OFFICIAL PAPER OF NORTH YAKIMA

PRESIDENT ROOSEVELT seems to have borrowed a good deal of trouble for his administration by what has come to be known as the "Booker Washington incident." From the president's standpoint it is particularly unfortunate that such a blunder should have been made, a blunder that can hardly fail to alienate from him the sympathy and good will of a majority of the southern people. As has been remarked before in these columns, the new president is a man of original ideas and of unlimited confidence in himself. Previous to entertaining a colored man at his table if he considered the matter at all, he probably thought that he would be able to override all convention and prejudice. But it has not proved so. The South is offended. This man whom it had just begun to regard as a friend because of his kindly assurances and for the additional reason that his mother is a Georgia woman, now turns from him in disgust. He has trampled its favorite tradition in the dust. From a political standpoint this first blunder of Mr. Roosevelt's is a serious one for his party. At one blow he has destroyed whatever chance the republicans had of winning this year in every southern state. The democrats of Maryland, Virginia and Kentucky, hard pressed as they were, have seized on the weapon thus providentially placed in their hands, and are using it as a club on their opponents. In each of these three states a senatorship is at stake, all of which the republicans are now morally certain to lose. It will thus be seen how little incidents may produce momentous results. From the standpoint of Booker Washington, too, the blunder is deplorable. Washington stands head and shoulders above every other man of his race in this country. He is not a grafting politician as is the case with so many of the more educated class of negroes. Instead he is a true and tireless worker, a man who is using all the means at his command to educate and elevate his race. In doing this he has received a great deal of sympathy and financial support from the white people of the south. But withal this the lines of social inequality have been steadily drawn and Washington sensibly recognized it. The president has not helped Washington. Instead he has embarrassed and upset him. Mr. McKinley, cultured gentleman and smooth politician that he was, would never have made such a fatal mess of it.

THE municipal election to occur next week in Greater New York is attracting general attention throughout the country. Edward M. Shepard is the democratic, or as his opponents puts it, the

Tammany candidate, while the Hon. Seth Lowe, until of late the president of Columbia University, is the fusion candidate. Both are men of high character and good executive ability. Either would doubtless make for New York a good mayor if elected and permitted to have his own way. Shepard has often vigorously opposed Tammany in the past and his nomination, coming mainly as it did through the agency of that organization, was a good deal of a surprise. It illustrates thoroughly the astuteness and cunning of Richard Croker. A few weeks ago the fusion party, which is made up of a motley crowd of regular or Platt republicans, Goo-Goo or college republicans—who have been in the habit of following Theodore Roosevelt and Seth Lowe—and disgruntled democrats, were boasting loudly that by combining they would surely win. The subsequent nomination of Shepard, however, felt like a wet blanket upon them. Shepard is well known throughout the city as an honest, fearless and capable man and as soon as his nomination was proclaimed desertions began from the other side. The N. Y. World, which with its customary cowardice is supporting neither candidate, claims to have made a poll of the voters which indicates that Shepard will receive a majority of about 17,000. The estimated vote that will be cast is 800,000 out of a total population of about 3,500,000.

THE present mayor and city council have been and are continuing to do some very good and necessary work for the city. It is a business administration; of that there can be no doubt. The street and sidewalk improvements that are being made are of a permanent character, as they should be, and have cost only a reasonable amount of money. The city's revenues have in the main been carefully looked after and secured. The decision to increase our facilities for fighting fire by the purchase of a chemical engine, at a cost of \$2150, together with other necessities, is unquestionably a wise one. We are very much in need of better fire protection. These things all cost money and we understand that there is some kicking among taxpayers. We should all aim to take a reasonable view of the situation, however. Let such as are disposed to kick reflect that this is a growing town. That it has almost doubled its population within the past three years and its business in almost an equal ratio. This condition of things makes better streets and better fire protection a necessity. Besides, the need of these things have been felt for a good many years. One city council after another has passed the problem up to its successor to solve. It had to be met and the present administration has met it fairly. It has taken the bull by the horns as it were. We ought to be thankful that we have a council that would do that.

