

## COMPLETE YAKIMA PROJECTS AT ONCE

Secretary Ballinger Says That Congress Will Provide Funds--Declares That President Taft Favors Reclamation.

R. A. Ballinger, secretary of the interior of the United States, made clear his attitude toward the Yakima valley irrigation projects in an informal talk to the business men of the city at the Commercial club this week, when he said that he considers that the Yakima projects the equal in importance to any in the country and the superior to most. He stated that the projects now under way will be completed before any others are undertaken and expressed the belief that congress would provide a means of getting funds to hasten that work.

### Policy Toward Reclamation

Secretary Ballinger also made clear his policy toward the reclamation service in general when he said that he considered the reclamation act one of the most beneficent laws on the statute books and in his announcement that no further projects would be undertaken until the present ones are completed.

More than 150 prominent business men and ranchers of the city and valley greeted Secretary Ballinger at the smoker given in his honor at the club rooms Tuesday night. Alex Miller, president of the Commercial club, presided and speeches were made by Mr. Miller, Dr. Granville Lowther, who welcomed Secretary Ballinger, and by H. J. Snively. Dr. Lowther told of the accomplishments of irrigation in the Yakima valley and what the government projects would do for this section. He expressed the hope that there would be no delay in the government work.

### Snively Talks on Reservation

Mr. Snively spoke of the problems on the Yakima Indian reservation and said that the trouble would be removed if the government would pay back to the Indians what they have paid for the water rights, the Indians to expend this money in improving the roads on the reservation which, Mr. Snively declared, were hindering the development of that country.

Secretary Ballinger said that his present tour through the Yakima valley has shown him that there are big problems to solve here and that they are complicated. He expressed the belief that by intelligent action on the part of the white people and of the Indians, these problems would be solved soon. Regarding the policy of the national administration toward reclamation, he said:

"President Taft requested me to

make this trip through the West that I might become better informed on irrigation. The president is alive to the importance of reclamation in the West. I consider the reclamation act one of the most beneficent ones on our statute books. I believe that the people of the West appreciate the importance of it and understand what is required of them."

Secretary Ballinger said that there are now available to complete reclamation projects \$11,000,000 and that \$27,000,000 is needed for this work.

"To undertake new projects before the present ones are completed, I do not consider good business policy," he said. "I believe, however, that congress will provide means for securing the funds needed to complete at once the work now in hand."

### Yakima Projects Important

Regarding the Yakima projects, Secretary Ballinger said: "I have visited 12 of the government projects throughout the country, and I have found none where the possibilities are greater than here. None has better soil, and none in the Northwest has better climate or markets than you have. I find everywhere that other irrigated sections are measuring their capacity by what the Yakima valley has done. The projects here take first rank among those of the entire country."

### Prospects of Wapato Canal

Referring to the Wapato project, Secretary Ballinger said that he was satisfied the future of that section depends more or less on stock raising and general farming and that the value of these would have to be considered in carrying out the immense canal proposed for the reservation. He said, however, that he does not expect the price of alfalfa ever to be lower than that at present and this also with regard to other crops raised on the reservation, thus intimating that he felt the Wapato project to be a safe one if no more valuable crops than hay are raised under it.

"It is fortunate for Washington," he said, "that there is here such a community as this. The clean cut business methods used here, the integrity and thrift of the people, make for success anywhere."

Secretary Ballinger was frequently applauded in his speech. At its conclusion he met with the men present, with many of whom he has been acquainted for several years.

### TWO EXCELLENT GAMES.

Tigers and Indians Each Land a Game in the Final Contest for the Pennant.

The biggest crowd that ever witnessed a ball game in the Yakima valley journeyed out to the ball park Sunday afternoon to see the Tigers take the first game of the series by the score of 5 to 1. Nelson pitched a strong game, holding the Indians safe at all times and making a strikeout record for the season by whiffing 13 of the visitors. Brown, of Ellensburg, played short for the Indians. The game was replete with sensational plays and heavy hitting by the Tigers. The Tigers played the headiest game of the season, showing class in all departments.

In 12 innings of the fastest ball ever played on a North Yakima diamond, Toppenish took the second game of the post season series for the Yakima valley league pennant by the close score of 3 to 2. The game was a pitcher's battle between Nelson and McKinney, the big Swede having the best of the battle in the strikeout line, but yielding more hits than his smiling opponent. Errors of commission by Mullen, Hemmaway and Minor, and the inability of the Tigers to hit when a hit meant a run spelt defeat for Col. Payne's gang. "Piano Legs" Price, backstop for Tommy Robbins tribe, was the laddie that poked out the hit that scored the winning run.

