Information.....	113
Out-of-Town Calls.....	Operator
Repair Service.....	114
Time of Day.....	Operator

WARNING: Washington State Law (Laws 1953, Chapter 25) makes it a punishable misdemeanor wilfully to refuse to yield the use of a telephone party line to another person to enable such other person to report a fire or summon police, medical or other aid in case of emergency. The law also makes it a punishable misdemeanor to request the use of a party line on the pretext that an emergency exists, when the person requesting such use knows that no emergency exists. An "emergency" is defined as "a situation in which property or human life are in jeopardy and the prompt summoning of aid is essential."

**FOR FASTER SERVICE — CALL BY NUMBER** Your Long Distance calls will be completed more rapidly if you give the operator the out-of-town telephone number.

**LIST OUT-OF-TOWN NUMBERS** in the space below, or in the new, handy-sized personal telephone number booklet—completely indexed—that has been prepared for your use. You may obtain one of them from your nearest Pacific Telephone business office.

[illegible]

## DIALING

### LOCAL CALLS

Dial the figures of the desired number in their order from left to right in the following manner:

1. Lift receiver and listen for the dial tone (a steady humming sound).
2. Keeping receiver off the hook, place your finger in the opening where the first figure appears.
3. Turn dial until your finger strikes the stop, then release and without forcing or retarding the return motion, allow dial to return to normal.
4. Do the same with the remaining figures.

If you dial before you hear the dial tone, your call probably will not go through.

Always replace receiver for a few seconds between calls.

Please do not turn the dial while talking, as it may break the connection.

In case you have repeated trouble dialing a number, replace the receiver for a few seconds, then dial the opening where the word "Operator" appears, for assistance.

## HELPFUL SUGGESTIONS

### PLEASE BE SURE OF THE NUMBER

You can obtain the desired number from the latest issue of the telephone directory. If the listing is not found please Dial 113 for Information.

### PLEASE LISTEN FOR SIGNALS

The Ringing Signal is a "burring" sound heard at regular intervals, indicating the called telephone is ringing. Allow the bell to ring long enough so that the called party will have time to answer.

The Busy signal is a steady "buzz-buzz-buzz" sound, indicating the called line is in use.

### EXTENDED SERVICE

To Call Kennewick:

From all telephones except coin telephones Dial "2" for Kennewick Operator  
From coin telephones Dial "Operator" and ask for Kennewick Number

### DETAILS TO OBSERVE ON PARTY LINES

If you hear the dialing of another party before you start to dial, please replace the receiver gently and make your call later.

If you find another party has come on the line while you are dialing, replace the receiver for a moment and dial the number again; otherwise a wrong number may result.

### TO CALL ANOTHER TELEPHONE ON YOUR PARTY LINE

To call another party on your line, dial "0" (zero) for operator and tell her the number you wish is on your line.

### TO MAKE AN EMERGENCY CALL IN THE DARK

Dial the figure "0" (zero) to reach an operator. When the operator answers explain the situation, and she will be glad to assist you.

### SPEAKING OVER THE TELEPHONE

Please speak slowly and clearly, in an even tone of voice, directly into the transmitter, with the lips just clearing the mouthpiece.

### TELEGRAMS BY TELEPHONE

To send a telegram follow directions under the alphabetical directory listing for Western Union for your local service area.

### CALLING FROM A COIN TELEPHONE

Instructions are posted on or near each coin telephone to tell you how to place calls. A charge will not be made on calls which are not completed. Between successive calls, replace the receiver for at least five seconds. Please report at once any service difficulties or coin collection error to the Operator.

## BUSINESS TRANSACTIONS WITH THE COMPANY

Business transactions are handled at the Business Office. The addresses and telephone numbers of our principal offices are listed in telephone directories under the Company's name.

The directions given on the first page of the Introductory Section for reporting service difficulties and obtaining assistance will care for most cases. The Business Office will be glad to answer any questions you may have about your service.

### IDENTIFICATION OF EMPLOYEES

Employees of the company are supplied with identification cards. If you doubt the right of a person to represent himself as an employee of this company, please call the Business Office.

## DIRECTORY FACTS AND OTHER MATTERS

### "BEEP" TONE TELLS WHEN TELEPHONE CONVERSATION IS BEING RECORDED

A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the telephone company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

### BILLS AND PAYMENTS

Bills for service are issued monthly and are due and payable upon presentation.

When paying in person at the Business Office, it will save your time if you will have your bill with you. When paying by mail, please enclose the bill stub with your check. If you should desire any additional assistance or explanation regarding your bill, the Business Office will be glad to help you.

Bills may be paid at the Business Office at 525 W. Lewis.

### RATES

Rates and practices included in this directory are based upon those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

### DIRECTORY ACCURACY

Every effort is made to compile and print this directory as accurately as possible. However, sometimes despite care and attention, errors will occur.

Please check your listings when you receive a new directory and if incorrect notify the Business Office at once, so that we may correct our records and protect your service in the meantime. The Company is not liable for damages arising from errors or omissions in free listings. Its liability in the case of paid listings shall not exceed the charge for such listings during the life of this directory.

### FILMS, TALKS, LECTURES

The Telephone Company provides films or speakers on telephone subjects suitable for club programs, schools, lodges, and other groups. There is no charge. Arrangements may be made by calling 9591.

## OUT-OF-TOWN CALLS

### STATION CALLS

These are calls on which you will talk to anyone who answers at an individual line or party line telephone or private switchboard.

To place STATION CALLS, tell the operator the city or town you want, the out-of-town telephone number, if you have it, or the name under which it is listed.

### COLLECT CALLS

Upon request, the charges on calls to most points within the Continental United States, and to certain overseas points may be collected at the called station.

### PERSON CALLS

These are calls on which you want to reach a particular person, or a particular extension tele-

phone or department connected thru a private switchboard.

To place PERSON CALLS, tell the operator the city or town, the out-of-town telephone number, if you have it, or the name under which it is listed, and the name of the person you want.

### MOBILE TELEPHONE SERVICE FOR AUTOMOBILES, TRUCKS AND TRAINS

This service provides two-way telephone communication between a regular telephone and a vehicle equipped with a radio telephone or between such vehicles. To place a call from a regular telephone ask the operator for "Mobile Telephone Service" and give her the mobile telephone number of the vehicle desired.

When you take down your telephone to dial, a few seconds are sometimes required for the equipment at the central office to get ready to serve you. When it is in position, you hear a notifying hum, a "dial tone," corresponding to an operator's "Number, please?" If you will wait for this dial tone, it will speed your calls!

DANCE LESSONS COST LESS AT  
**ARTHUR MURRAY'S**  
BECAUSE YOU LEARN FASTER!

39 years of teaching experience!  
Over a million delighted pupils!  
No other studio can match this record!

No wonder The Arthur Murray Way of learning to dance is recognized as the finest, most thorough, and inexpensive method in the country. The whole secret is in Arthur Murray's basic discovery, "The Magic Step to Popularity." This is the key step to all dances, and even a beginner can learn it in one lesson. And, because there is only this one master step to learn, you need fewer lessons and thus save time and money. Come in now and have a free trial lesson while 2 for 1 rates are in effect.

## Electric Heaters

See Electric Appliances—Household Hdgs;  
Also Heaters

Before you call, it's wise to look  
up the correct telephone number in  
the latest directory... and then  
wait for the dial tone. While you're  
dialing, keep watching the dial. And  
always give the other person a min-  
ute to answer the phone. You'll get  
your party more often this way!