IT is a good time now before winter sets in to make some necessary repairs on our county roads. Last winter some of the leading highways into this city, particularly the Old Town and Ahtanum roads were

in a most deplorable condition. The result was that all lines of local business suffered, to say nothing of the hardships endured by the farmers. We can't have macadamized roads right away, but we can mend the the roads. A few loads of crushed rock dumped into the quagmires would help the roads a great deal. A few hundred dollars of county money spent in that manner would be well expended and the people will approve of it. Our present board of county commissioners is entirely too conservative in this matter of road improvement. Let it wake up to the needs of the people.

WHY do so many able editors waste ink and space arguing about the profitability or unprofitability of our conquest—not yet apparently complete—of the Philippines? A very short and simple sum in arithmetic makes all argument superfluous. On an average we have kept an army out there of 50,000 men, which cost us precisely \$1500 a year apiece for the past three years. That alone has cost us \$75,000,000 a year—\$225,000,000 for the three years. The total value of our trade with the islands imports and exports included, is a little over \$7,000,000 a year. If every dollar of it were clear profit, therefore, we have lost so far on the Philippines at least \$200,000,000.—New York World.

OUR good friend Mr. Drew, recently from Minnesota, seems to have made the discovery that a new republican paper is a public necessity in this town. He is therefore making preparations to fill the "long felt want." The new venture may be a necessity from a partisan standpoint, but we seriously doubt if it is from any other. The newspaper business is so extremely profitable in Yakima that the new publisher perhaps is not to be blamed for desiring to share in it. Robertson unfortunately, gave the snap away when he was caught with those seven dollars on his person.

OUR valued local contemporaries, the Herald and Republic, have wisely concluded to advance their publication days. By the new arrangement the former paper will issue hereafter on Tuesdays instead of Thursdays, while the later will appear Thursdays instead of Fridays. The DEMOCRAT will continue as heretofore a Saturday paper. It is needless to state that the business interests and the public generally will be better served by this arrangement.

THE assassin Czolgosz went to his doom with more courage than the public thought the creature possessed. Justice, in his case instead of lagging as usual, was swift and unrelenting. If it was the rule in this country to try and execute every cold blooded murderer within sixty days of his crime, the effect could not be otherwise than wholesome upon the dangerous element who have no regard for human life.

The Local Markets.

There is little change to be noted this week in the condition of the hop market. If anything there is a downward tendency. Most of the buyers assert that they are receiving no new orders. The growers still believe that prices must later necessarily advance, therefore, they are in no hurry to sell. A few small lots were sold this week at prices ranging from 9½ to 10½ to fill small orders, otherwise there was nothing doing.

Potatoes were selling Friday at \$14. Not many are being delivered at that figure, however, most of the deliveries this week being to fill contracts at a higher figure. The car famine still continues and exerts a depressing effect on the market.

A good many apples are being delivered this week, the most of which is on earlier contracts. Standard varieties are selling at from 75c to 90c, while specials of the Spitzenberg order, readily bring \$1.00 per box.

Hay has remained firm, although there has been but little activity in that commodity this week on account of lack of cars.

The Yakima National Bank has granted a six months' leave of absence to J. D. Cornett, the well known cashier of that institution, which took effect Nov. 1st. Mr. Cornett, who has not been in the best of health lately, will probably leave next week for California and may perhaps extend his trip to the Sandwich islands. In lieu of Mr. Cornett's temporary retirement W. H. Hare has accepted a position with the bank.

Wallis Williams, who it will be remembered was held up along with Editor Robertson just before Fair week, has recovered his watch which was taken from him on that occasion. Mr. Williams notified the police of the surrounding cities of his loss and last week it was located in a Seattle pawn shop. He immediately went to Seattle and secured the watch without particular trouble. The watch is a valuable one, the purchase price having been \$85.