The final game will be played tomorrow and a most interesting contest will be seen. Both teams are confident of victory. A large number of rooters are expected up from Toppenish.

Dr. and Mrs. H. L. Wells are the happy parents of a 10-pound boy, born Sunday.

### COMMERCIAL CLUB PLANS TO ENTERTAIN VISITORS

Governing Board Outlines Program for the Reception of President Taft and Senate Committee on Irrigation

Plans were outlined at a meeting of the governing board of the Commercial club Monday afternoon for the entertainment of President William H. Taft and party on September 29; for Secretary of the Interior R. A. Ballinger during his stay in the city this week, and for the senate committee on irrigation which will be here Saturday of this week. In all three cases the entertainment will be of an informal nature, in deference to the wishes of the visitors. The program for President Taft's visit was wired to his secretary, Fred Carpenter, yesterday, and will have to be ratified by the president.

The plans for President Taft include an early morning breakfast at the Yakima hotel, an auto trip through the surrounding country during the morning, a public meeting at which the president will deliver an address and a luncheon at 12:30, just before his departure, at which fruit will be presented to Mr. Taft.

A rostrum will be constructed by the city at some convenient place and Mr. Taft will speak to the people.

Senator W. L. Jones met with the governing board and assisted in planning the entertainment. Dr. A. H. Henry is acting secretary of the committee in the absence of Secretary H. P. James of the Commercial club.

Alex Sloan, Dr. Cameron, S. J. Cameron, Dr. George Sloan and other prominent Scotchmen from the Yakima valley attended the A. Y. P. last Saturday during the Caledonian exercises.

## East Has Dominated the West Too Long.

By JOHN A. JOHNSON, Governor of Minnesota.

It is time that the West Threw off the Shackles of the East.

We as an integral part of the American people should cast our influence and our votes not only to advance the material interests of our own particular section, but we should be broad enough and big enough to labor for the common good of our common country.

We have in the states west of the Mississippi the undoubted balance of power, no matter under what name the national administration at Washington exists.

In the years that have passed our population and our material wealth have not enjoyed that representation to which they are entitled, and, furthermore, our leaders have been content to follow in no small measure the leadership of men who represent relatively small constituencies and smaller commonwealths.

It is time that the great northwest should come into its own and by force of its energy, the ability of its sons and the co-operation of its various constituent parts exert an influence for good not only as to its own particular prosperity, but to that of the country at large, to which every element invites it.

### MANY PICKERS NEEDED

Hop Growers Say That Picking This Year Will Be Better Than Ever

Hop growers say that they will need all the pickers they can get this year and that picking will be the best that the Yakima valley has ever seen. There is little foliage, the vines having put in their time developing hops. The hop tonnage per acre will not be as great as it has been at times in the past, but the hops are clean and pretty and without vermin, and with little foliage to interfere, pickers should make speed and money. It is expected that \$1 a box will be paid as heretofore.

Picking will commence in practically all parts of the valley on September 6, which is about the time of the year that picking ordinarily commences.

Henry Schott and one or two other growers expect to commence earlier than this, on September 1. The Schott yards employ about 350 pickers. One of the later sections of hop country is that about Tampico. An estimate of the yield from the valley is 14,000 bales.

Hop picking will commence in Oregon somewhat earlier than here; indeed, somewhat earlier than usual for that section. Krebs Bros., near Independence, will send their pickers out from Portland on August 26.

### New Marriage Law.

A new marriage law was passed by both houses of the legislature before adjournment on Saturday. If signed by the governor it will make the receipts of Yakima county in this department of the auditor's office much larger than they have been for some time. Since the stringent law now in force went into effect on June 11, there have been but 42 marriage licenses issued in Yakima county.

The new law passed is practically the same as the old one, except that it does not require a doctor's certificate from the contracting parties. Those desiring to be married will be asked to make affidavit before the county auditor, or some notary public, taking oath that they are not afflicted with the diseases mentioned in the previous law. The license will then be granted. The fee will be \$2 for the license—formerly it was \$3. However, the new law provides that the auditor may charge 50 cents for the affidavits.

### Appreciated Boys' Band

Prof. Nagler has received from the National Irrigation congress in Spokane a letter of appreciation for the services rendered by the boys' band of this city during the congress. The letter says:

"The playing of the boys' band was one of the features of the congress and added materially in the success of the parades. We wish to express our appreciation for your services as leader and the services and conduct of the band, which brought credit both to their leader and to Yakima."

Louis Razey and Miss Mary Barut, both of Naches City, and Charles E. Vetter and Miss Laura Ball, both of Sunnyside, secured marriage licenses from the county auditor Monday.

