Emigration

eries I, Vol L, Pt II

Headquarters Department of the Pacific, an Francisco, ct 8,1863 Col E.D. Townsend, Asst. Adjt. Gen. Hears of the Army, Washington D.C. Colonel:

I beg leave..to ask the a tention of the general-in-chief and the honorable secretary of war to the practibility of locating a good wagon road between Fort Dalles, Oreg., in a southeasterly direction via Canyon City to Fort Boise, daho \tilde{T} er., and thence to the navigable waters of the Yellowstone, nerrtthe mouth of (p 641) the Big Horn .

The feasibility of opening a route on this parallel was discussed when I was a command of the Department of Oregon, and I had determined tomake a thorough exami ation of the country in the expedition which had been planned against the Snake I disans for the summer of 1861; but my removal from that country, together Oth with all the regular troops, caused a temporary suspension of remote operations but the Oth subject was not lost sight of.

I am now in receipt of a communication from Major P. Ogun Lugenbeel, Nineteenth infantry, commanding fort Boise, referring to the same subject.

The route proposed, intermediate between that of the Missouri via Fort Benton on thenorth, and that by the South Pass and Fort Hall on the south, will be the shortest andmost direct. The distance from Fort soise on the navigable waters of the eastern slope is said not to exceed 400 m les. In view of themineral d velocment in Oregon east of Fort Dalles, and more particularly in the erritory of Idaho, the construction of a road over the routepro posed while definition a military point, enabling us to move troops with the order of the construction of a road over the routepro posed while the order of the construction of a road over the routepro posed while the order of the construction of a road over the routepro posed while the order of the construction of a road over the routepro posed while the order of the construction of a road over the routepro posed while the order of the construction of a road over the routepro posed while the order of the construction of a road over the routepro posed while the order of the construction of a road over the routepro posed while the order of the construction of a road over the routepro posed while the order of the construction of a road over the routepro posed while the order of the construction of a road over the routepro posed while the order of the construction of a road over the routepro posed while the order of the construction of a road over the routepro posed while the order of the construction of th

eadquarters District of Oregon, Fort Vancouver, Wash er, Oct. 20,

Hon B.F. Hardin, Senator i Congress from Oregon, Portland, Oreg.

I desire especially tourge upon you to aid on reaching "ashington in having built an iron-clad vessel andram for the Columbia "iver.

The kind of vesselwe want should not draw more than thrteen feet waterand should fulfill the description given by Br g. Cen. J.G. Totten, of the Corps of "ngineers. The following is his indorsement dated the 5th of May, 1863, on a letter of the Governor of Oregon on this subject:

Therequest of overnor ibbs that a monitor be stationed near Astoria is recommended by the Engineer department; that is that a swift, strong, heavily armored steam floating battery and ram be provided for the defenses of the olumbia iver.

It should be built at the East and come around Cape Horn, and therefore no time should be lost in the matter. "e are utterly deprived of all naval defense in the quarter. "o war vessel of the navy has (p 653) been this side of an Francisco for years. Repeated calls have been made during the last twelve months upon the Secretary of the avy to move in this matter, and he steadily declines. Therefore ifneces ary, I recommend that a bill be introduced into congress requiring the building of such a vessel. "e are so remote and will have in any emergency so few defenes, that the very best and most powerful vessel with all the modern ordnance and the improvements should be sent, for she may have to a act single handed.

Tenj Alvord

War of "ebellion, Series I, Vol I, Pt II, pps 660-61

General Headquarters State of Oregon, Adjutant-General's office, alem, October 28,1863

Frig. en Benjami Alvord, Commanding istrict of Oregon General

This day I received a communication from apt. Julius K M. Keeler, provost-marshal of Oregon, with a copy of a letter from his deputy at Eugene City (A.A.Skinner) by which it seems there is some danger of a resistance of the laws and an organization of men for that purpose. I would furnish you a copy of this communication, but Captain Keeler informed me that he had alreadydone so, warded which will be all-sufficient.