The funeral of Miss Jessie Doust, who died October 24th, took place Saturday from the Methodist church. The funeral sermon was preached by Rev. F. L. Hayden. Rev. J. H. Wood spoke highly of the loving character of the deceased which had endeared her to her many friends, and of the christian fortitude with which she bore her long illness, and so calmly contemplated death. The casket was preceded to the hearse by six of her classmates from the High school, arrayed in white, while six boys from her class acted as pall-bearers. The interment took place in Tahoma cemetery.

The Editor In Politics.

In this issue will be found an interesting discussion of this subject by Emory H. English of the Valley Junction (Ia.) Express. The duty of the editor to discuss public questions, and his right as a citizen to aspire to and hold office, as contended for by Mr. English, will be readily conceded, but the discussion of public questions does not necessarily imply that the editor is in politics in the usual acceptance of the term. His utterances will carry more weight and his paper will be a much more powerful agent in shaping public opinion if it be distinctly understood that he is not in the race for public office. While he cannot be indifferent to politics, his position is that of a censor rather than an active participant.

In most cases the position of the influential, independent editor is one of more importance and power than any office within his reach. He is the Warwick in his community and may be the "setter up and plucker down of kings" as long as his utterances are dignified by disinterestedness. This power begins rapidly to wane when he becomes a candidate. His integrity may be unimpeachable, and his arguments may be as strong as they ever were, but over against every line he may print will be set his personal interest.

The experience of Horace Greeley furnishes a pathetic example. He was never so little a power in politics after he became known as the day that he permitted his name to be announced as a candidate for president. Men who had been his political allies for years refused to follow him longer. Even his paper lost its influence for the time, although he retired from its management, and the farmers who had regarded the columns of the weekly "Trybune" as little less than divine oracles voted solidly against him. It is true that his case is in many respects exceptional, but it is nevertheless a striking illustration of the sudden loss of the editor's influence.

The editor undoubtedly has the right to hold office, and he generally deserves more at the hands of the public than the office can give him. In general terms it might be said that if a desirable office is thrust upon an editor he ought not to refuse it. But he can hardly afford to run for office, and the trouble is that not many offices are running after men. As a Georgia candidate put it several years ago in a confidential talk with a friend, he had been waiting fifteen years for an office to seek him, but it had never done so. He concluded that if he got one he would have to do the seeking, which he proceeded to do with diligence and zeal.—American press.

Lake Champlain's Old Treasure Ship.

Several problems of considerable delicacy have been presented by the recovery, a few years ago, of 10,000 sovereigns from an English sloop that has been lying since 1777 at the bottom of East Bay, Lake Champlain, says the New York Times. The treasure was sent from Quebec for use in paying Burgoyne's troops, and the vessel was scuttled by its captain, one Johnson, when he was attacked by a superior force of Yankee soldiers in retreat after the reverse at Hubbardton.

There was afterward some suspicion that Capt. Johnson removed and appropriated the treasure before he sank the sloop, but his honesty is at last vindicated.

RISKS

Are run by every woman who has household cares. It is so easy just to run out of the warm house into the fresh air, to pin a piece of lace to the clothes line. It is also easy to take cold in doing so. Then perhaps comes suppression and kindred evils. Whenever there is any disturbance of the normal womanly function Dr. Pierce's Favorite Prescription may be relied upon to re-establish perfect health. There is no other medicine prepared especially for the peculiar ailments of women which can be relied on with such certainty of instant help and ultimate healing as can Dr. Pierce's Favorite Prescription. Its effects on weak and worn out women have been characterized as "marvelous" and wonderful by women given up by doctors who have found perfect and permanent healing in "Favorite Prescription." It regulates the womanly functions, dries debilitating drains, heals inflammation and ulceration and cures female weakness. It makes weak women strong, sick women well.

"Favorite Prescription" is strictly a temperance medicine, containing no alcohol or whisky, neither opium, cocaine nor other narcotic.

Do not allow any dealer to impose on you with a substitute medicine claimed to be "just as good." A medicine which claims to be only "just as good" and no better than Dr. Pierce's offers no inducement to you to turn aside from a remedy with a world-wide reputation for its complete cures of woman's peculiar ills. Ask for "Favorite Prescription" and get it.

