

July 13, 1959

U.S. Treasury Dept.,
Internal Revenue Service,
District Director,
Internal Revenue Service, Room 300 Federal Building:

Sir: This will confirm receipt of an assignment for an appointment with someone from your department at 11 a.m. on July 22.

This is contained in Form A:F:01 dated July 7, being the second notice from your department following my filing, early as your office encourages, last January.

Since some of the items referred to in the form may not be satisfactorily shown through an appointment, it is respectfully requested that time be allowed for an inspection of premises noted in your form.

It is also respectfully called to your attention that the long delay has already necessitated my having to secure a loan at a high rate of interest, which would not have been necessary had the matter been acted upon .

It is further requested that this letter be made a part of my file, since your notice was received upon my return from undertaking work that no doubt will enter into subsequent filings, and considerable expense was incurred.

Sincerely

Clifford C. Relander