### CHILDREN MUST ATTEND.

County Superintendent Will Enforce Law of Compulsory Education—Heavy Penalty for Violation.

The schools of the county will be opening within the next few weeks. Mr. Bush, who will assume the office of county superintendent on September 6, announces that he intends to enforce the compulsory education law. This law is summarized as follows:

"All children between the ages of eight and 15 years are required to be sent to school regularly during the entire time school is in session unless excused according to law, and also all children between the ages of 15 and 16 unless regularly engaged in some useful and remunerative occupation.

"The law forbids the employment of all children under 15 years of age during the hours in which school is in session, unless the child presents an excuse from the proper school superintendent.

"Any parent, guardian or other person violating these provisions is liable to a fine.

"The school boards in districts of the second class must appoint one or more attendance officers annually. In other districts the county superintendent must act as attendance officer, but he may appoint assistants. It is the duty of these officers to enforce the law.

"The school clerk at the beginning of each school year shall provide the teacher or principal with a copy of the last census, and every teacher is required to report to the proper attendance officer all cases of truancy or incorrigibility immediately after the offense is committed.

"The county superintendent will require the clerk of every district to make a report annually, verified by affidavit, stating whether or not the provisions of this compulsory school act have been faithfully complied with in his district.

"Any clerk, superintendent, teacher or attendance officer is liable to a heavy fine for a failure or refusal to perform the duties prescribed by this act."

### Drummer Gets Off With Fine.

A fine of \$500, the highest in the jurisdiction of a justice court, was assessed against W. B. Simmons, Chicago traveling man, who was arrested in North Yakima a few days ago charged with the abduction of Verda Davidson. The fine was paid at once and Simmons released.

The trial was heard before Judge Stocker at Spokane, who took jurisdiction on the motion of Deputy Prosecuting Attorney A. C. Clausen.

### Noted Engineer Here

Charles O. Poole of California, the noted electric and hydraulic engineer, whose reputation extends from coast to coast, is here this week preparing detailed plans and specifications for the development work proposed by the Central Washington Investment & Power company. The coming of this noted man, who is probably the highest authority in the country in his special lines, indicates that the Central Washington company plans extensive and important development work.

## NORTH COAST IS PUSHING WORK

Right-of-Way and Franchise is Secured for the Section From Granger to Sunnyside--Big Steel Shipments Coming.

Railroad building in the lower Yakima valley is almost as strenuous as a few weeks ago when rival parties of surveyors for both North Coast and Northern Pacific were bending every effort to outwit each other in establishing routes from Granger to this city. It is said to be an interesting sight to watch the steam shovels and graders at Granger these days working at maximum speed in the building of the two lines of railroad north, both roads paralleling each other through this section.

The North Coast Railroad company has secured from the county commissioners a franchise permitting the railway to cross the county roads between Granger and Sunnyside. This is the first definite indication that the North Coast will build a branch into the Sunnyside district from Granger. Attorney H. J. Snively of the North Coast road says that the full right of way for this branch has been secured, and now all that remains to be done is the actual construction of the road.

### Steel Shipments Coming.

The first of the shipments of 75 miles of steel for the North Coast left the plant of the Colorado Steel Works at Pueblo Saturday and is consigned to the railroad company at Kennewick by way of the Northern Pacific. It is expected to arrive within a few days. Shipments are expected to leave Pueblo every few days until the full order has been filled. Portions of the steel will be received at Attalia, reached by both the O. R. & N. and Northern Pacific. Other shipments will be consigned to Granger and Kennewick. With advantageous points for receiving the material it is expected that steel gangs will shortly be at work.

Ten miles of rock work on the Spokane and Tekoa branch of the North

Coast railroad, at a cost of \$400,000, has been awarded to Washtock & Chew, railroad contractors of Spokane, who did a large amount of work for the Chicago, Milwaukee & Puget Sound railroad. The work will be done a short distance above the confluence of Marshall and Hangman creeks, about five miles from the Spokane city limits.

### Five Tunnels in Ten Miles.

"Within the 10 miles there are five tunnels through solid rock, aggregating a distance of one mile," said one of the members of the firm. "The contract which we have taken is conditional. We took the work on condition that the city grants the franchises which the company has been asking in Spokane. The details of the work are completed and as soon as that matter is settled we expect to begin. Most of the entire 10 miles is heavy rock work and about nine months will be consumed in completing it. We can use a large force of men."