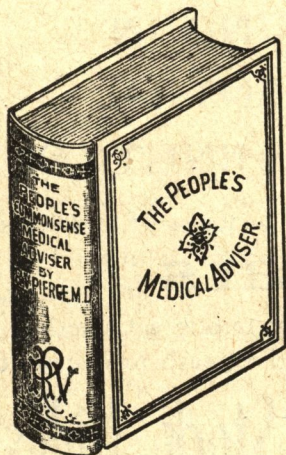

Sick women are invited to consult Dr. Pierce by letter free. All correspondence strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

A Woman's Guarantee.

"Several years ago I suffered severely from female weakness, prolapsus and menorrhagia, and used 'Favorite Prescription' with splendid effect," writes Fannie Shelton, of Washington, Iowa. "Glad I have not needed it for a few years past but if I should have a return of the old trouble would surely try 'Favorite Prescription.' I have recommended it to a number of my lady friends. I always tell them to try a bottle and if they are not benefited by it I will pay for the medicine. In every case they have spoken in praise of it."

A Book for Women.

The woman who possesses a copy of Dr. Pierce's Common Sense Medical Adviser possesses a life long friend. Ignorance of the delicacy of her own organization is one of woman's great dangers. The "Medical Adviser" opens the door of knowledge to every woman. This great book is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book bound in paper, or 31 stamps for cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

Spreads Like Wildfire.

When things are "the best" they become "the best selling" Abraham Hare a leading druggist, of Belleville, O., writes: "Electric Bitters are the best selling bitters I have handled in 20 years." Electric Bitters tones up the stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves hence cures multitudes of maladies. It builds up the entire system. "The Cowboy and the Lady."

S. Miller Kent, who will be the attraction at Larson's on Nov. 11th in "The Cowboy and the Lady," one of the biggest dramatic successes in the past few years, is a phenomenally quick study and on more occasions than one has kept a theatre from closing by assuming the star's role at almost a moment's notice. When in London a year ago he was ap-

peared to by Maxine Elliott to take Mr. Goodwin's role in "An American Citizen" when the actor was taken suddenly ill. Mr. Kent knew nothing of the part, but learned lines and business in a day and made a great hit. Another similar occasion came up during the run of "The Musketeers" in New York, when James O'Neill lost his voice and was suffering from a severe cold. Mr. Kent studied one afternoon on the lines and business of D'Artagnan and went on that night to score a decided success. This quality is rather unusual, and needless to say, such an actor is doubly valuable to a manager.

Improved Telegraph Service.

Arrangements have now been perfected by the American District Telegraph Co. with the Western Union, whereby the former company will be enabled hereafter to do business in North Yakima. The new concern will make its headquarters in this city with the Western Union, in fact H. B. Spencer, the local agent of the latter corporation will hereafter act for both.

Asst. Gen'l Mgr. Levin, of Minneapolis, will be here within a few days and will install the new system. The new company will give Yakima its full metropolitan service, which includes call boxes and uniformed messengers. The heavy telegraph business that is done here is of course the incentive that has brought the new company into the field. It will work in harmony with the Western Union, in fact it is the aim and purpose to supplement the service given by the larger corporation in the business centers and points of importance.

The Sunnyside Festival Was a Great Success—Not Political.

Col. Miles Cannon informs the DEMOCRAT that this paper was in error by intimating in its last issue that the underlying motive of the Sunnyside festival on the 24th, was a political one. He states that the affair was gotten up exclusively by the Ladies Aid Society, of the Federated church of that place and that there was no politics in the matter at all.

A number of people who were present state that a most creditable exhibit of farm products was made and that the affair was highly successful in every way. Through the untiring efforts of the ladies quite a handsome sum was realized for the benefit of the church.

