Dear Col:

Thank you so much for being persistent on the pictures. Seems like you've gone to a lot of trouble and I wish there is some way I may repay.

Enclosed, check for the Fort Dalles pictures. I suspect in time the ones not applicable, too much, to the present deal are worth having for other stories. Louis Scholl has some relatives living in Portland I think and Dean Guie had some contact with them few years ago about Simcoe. I have already sent the studio payment for the Col. Wright pictures. I can obtain one of Haller from Olympia. Been bogged down on lots of other activities and haven't tied into the Haller expedition yet, but will.

Jack Parr of Ephrata tells me he made contact with you. He's working helping round up a real good deal for the Northwest. Hear, too that the Ding Darling Lewis and Clark trail is coming along good. I would suspect it will end up in something (one of their 10 vista houses etc. in the Dalles country.

Again, many thanks. And will keep eye on time when we can get together for a cup of coffee at least, at the Dalles. The best