### Main Line of Northern Pacific.

That the Northern Pacific will make the line from Bender, a point a few miles below Prosser, through Granger, Grandview and Sunnyside and at least as far as Toppenish, the main line for through trains has been the belief in North Yakima for many weeks. One reason is that the distance is shortened by at least two miles and will run through a country that is already developed. Many people who have watched the course of events think that the main line will continue north through the Parker country, but recent advices from the lower country are to the effect that the crossing of the Yakima river will be made near Zillah into Toppenish, connecting with the present main line at that point instead of at Parker.

### WENATCHEE ARID SEPT.

Dry Forces Carry Every Ward For Local Option.

The result of the first local option election held in Wenatchee August 23 resulted in a sweeping victory for the dries, who won by a majority of 106. The count showed that the dries had carried every ward in the city. The wetts east 345 votes, and the dries, 451 of a total of 840 registered voters.

It is estimated that \$2000 has been spent in carrying on the campaign. Now that the election is over, and the dries have won, it is expected that the council's ultimatum, issued some time ago, will be carried out and the saloon licenses now in effect will be canceled September 1 and the unearned portion of the license money returned.

As all three of the licenses expire before October 1, the amount to be remitted will be only \$200. During the last two months the three saloons which have been running have enjoyed a big trade and an increased shift was used to handle the business.

### New Mail Boxes

Postmaster W. L. Lemon has finished installing 41 new mail boxes for collection purposes in different parts of the city which will prove a convenience to residents. These boxes are located as follows: South Seventh avenue opposite the school house, corner South Eleventh avenue and Spruce, corner South Third avenue and Chestnut, corner North Third and B streets, corner North First and F streets, corner Yakima avenue and Fourth street, corner Naches and Beech streets, corner South Sixth and Spruce streets, corner South Sixth and Pine streets, corner North Third and H streets.

### Much Fruit at Sunnyside.

Sections which have not hitherto shown as the heaviest fruit yielders are this year likely to shine brilliantly both for the quality and quantity of fruit they will produce. The Moxee valley and Sunnyside are cases in point. Reports are that both sections have no complaint to make, as have other sections, of a scarcity. Both these valleys have been known to complain when other districts were well supplied and happy, but this year, for some reason, the conditions are reversed.

### Taft Accepts Program.

President William H. Taft, through his secretary, Fred W. Carpenter, has accepted the program as proposed for his entertainment while in this city September 29 with one exception. He wires that the program is satisfactory with the exception of the proposed breakfast at the Yakima hotel.

The president will have breakfast in his private car, after which he will be taken for a spin in an automobile over the valley. He will then be escorted to a public rostrum where he will deliver an address to the people of this city. The location of the rostrum has as yet not been decided upon but it will be in some convenient place. After the speech the president will be entertained at a luncheon at 12:30 o'clock, after which he will depart for Seattle where he will pay a visit to the Alaska-Yukon-Pacific exposition.

The wire accepting the program was received Wednesday by President Miller of the Yakima Commercial club.

### Want the Pennant.

Baseball fans of North Yakima have risen in their wrath over the "mislaying" of the Yakima valley league pennant and unless A. W. Wishard and J. H. Vangesen, Ellensburg baseball lights, in whose hands the pennant was placed before its disappearance, produce the coveted bunting by tonight, suit for recovery is threatened.

Toppenish and North Yakima will settle the ownership of the flag in the last game of the series tomorrow in this city and local fans and baseball leaders want the "rag" on display.

### To Tunnel Selah Hill.

The Washington Investment & Power company will run a tunnel through the Selah hill at the gap to carry the water of the Selah and Moxee canal. Four miles of the ditch and 80 rods of the flume have been voted by the stockholders to this company and an agreement made under which G. S. Rankin and associates will maintain that part of the canal and deliver through it the water for irrigation to which the stockholders are entitled.

### Want Their Pay

Five baseball players, who were members of the Ellensburg team during the season just closed, have placed their back salaries, amounting to nearly \$600 in the hands of an attorney for collection from the Ellensburg Baseball association.

### CITY COUNCIL CONSIDER WATER WORKS PROPOSITION

Supt. Arrowsmith Appears Before Members and Offers N. W. L. & W. System at \$331,000.

A special meeting of the city council was held Wednesday afternoon, which was called for the express purpose of going over the city water works proposition with George Arrowsmith, superintendent of the N. W. L. & W. company, in regard to the proposed purchase by the city of the present water plant. The conference was a lengthy one and the ever-perplexing water question was discussed from every standpoint.

Superintendent Arrowsmith announced that he was authorized by his company to make an offer of the sale of its water plant to the city for the sum of \$331,000, which is \$59,000 less than what the company offered to accept for the plant six months ago, and \$108,500 more than the city offered the company about six weeks ago. Mr. Arrowsmith, however, in making his proposition last Wednesday lays much emphasis on the point that the \$331,000 offer is flat and final so far as his company is concerned, and that the city could either take it or leave it. He intimated that in case of a sale being made the company would be willing to accept the city's bonds for the greater part of the purchase price.

