix and number be given. Subscribers are cautioned to use the prefix in full. Always obtain the correct number from the current issue before making a call. Calling numbers from memory, or taking them from cards, letterheads, etc., often results in wrong connections and delays.

Names sounding alike may be spelled in different ways—try other spelling.

PARTY LINE SERVICE

To make party line telephone service efficient, and to prevent annoyance to the subscriber on the same line, the following rules should be observed.

1. When you wish to call, remove the receiver and listen. If the line is in use, restore the receiver immediately to the hook and wait for those using the line to finish.
2. Do not allow children, or others, to listen on the line when it is in use, or to play with the telephone at any time.
3. All subscribers on the line have equal rights; for that reason A CALL SHOULD BE LIMITED TO 5 MINUTES' DURATION. The company reserves the right to interrupt the parties using the line at the expiration of this time if necessary.

APPLICATIONS FOR TELEPHONE SERVICE AND COMMUNICATIONS WITH COMPANY

Application for new service, rates, changes in or additions to existing service or equipment and other information may be made by telephone, by mail, or in person, to the Commercial Department, telephone Number Main 200. If possible, ten days' notice for removing or disconnecting telephone should be given.

RENTAL AND LONG DISTANCE BILLS

All rental bills will be mailed monthly. Rental bills are due on the first of each month in advance and must be paid on or before the 15th of each month in order to receive a discount.

Failure to receive bill does not relieve the subscriber of the responsibility of payment, and if payment is made after the 15th of the

month, the discount will not apply. Remittance forwarded by mail must reach the Telephone Company's office not later than the 15th day of each month to receive the discount.

The month will close for Long Distance business on the 20th of each month. Items for service after the 20th and until the close of the calendar month will be added to items for service from the 1st to the 20th of the following month. This will enable us to have the bills ready on the first of each month. Subscribers will receive all bills by mail.

USE OF SERVICE AND ADVERTISING TELEPHONE NUMBERS

The use of service is restricted to the subscriber and his family, or his employees upon the subscriber's business. Residence telephones are installed on the understanding that they will be used for normal social purposes and not in connection with any business. Advertising residence telephone numbers for business purposes will be considered sufficient cause for the Telephone Company to charge the business rate without further notice.

VERBAL MESSAGES AND ERRORS IN TRANSMITTING

The Company does not undertake to translate or deliver verbal messages and any person or employee who assists a subscriber in a communication, does so as the individual representative of the subscriber for which service the Company assumes no responsibility. In view of the liability to errors in transmitting oral messages by telephone, and the responsibility of fixing the cause thereof, the Telephone Company does not assume liability for errors from misconnection or mistakes upon and by any telephone lines.

GENERAL

Each subscriber is entitled to one single line insertion in the alphabetical list, without charge. By arrangement with the Company, any subscriber to exchange service may have additional listings, under such regulations as apply to main listings, placed in the alphabetical section of this directory at a nominal charge.

Subscribers are requested to report promptly to the Management in writing any errors, which may be corrected in the next directory.

The Company cordially invites all users of the telephone to visit its offices for the purpose of viewing the working of the switchboard and informing themselves of the general methods used in conducting the telephone business.

The Company desires to give the best possible service, and any suggestions made by subscribers for improvements in the service will be gladly considered.

The Management deems it a special favor for subscribers to report any act of inattention or discourtesy on the part of our employees.

If you like our service, tell your friends about it; if you don't like it, tell us about it.

IMPORTANT NOTICE

Subscribers having Dial Telephones in Kittitas and Rural Routes to reach numbers without Dial prefix—DIAL 511.

How to call a DIAL NUMBER

After obtaining correct number from the new directory, proceed as follows: Don't forget: Consult the new directory—many numbers have been changed.

FIRST—Remove receiver from the hook, being careful not to "jiggle" the hook while doing so. No call can be made until receiver is removed. Place receiver to the ear and listen for dial tone, to be sure that line is clear and no other parties are using it. The dial tone is a humming sound, indicating that equipment is ready to receive your call, like the operator saying "number please."

SECOND—If the line is clear, and the number to be called, for example, is 561, place tip of the index finger of the right hand in the opening in the finger dial opposite or over the figure 5 and turn the dial around clockwise until the finger strikes the finger stop, then let go, allowing the dial to return freely to its normal position.

THIRD—Place same finger in the opening over the figure 6 and again turn the dial around until the finger strikes the stop, letting it go as before.

FOURTH—Perform same operation with the figure 1, then place receiver to ear and listen.

RINGING SIGNAL—If the number called is not busy, an intermittent purring sound will be heard, which indicates that the bell of called party is being rang. It will continue to ring intermittently until the party has answered or until you hang up the receiver.

BUSY SIGNAL—If called party is busy, a rapid interrupted buzzing sound will be heard. In such cases hang up the receiver, which releases the connection, and then make the entire call over again after waiting a reasonable time.