It appears to me that measures should be taken, if possible, to prevent any outbreak, for if civ 1 strife should once commence on p 661 this coast there is no knowing where it would end. there is at Eugene C ty at present an organized militia company of about fifty men, all of which I believe are good Union men. They are armed with the rifle musket and organized under the provisions of the militia 1 aw of the state.

There is also at lancaster, fifte n miles from Eugene City, an organized com any of cavalry of about sixty men, all good loyal men, under command of Capt F.W. Folsom, a man of considerable energy.

This company has no a ms, a thing to very much regret more especially if any trouble should arise The other com anies organized in the State wooddoddw you have seen and know something of what they are composed.

Dapa Captain Riely, commanding the artillery at this place thinks his company would be willing to go into active service if the governing principal of men in authority, in order to principal of men in authority, in order to principal of men in authority, in order to principal of men in authority.

A Reed Adjutant-General of Oregon.

m gration

Series I, Vol L, Pt II

p 674-75

Headquarters District of Oregon, Fort vancouver, "ash Ter. November 16,1863

Governor of Washington erritory, Olympia, Wash Ter.

... the measures taken be me for the protection of the frontier and the overland emigrant route during the past season.

In May six companies of troops under (p 675)

command of Colonal Steinberger were placed at ort Lapwai, daho, Ter/

to attend the council with the Nez Perce Indians. heir presence

materiall contributed to the success of the neg tiations with that tribe

for the surren er of the gold bearing r gions of their reservation,

and was calculated favorably to impress all the surrounding tribes.

From Fort Lapwai Colonel Maury proceeded i June with three companies of First Oregon Cavalry to Fort Coise where he was joinedby two companies of First Mashington Territory Infantry. With the five companies he proceeded upon the emigrant road to a point on Chake River above F rt Hall.

Capt Crawford left here in F rary for the east to bring an emigrant escort across from Omaha, Neb...met at OhdoGodd Maury at the fer y above Fort Hall on the 17th of August... The emigration of this year has met with no disturbance whatever from the Indians throughout their whole journey to the Columbia River

Colonel Maury returned to Fort "alla Walla by the route south of the nake River, examining the r gions of theupper Bruneau and Owyhee Rivers. On the Quantum 4th of July Major Lugenbeel, with three companies of infantry and a detachment of cavalry, established a new Fiditary coston at the Poisson forty-three miles above taddd the old fort on oise liver. made entirely of steel. The masts were also steel. She was schooner rigged, of about 300 tons, and issaid to sail very fast. Since her ar ival rumors have been rife that the rebels has been trying to buy her for a privateer, and it is further said that if they gave the price asked they can have her. We shall see. About three weeks a o theo an English ship called the Jasper arrived her from Liverpool with near 1,000 berrels of powder, shell etc. which some suppose to have connection with the advent of the schooners spoken of in these waters. It is a great blunder that the United States has no war vessels in the North Pacific. We have nothing in the shape of a war vessel but the Joe Lane, brigantine, a poor sailer and poorly manned and armed.

The mine s are now coming down from the upper country, generally in desp rate circumstances, mostly secesh, and ready for entered anything. The rebelshere seem to be active, have their regular private mee ings, as is understood, and would be willing to act should any misfortune occur in our national arms.

Headquarters Department of the Pacific, an Francisco, eb 8,1864
Assistant General U.S. Army, Mashington, D.C.

ir: I consequence of the threatening aspect of our Indian affairs in the northwestern portion of California I have ordered Col H.M. Black Sixth Infantry, California vo unteers to move with the major and three communies of his regiment to Fort Humboldt.

The command will proceed by steamer from enecia Barracks, taking ample supplies for the prosecution of a vigorous campaign.

On reaching Fort Humboldt Colonel lack will assume c mmand of the district and move promptly in pursuit of the hostile Indians who have been plundering and murdering the whitepeople in the counties bordering on the Klamath, Salmon and Trinity Rivers.

I have ordered that all I dians captured or who surrender themselves shall be sent foo to Fort Humboldt and held securely as prisoners of war untilthe Government shall determine as to their final disposition

As I have before rep ted, useless to place on reserv tions in this country, but if they can be sent to Catalina Island they cannot escape...

olonel Black's regiment numbers about 500 men. ..