Hon. John L. Wilson and Col. Cannon were the orators of the occasion and both made splendid addresses. Ex-Senator Wilson's address was made under two principal heads as follows: "The duties of good citizenship" and "The great commercial advantages of the state of Washington". The ex-senator held that all citizens should make it a rule to attend party caucuses and conventions to the end that none but good men should be placed before the people for their suffrages. In discussing the subject of the merchant marine he boldly advocated the granting of subsidies.

Col. Cannon took as the text of his discourse, "Sagebrush Reminiscences," which deals with that eventful, and perhaps unhappy period in his life when he himself dwelt amid the sage. It will be remembered in this connection, that the colonel's sojourn in the sagebrush was contemporaneous with Grover Cleveland's sojourn in the White House. At any rate visitors from this city say that the colonel's speech was a "cracker-jack" and that it will furnish amusement for the Sunnysiders for yet some time to come.

ASTOUNDING DISCOVERY.

From Coopersville, Mich., comes word of a wonderful discovery of a pleasant tasting liquid that when used before retiring by any one troubled with a bad cough always ensures a good night's rest. "It will soon cure a cough too," writes Mrs. S. Himelburger, "for three generations of our family have used Dr. King's New Discovery for Consumption and never found its equal for Coughs and Colds." It's an unrivaled life-saver when used for desperate lung diseases. Guaranteed bottles 50c and \$1.00 at W. E. Ayres. Trial bottles free.

The Commoner.

(Mr. Bryan's Paper.)

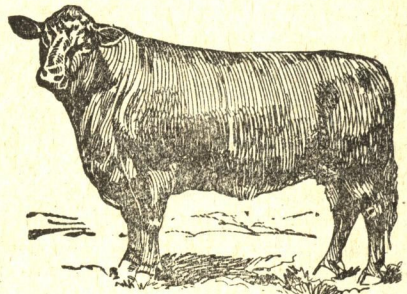

The Commoner has attained, within six months from date of the first issue, a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparelled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of the Commoner Mr. Bryan contributes his best efforts; and his review of political events as they arise from time to

time cannot fail to interest those who study public questions. The Commoner's regular subscription price is \$1.00 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and the DEMOCRAT together for one year for \$1.75. The regular subscription price of the two papers when subscribed for separately is \$2.00.

THE YAKIMA DEMOCRAT

NORTH YAKIMA, NOVEMBER 2, 1901

Caught Him Napping.

The partisan prejudice of some men was fittingly illustrated by an incident which occurred in a western city during the sad week of the presidential obsequies. While the campaign of 1900 was in progress democrats had great sport reading a speech delivered by Abraham Lincoln in 1858 and intimating that it was a portion of a speech delivered by Mr. Bryan. Republicans readily fell into the trap and denounced it as "hogwash," "copperheadism," etc. An ex-congressman stood on a prominent corner of a few days ago and denounced the democrats, and especially Mr. Bryan, for what he termed "appeals to class prejudice." He asserted that these appeals unsettled the minds of people and made them discontented with their lot, and further declared that the language used by democratic orators in discussing political questions was indirectly if not directly, responsible for the assassination of President McKinley. A young man standing by coincided with this view, and to prove the truth of the assertion made by the ex-congressman read the following:

"Human rights and privileges must not be forgotten in the mad race for wealth. The government of the people must be by the people, and not by a few of the people. Power, it must be remembered, which is secured by oppression and usurpation, or by any form of injustice, is soon overthrown."

"That," asserted the young man, "is the kind of talk that is continually stirring up trouble between the different elements of our population. It is the doctrine of discontent."

"That's right!" asserted the ex-congressman. "It is intended to make the poor hate the rich. It is intended to make people believe that our republic is rapidly becoming an empire. It is—"

"Oh, you ought to know better than to talk that way about this speech," interrupted the young man. "That is an extract from a speech delivered by Wm. McKinley only a few years ago."

The republican ex-congressman looked dazed, then hastily changed the subject.—Commoner.

The President's First Blunder.

President Roosevelt is a record-breaker all the way round. He generally does as he pleases and lets the consequences be what they may, but it was thought that on becoming president a change like that which overcame the prince of Wales on accession to the crown might be evolved from the mass of concentrated energy and determination which is now at the head of national affairs.

