

COLLEGE OF PUGET SOUND

TACOMA, WASHINGTON

*--your step to a
brighter future*

Your Decision

You are face to face with an important decision, one which will greatly concern your future.

Education in a large university atmosphere often loses sight of the student's individual needs and abilities. He becomes a name on the classroom attendance list, instead of an individual—perhaps the type of individual whose special talents need expression or whose abilities lack the necessary encouragement for success.

If you feel as we do, that a college education embraces more than just a specialized course of study, then perhaps the College of Puget Sound can help YOU make that important decision.

At CPS the student is first and foremost an individual. His education is planned not only to provide him with a thorough training in his chosen field of study but to prepare him for the opportunities which lie ahead. A broadly trained mind is a self-reliant one. Graduates of CPS enter business, industry or the professions with the confidence that comes from a thorough preparation and a readiness to accept responsibility.

High Academic Standards

The College of Puget Sound offers you the highest type of academic training in arts and sciences. The chosen excellence of the faculty, many of whom are eminent in their field, as well as the wide scope of studies and ever-growing facilities enable the college to retain its high accreditation with such organizations as **The Association of American Universities, Northwest Association of Colleges and Secondary Schools, American Medical Association, University Senate of the Methodist Church, Association of American University Women, National Association of Schools of Music, American Chemical Society, Washington State Board of Education.**

CLASS PROJECT in Occupational Therapy

Dear Friend:

The College of Puget Sound is proud of its achievement as one of the outstanding Christian colleges on the West Coast. It is older than the State, possessing a territorial charter, yet it is as modern as tomorrow.

Our alumni have achieved world renowned success in every major field. Our students are prepared to assume positions of responsibility in the world in which they live. Their lives are deeply enriched with the cultural, spiritual, and social values they receive in the liberal atmosphere of our Liberal Arts College.

The College of Puget Sound stands for real, dynamic, personalized, modern education. Here you will learn not only how to make a living, but **HOW TO LIVE.**

We invite you to visit our campus, to meet and know some of the finest educational leaders on the West Coast, and to become acquainted with those administrators, faculty members and students who will be your personal friends for life.

Cordially,

R. Franklin Thompson,
President.

Admissions

Admission to the College of Puget Sound is always a personal and individual matter between the student and the college officials. Basically, admission rests upon graduation from an accredited high school. A rigid pattern of high school courses or a particular grade standing is not necessarily required for entrance.

A student graduating from high school in the upper half of his class with a good college preparatory background is usually granted admission. If the student's high school record does not give clear indication of success in college, he will be asked to complete a group of entrance tests to provide admission officials with additional information. In some instances personal interviews will be held between the applicant and the faculty admissions committee.

Application forms for admission are available in the offices of all high schools in the state of Washington or they may be requested from the registrar's office at the college.

TRANSFER. A student wishing to transfer from other institutions of higher learning should notify the college of his intent and request each former college or university to forward a transcript of his record to the CPS Registrar. Here again a careful evaluation of the student's record will be made. If likely success in the chosen course of study is indicated, admission to advanced standing will be granted.

HOWARTH HALL, Science Building

Housing

Modern living accommodations are available on the campus. The charge for a double room is \$75.00 per semester or approximately \$17.00 per month. Accommodations for men are available also in the houses of the six national fraternities having chapters at the college. The four national sororities maintain chapter rooms on the campus but their out-of-town members live in the women's residence halls. A \$25.00 deposit is required to reserve accommodations in any of the campus residence halls.

Inquiries concerning details on housing should be addressed to the Dean of Men or Dean of Women respectively.

BOARD. All campus residents dine in the college commons located in the Student Union Building. All meals are planned by a professional dietician providing for a wholesome, balanced diet. Board on a 6-day basis is \$150 per semester.

COLLINS MEMORIAL LIBRARY

Average Costs

Tuition and Fees. The tuition charge for a full college course is \$200.00 per semester. The only other standard charge is the student body fee of \$12.50 per semester. There are no laboratory fees in science courses. The college catalog contains a detailed list of fees charged for private music instruction and specialized physical education courses. College expenses are payable by the semester or arrangement may be made to make monthly payments.

