ORDER MODIFYING ORDER ISSUING PRELIMINARY PERMIT

By letter dated October 26, 1954, Public Utility District No. 2 of Grant County, Washington, of Ephrata, Washington, (District) requested modification of the Commission's order issued October 21, 1954 issuing a preliminary permit to the District for proposed Project No. 21114 on the Columbia River, Washington, known as the Priest Rapids Project.

Specifically, the District asks that the proviso in paragraph (C) of the aforementioned order be modified so that it will conform precisely with the language of an agreement on the same subject set forth in a telegram from the District to the Commission, dated October 18, 1954, which provides that if any license for the project is issued to any applicant other than the District --

said license be granted only on the condition that the licensee will reimburse the District for such expenditures made by it in connection with the development and planning of said project as may be chargeable to the project as prescribed by the Uniform System of Accounts of the Federal Power Commission.

The Commission finds:

It was not the purpose of the proviso in paragraph (C) to set up a criterion governing reimbursement different from the one fixed in the aforesaid agreement. Therefore, it is in the public interest to modify the proviso in paragraph (C) of the Commission's aforesaid order issued October 21, 1954 issuing preliminary permit to the District, in conformity with the District's request.

The Commission orders:

- (A) The proviso in the second sentence of paragraph (C) of the Commission's aforementioned order is modified to read as follows;

" . . . Provided that if a license is ultimately issued to the State Power Commission it shall reimburse the District for such expenditures made by it in connection with the development and planning of said project as may be chargeable to the project, as prescribed by the Uniform System of Accounts of the Federal Power Commission.

- (B) This order shall become final within thirty (30) days from the day of its issuance unless application for rehearing shall be filed as provided by Section 313(a) of the Federal Power Act, and failure to file such an application shall constitute acceptance of this instrument. In acknowledgment of the acceptance of this instrument, it shall be signed for the permittee and returned to the Commission within sixty (60) days from the date of issuance of this order.

By the Commission.

Leon M. Fuquay,  
Secretary.