Mr. Roosevelt has, however, set the people agog by inviting Booker T. Washington, a negro, to dinner, and it is thought that he has thereby put off the good day when the republicans should rule in the south, to a very indefinite period.

There is no disposition to censure the president individually for what is so gravely considered a breach of propriety in the south as well as by many in the north, but for him to deliberately, as the head of the nation and presumably the president of the whole people, fly into the face of as grave a prejudice as that of color, is universally regarded as in bad taste, and by many as a deliberate insult to those who have been so long confronted by race antipathies.

It is said that Roosevelt has been in the habit of hobnobbing with his colored friend at Oyster Bay and in New York City, but that will hardly be regarded as a valid defense for seating the "gem" man of color at what is regarded as the national dining table.

The political effect may be to unite the colored people of the north, possibly into support of the republican party, but this advantage cannot but be much more than offset by the reawakening of race prejudice in the south. All unprejudiced people who have lived south of Mason and Dixon's line candidly admit that there are insurmountable difficulties in the way of the white and the black races exercising mutual political rights without a clash. If this be true, the act of the president was unwise as a political measure and will be fraught with disaster in a party sense.—Olympia Standard.

WASHINGTON LETTER. (From Our Regular Correspondent.)

WASHINGTON, Oct. 24, 1901.

When President Roosevelt left Washington on Monday afternoon for New Haven he left behind him a sadly disgruntled politician in the person of Senator Platt of New York, who was nursing his wrath in his apartments at the Arlington hotel. When the senator was in Washington some weeks ago he discussed New York politics with the president and, while Mr. Roosevelt did not actually commit himself, he went home with the impression that he was to have things pretty much his own way. His most important request was the removal of Appraiser Wakeman who is said to have shown too keen an appreciation of his duty to the government and far too small an appreciation of the allegiance due to the republican dictator of New York. For the good of the machine discipline it was essential that Wakeman's scalp should dangle from the dictator's belt. Mr. Roosevelt had diplomatically promised "to look into the matter" and Mr. Platt supposed his object was accomplished.

On investigation, it is said, Mr. Roosevelt found nothing to warrant Mr. Wakeman's removal and consequently no change was made. Finally Senator Platt, notwithstanding the fact that he had previously intimated that Secretary Gage was not minding his own business in recommending Mr. George Whitehead for the appraisership, joined forces with the secretary of the treasury and wrote to the president endorsing Mr. Whitehead and still he heard nothing from the president. Finally on last Sunday he came to Washington and again he got no satisfaction. That evening he wired to Governor Odell and early next morning Odell appeared in Washington and breakfasted with the president, but the president left for New Haven without giving the slightest satisfaction to either of the gentlemen and it is understood that they held a consolation meeting at the Fifth Avenue Hotel in New York on Tuesday evening.

Senator Platt has also found Secretary Gage a weak reed on which to lean for the secretary of the treasury, whose attitude is, "I'll endorse anything if you want ask for my resignation," has reconsidered his position and expressed himself to the president to the effect that he "guesses Wakeman is not so bad, after all." The belief that Seth Low stands little likelihood of election does not add

to Platt's influence and the calm dignity with which Croker smiles and "keeps sayin' nothin'" is an additional aggravation to the New York boss.

While the republicans are trying to make the best of the appointment of William Dudley Foulke to the civil service commissionership, they are by no means pleased with the appointment. It is understood that Mr. Foulke exacted from the president, before accepting the appointment, a promise that he should have full sway under the law in the administration of the affairs of the commission and that means that a good many of the prerogatives of republican congressmen will be cut off. The commission has, in the past, been obliged to wink at many things in order to secure as much freedom as they have had, but in the future, with Mr. Foulke as president of the commission, for it is stated that Mr. Proctor will resign the presidency in Mr. Foulke's favor, the commission promises to stand seriously in the way of many petty patronage schemes concocted by republican congressmen.