Scholarships and Assistance. The college sponsors a scholarship program for new students. The scholarship may be based on the general excellence of the student's academic work or upon unusual achievement in a particular area such as art, music, drama, forensics or athletics. Applications will be accepted after the close of the fall semester and should be received by the college prior to April 1st. For details concerning scholarships write the Registrar.

A job placement bureau is maintained by the college to assist students with part time work programs. The Deans of Men and Women particularly assist new students in the matter of employment and inquiries concerning such work should be addressed to them.

ANDERSON HALL, Women's Residence

ATHLETIC PROGRAM. CPS is a member of the Evergreen Conference. It participates in all major and minor sports, in varsity and intramural programs. Included in women's athletics are field hockey, basketball, volleyball, badminton, tennis, golf, archery and fencing.

WINTER SPORTS are popular at CPS. Deep Creek Lodge, near the slopes of Mt. Rainier, is owned and operated by the college and is available to all CPS students for winter weekends of skiing, hiking and skating.

NATIONAL SORORITIES AND FRATERNITIES provide an exciting calendar of dances, banquets and fireside parties. Rush affairs begin at least two weeks before the fall term begins and are regulated by Panhellenic and Inter-fraternity councils.

MUSIC ON THE CAMPUS. The Adelpian Choir has focused attention on the college's excellent music opportunities. Among the activities are the symphony orchestra, concert band, workshop band and vocal and instrumental groups.

STUDENT ACTIVITIES

No one is a stranger at CPS. From that first friendly "Hi" that greets you during Freshman Week, you'll be whirled into the exciting rush of campus activities, forming new friendships and sharing new interests. Added to your social calendar will be campus picnics, proms and coke dates at the SUB. You will be taking an active part in the many student organizations devoted to music, drama, art, journalism, athletics or debate. These campus activities not only help to develop well-balanced personalities but stimulate individual leadership as well.

STUDENT GOVERNMENT. The actual governing of student affairs by elected officials is a serious part of student life.

DRAMATICS. The Campus Playcrafters and the Choral Readers provide a rich expression to the spoken word.

RELIGIOUS EMPHASIS. As inspiration to daily living, the college, without denominational teaching, encourages the student to strengthen the Christian outlook in all his activities. The students hold a Religious Emphasis Week each year under the guidance of the Student Christian Council.

PUBLICATIONS. Any student may become a staffworker on the weekly newspaper or the yearbook if he is interested in writing, editing, art work, photography or advertising.

COLLEGE SPIRIT . . . an ever-lively spark that sets off class rivalry . . . the passing of the Hatchet . . . the Senior Sneak . . . parades and winning floats . . . campus clean-up day . . . the Freshman-Sophomore Tug-of-War . . . the pep rallies . . . Homecoming weekends . . . all the wonderful traditions that are so much a part of college life.

IDEAL LOCATION

The vast sixty-acre campus of spacious lawns and beautiful natural woods is located only 2 miles north of Tacoma's city center in a fine residential area. It is located in a transportation center for transcontinental railways and an international airport. The campus is close to the scenic waters of Commencement Bay and to the surrounding lakes. To the East it commands a magnificent view of majestic Mt. Rainier.

CHOOSE A CAREER

From these specialized departments of study

EDUCATION. CPS offers a full curriculum approved by the Washington State Board of Education for a general certificate qualifying you to teach all grades from kindergarten through high school. CPS also provides a Teacher Placement Bureau.

BUSINESS ADMINISTRATION and Economics for careers in any phase of industry or commerce. You will gain a comprehensive picture of our economy at work.

GEOLOGY. An important field with increasing opportunities for both men and women.

MUSIC. Under the college's outstanding Faculty of Music you may obtain a Bachelor of Music degree or a Bachelor of Arts degree with a major in music. A new music building has recently been completed.

HOME ECONOMICS. A bachelor of Arts or Science may be earned in preparation for a career in the home, in the schoolroom or in commerce.

SCIENCE with major interest in biology, chemistry, geology, mathematics or physics. Also pre-medicine, pre-nursing and pre-dental courses for admission to professional schools.

PHYSICAL EDUCATION provides a specialized preparation for teaching or recreational work.