When calling a party line station, this busy signal indicates only that the line is busy and not the individual subscriber.

When the busy signal is heard, the connection has not been completed, and cannot be completed by waiting for the signal to cease. The receiver must be restored to the hook and entire call be made over again later.

The busy signal will be heard if you call your own number.

DON'T ANSWER—If called party does not answer after a reasonable time, restore the receiver to hook and the connection will be released. Call again later.

SPECIAL INSTRUCTIONS TO PARTY LINE DIAL SUBSCRIBERS

TO CALL A PARTY ON YOUR OWN LINE DO NOT CALL THE REGULAR DIRECTORY NUMBER, BUT PROCEED AS FOLLOWS:

Remove receiver and listen for dial tone in usual manner! If line is clear dial numbers 0 and the last numeral of your own number, and the last numeral of the number of the party you wish to call—then hang up your receiver.

Both telephones will start ringing alternately—yours and the party's you are calling.

When your bell stops ringing the called party has answered. Remove your receiver and talk.

If called party does not answer, remove your receiver for a second, which stops the ringing and disconnects the call.

ALL TELEPHONES HAVING NUMBERS WITH THE FIRST TWO NUMERALS ALIKE ARE ON THE SAME LINE.

You Can Help

Us To Speed and Improve Your Telephone Service

- 1—By consulting the information pages in the front of your telephone directory.
- 2—By making sure of the number before calling.
- 3—By speaking directly, clearly and slowly into the mouthpiece
- 4—When called, by answering promptly.
- 5—By identifying yourself by name or firm when answering.
- 6—By hanging up gently.

Your telephone contains about two hundred parts, some quite delicate. We want you to have the best possible service at all times, and appreciate your cooperation in handling your telephone carefully.

Why Not Call Them Up?

OUT-OF-TOWN CALLS ARE AS EASY
AS CALLING LOCAL NUMBERS

"I'm your Long Distance operator. I can take you almost anywhere you wish to go—quickly, cheaply and easily. Rates to many out-of-town points are listed on page five. If there are any others you would like to know, JUST CALL ME.

HOW TO MAKE OUT-OF-TOWN CALLS

Nine out of ten out-of-town calls are completed while you hold the line.
Tell the Local Operator—
The city or town you want.

For example:

"I am calling Omaha."

When Long Distance answers and you wish to talk:

STATION TO STATION

You must be willing to talk to anyone who answers at the called number. IN GIVING SUCH AN ORDER, say, for example, Spokane, Broadway 5678 "or Spokane, anyone at the residence of John Doe, 235 Adams Street," Give the number of the telephone you are using when the operator requests it.

PERSON TO PERSON

You wish to secure a specified person, department or extension, or one of several specified alternates. The rate is somewhat higher than a Station-to-Station call. IN GIVING SUCH AN ORDER, say for example, Spokane, Broadway 5678, Mr. John Doe "or Spokane Mr. John Doe at 235 Adams Street" or Spokane, Mr. John Doe, Pacific Atlantic Club." Give the number of the telephone you are using when the operator requests it.

REVERSED CHARGES

If you wish to reverse the charges on a call, tell the operator when you place the call.

APPOINTMENT CALLS

On person-to-person calls, the called person can be notified that you wish to talk at a definite time, convenient to you. No extra charge is made for this service.

MESSENGER CALLS

If the called person does not have telephone service, the telephone company will send a messenger. The rate for the call is the same as the person-to-person rate, plus the cost of sending the messenger.

REPORT CHARGES

A report charge is made on **uncompleted** person-to-person, appointment, and messenger calls on which a definite report about the called person is obtained, and on reversed station-to-station calls which are not completed because the called number refuses the charges.

YOUR TELEPHONE

Is the most personal and satisfactory way of sending greetings, congratulations, invitations and condolences, for making reservations when traveling, visiting with absent members of the family, and keeping in touch with home and office while away. A TELEPHONE CALL IS NEXT BEST TO BEING THERE IN PERSON.

Yakima, Wn.25	.25	.35	.35

All rates listed above are for an initial period of 3 minutes except those preceded by an asterisk () which are for an initial period of 5 minutes. For rates to other points, ask your Operator. Day rates are in effect from 4:30 A. M. to 7:00 P. M., except Sunday; night rates from 7:00 P. M. to 4:30 A. M.; night rates apply all day Sunday.

Station-to-Station rates of 25c or less are for an initial period of 5 minutes. All Station-to-Station rates in excess of 25c and all Person-to-Person rates are for an initial period of 3 minutes. The rate for each additional minute is approximately one-third of the minimum rate. On Person-to-Person calls, after 6 minutes of conversation, the rate for additional minutes drops to that of a Station-to-Station call.

FEDERAL TAXES—A U. S. Government tax applies on all Long Distance Calls originating in the United States.