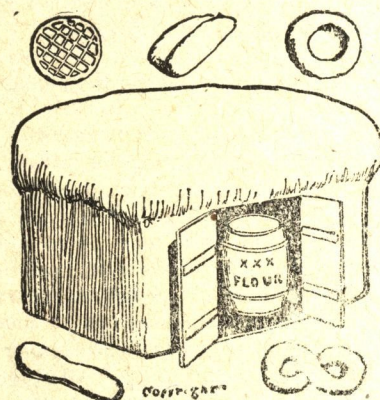

It seems as if the fifty-seventh congress would be compelled to investigate the navy department. On top of the Schley-Sampson affair comes the report from the captain of the Alabama that a large percentage of the shells, which of course had been inspected and marked "O. K." by representatives of the department, was found to be defective and that the premature bursting of one of them completely disabled the port, thirteen inch gun. Moreover, the story of the department's permitting the cruiser Columbia to go to rack and ruin in the League Island navy yard will not stay as completely buried as Secretary Long thought it would, as is evidenced by inquiries into the subject that are being made by some of the congressmen who are coming to Washington. Altogether there is ample warrant for an investigation and if some unruly congressman, with more regard for his own standing with his constituents than for the good of the party, does not persist in dragging Secretary Long's skeletons out of the closet it will be surprising.

The Marquis Ito, who was for a number of years prime minister of Japan, lunched with the president on Monday. Mr. Roosevelt urged him to return to Washington after receiving his degree at New Haven, as he wished to give a dinner in his honor, but the marquis declined the invitation, alleging the condition of his health and the political situation in Japan as his excuse. The marquis told the president that the commerce of his country now amounted to more than \$250,000,000 per annum, that Japan had 846 steamers with an aggregate tonnage exceeding 528,000 tons and that she had built up all this within the last thirty years, that the time would come and that it was not far off when, next to the United States, Japan would be the greatest commercial power on the Pacific Ocean and he expressed gratification that the relations between the United States and Japan were so cordial and assured the president that Japan would lose no opportunity to more closely cement the bond of friendship.

Postmaster Coyne of Chicago, was in Washington this week urging the department to give him more space as he says he is sorely cramped in the present temporary postoffice and that it will be from three to four years before the new government building is ready for occu-

pancy. Mr. Coyne also predicted that by that time the new postoffice would be too small for the requirements of his force, a statement which rather startled the authorities until they remembered that Mr. Coyne was from Chicago and that as one of them expressed it, "his statements must be taken cum grano salis." The recent robbery of stamps amounting to over \$75,000, from the Chicago postoffice and various stamp robberies of smaller amounts all over the country are likely to lead the postmaster general to ask the coming congress to enact a law prohibiting the sale of stamps by anyone other than a government agent. Such a law, it is believed, would, to a large extent, remove the incentive to rob postoffices.

The remains of Senator Cushman K. Davis, of Minnesota, and who was for so many years chairman of the committee on foreign relations, were brought to Washington this week by his widow and interred at Arlington, in the officers' division, a lot having been set aside for him by the war department.

The Week's Amusements.

A fair sized audience at Larson's theatre was kept constantly amused during the performance of Haverly's Minstrels Saturday evening. The jokes cracked by the end men were for the most part fresh and good, some catchy solos were rendered and good work was shown in the acrobatic line. Perhaps the most pleasing part of the performance was the unique work of Garden and Somers the bell ringers. On the whole the Haverly company as reorganized this season puts up a very creditable show.

Mrs. Minnie Tittle Brune and her company appeared here again Monday night in a return engagement in that historic tragedy drama "Cleopatra." The presentation was a disappointment to most of the audience. The talented little lady who makes an adorable Theodora, suffers in comparison in the heavy role of Cleopatra, "the barbarian queen." Her husband, however, in his effort to impersonate the noble Mark Antony, the historic lover, is very much worse.

Fancy one of the greatest characters in history making love to an amorous queen in the shrill and piping voice of a school boy? The balance of the combination is decidedly amateurish to say the least.

