

March 24, 1956

Mr. J. H. Gipson, Sr., president
Caxton Printers, Ltd.,
Caldwell, Idaho.

Dear Jim:

I am returning the OK'd proof Indian Horse race for the back of the lithograph of the cover of Drummers and Dreamers.

This will have no connection with the cover design or jacket of the book, as you will recall.

The lithographs were to be printed with wide margins (suitable for framing) for distribution in connection with the book tour I will make with the Indians. These will not be distributed promiscuously while on tour, but a limited number will be given at each appearance as you will note on the reference on the "invitations."

I trust that the back printing on the lithograph will not show through or destroy the quality of the lithograph.

In case it does, these could be printed on plain slips, sent to me separately with the lithographs and I will affix them lightly by paste, one margin only, on the back of the lithos. But I will leave that up to your judgment.

Sincerely

March 24, 1956

Mr. J.H. Gipson, Sr., president,
The Caxton Printers, Ltd.,
Caldwell, Idaho.

Dear Jim:

Enclosed is a list of newspapers, radio stations, Historical Quarterlies and Publications, for your consideration for review copies of Drummers and Dreamers.

The list contains 50 names. Ten of the number, if it runs far larger than for some of your publications, may be removed if necessary. And, if necessary to bring it in line, if still too large compared with other Caxton publications, you are authorized to deviate up to 10 (ten) copies from copies I have on order for my account.

You no doubt have a list that includes additional names, and duplications of the ones attached. I am sending it at this time so you may compare it.

I will mention that while some of the radio copies may be new in your field, my promotion program includes use of these stations and their facilities and preparations are already made along those lines.

Moreover, the newspapers listed herein will receive advance stories, sent direct from Yakima, concerning the publication. Many of them have already made plans to take note of Drummers and Dreamers in their columns. Others will be running spot news stories at the appropriate time.

I have much historical research material usable to some of these papers, fitting specifically into their areas, and am making this available as time progresses. They in turn are taking occasion to work in the forthcoming publication.

I hope this meets with your approval.

Sincerely