The "Wise Woman" company occupied the boards Thursday night and played to a fair sized house. It is a comedy farce in three acts, founded on a senseless plot. Marie Lamour, the star of the aggregation, was conspicuous by her absence, she having returned ill to her home in the east a few days ago. A frizzle haired lady of uncertain age, however, acted the part very well, so perhaps it did not make much difference. The only feature of the show was the solos rendered by Ethel Balch.

Superior Court Proceedings.

Monday was motion day in the superior court. Argument was made on the motion for a new trial in the Hayes divorce case, but it was denied by Judge Rudkin.

The motion for a new trial in the Scholes case was also denied.

A divorce was granted in the case of Isaac Robbins vs. Milly Robins on the ground of cruelty.

A jury was ordered for the regular term of court beginning December 5th.

Teachers' Examination.

The regular quarterly teachers' examination will be held at the court house at North Yakima Thursday, Friday and Saturday, November, 14, 15 and 16. Pens, pencils, paper and ink will be provided. Examination will begin at 9 o'clock a. m. sharp. S. A. DICKEY, Co. Supt.

Larson's, November 4th.

Among the most successful of productions last season "A True Kentuckian" takes the lead. It is bright and clever and contains many thrilling situations which hold the interest of an audience to the end. There is no star part to the play but the play itself is a star play.

Every character is well drawn and clean cut. There is the big whole-souled judge whose generous nature even success does not spoil, the genial southern major, poor in pocket but rich in chivalry, the faithful girl, whose wealth is nothing to her love for the federal colonel, the bashful lover, the saucy coquette, in fact all the characters are strongly depicted. The villain of course is present as a contrast to suffering virtue. "A true Kentuckian" will be produced at the Larson theatre Monday, November 4th.

School Board Meeting.

The school board met in regular session Monday night with all members present.

Prof. Plumb appeared and asked the board for new blackboarding in the seventh and eighth grades. The board was in favor of putting in hyloplate, a new board made from paper pulp which is very light and durable, so Clerk Peck was asked to learn the price. He finds that it can be delivered here at 11½ cents per square foot and it will probably be ordered at the next meeting.

The following bills were ordered paid: Atkinson and Mentzer, school supplies, \$60.40; Lombard & Horsley, paints and supplies, \$59.60; F. Welch, labor, \$13.40; E. G. Peck, cash expended, \$44.50.

The enrollment for the city schools was reported for Monday as 922 pupils; divided as follows: High school, 322; Central, 340; Columbia, 260. Of these 104 are enrolled in the High school department.

The Local Markets.

There is little change to be noted this week in the condition of the hop market. If anything there is a downward tendency. Most of the buyers assert that they are receiving no new orders. The growers still believe that prices must later necessarily advance, therefore, they are in no hurry to sell. A few small lots were sold this week at prices ranging from 9½ to 10½ to fill small orders, otherwise there was nothing doing.

Potatoes were selling Friday at \$14. Not many are being delivered at that figure, however, most of the deliveries this week being to fill contracts at a higher figure. The car famine still continues and exerts a depressing effect on the market.

A good many apples are being delivered this week, the most of which is on earlier contracts. Standard varieties are selling at from 75c to 90c, while specials of the Spitzenberg order, readily bring \$1.00 per box.

Hay has remained firm, although there has been but little activity in that commodity this week on account of lack of cars.

The Yakima National Bank has granted a six months' leave of absence to J. D. Cornett, the well known cashier of that institution, which took effect Nov. 1st. Mr. Cornett, who has not been in the best of health lately, will probably leave next week for California and may perhaps extend his trip to the Sandwich islands. In lieu of Mr. Cornett's temporary retirement W. H. Hare has accepted a position with the bank.

Wallis Williams, who it will be remembered was held up along with Editor Robertson just before Fair week, has recovered his watch which was taken from him on that occasion. Mr. Williams notified the police of the surrounding cities of his loss and last week it was located in a Seattle pawn shop. He immediately went to Seattle and secured the watch without particular trouble. The watch is a valuable one, the purchase price having been \$35.