That the city council thinks seriously of buying the old plant is evidenced by the fact that City Engineer Doolittle was instructed to proceed at once to inspect thoroughly the present system and report on its physical condition at the next meeting of the council.

Public opinion seems to be against paying such a price as \$331,000 for the water plant in its present condition. Many leading citizens are in favor of the purchase by the city, but not at a price of over \$250,000.

### Big Assay From Elizabeth Mine.

Prof. J. T. Keppel returned home a few days ago from a trip to the Gold Hill mining district, where he accompanied Frank X. Nagler on a tour of inspection of the Elizabeth mine. Prof. Keppel is instructor in chemistry in the high school faculty of this city and conducts an assay office at 106 S. Second street.

The professor was highly pleased with the mineral showing of the Gold Hill district, or rather what he was able to see of it. The Elizabeth mine, especially since having made assays of its ore since his return, he regards as a property of wonderful promise. The Democrat is informed that one assay made from a sample taken clear across the 27-foot face of a dyke on the Elizabeth showed values of \$244 per ton in gold. This is a wonderful showing and if truly indicative of the values in the Elizabeth lode, that property is surely destined to become a great mine.

Manager Nagler at present has a force of four men at work at the mine, which he proposes to increase soon. His company also proposes putting in yet this season a small reduction plant and keeping a force employed at the mine all winter.

### Plenty of Room at Seattle

Through the efforts of the Seattle Chamber of Commerce in providing accommodations for visitors, that city claims the distinction of being the first place to hold a world's fair without the attendant crowding and difficulty in obtaining rooms.

Although several hundred thousand people will attend the exposition from points outside the city, over 100,000 having arrived already, there has never been a time when the room accommodations have not been ample to take care of the crowd.

For several months before the fair opened its gates the Seattle commercial body conducted an active campaign to induce the citizens of the city to let rooms. Many have advertised rooms for rent from motives of pure city patriotism, induced by the campaign.

The visitor at the exposition has his choice of all classes of accommodations to suit his purse, from the most reasonable room at 50 cents a night, to the costly apartment. Good rooms may be secured close to the exposition for 75 cents to \$1.50 a night. The general air of hospitality which the city has assumed toward visitors has attracted much favorable comment.

### Excellent Music

The Ohio male chorus which is on its way to participate in the competitive work at the Seattle exposition, was given an ovation by the large audience which turned out to hear it at the Methodist church Tuesday evening. The chorus under the leadership of Prof. Hugh W. Owens, is a well trained aggregation of singers, all of whom have unusual musical ability and in whom sweet harmony has been developed by careful practice and training. They were encored time and again and responded with both popular and classical selections. Perhaps the encore, "Old Black Joe," by the chorus and Dr. Shaw's rendition of several specialties were most appreciated.

### The Hop Outlook.

Hop picking will begin generally this season about Monday, September 6, and it is estimated that at least 4000 pickers will be needed to harvest the crop, which will be light this year, but of fine quality. The price quoted for new hops is still around 20 and 21 cents, with no sales being made. The actual price, it is said, will be largely determined by the size of the Oregon crop, which is estimated at from 80,000 to 90,000 bales.

J. L. Slade, who has a ranch on the Summit View road, is entertaining Mr. and Mrs. William Boylson of Eagle Grove, Ia., who were old friends and neighbors of Mr. Slade and family, when he made his home in that state. Mr. and Mrs. Boylson will remain two or three weeks and only a little inducement would keep them here permanently, for they are very much taken with the country and are already filled with the enthusiasm so contagious here. Another visitor with Mr. Slade is Lawrence Knott, also of Eagle Grove, who stopped off between trains to see the country.

\$10 down and \$10 a month gets a 5-acre orange farm and a city lot. See Mexico Land Co., 2 1/2 West Yakima Ave.

### COLLIER'S ON BALLINGER

Noted Weekly Seeks to Convey Impression That Secretary is Guilty of Sweeping Charges.

In the current issue of Collier's Weekly, Secretary of the Interior Ballinger and Senator Heyburn of Idaho are pictured as two public servants who are not a credit to the country. The editorial closes with a laudation of President Taft. It follows:

"Don't mix up Ballinger and the president. Many newspapers, statesmen, and others will assure you that those two gentlemen stand for law, whereas Mr. Gifford Pinchot, Mr. Newell, Mr. Garfield and Mr. Theodore Roosevelt represent lawless impatience. Mr. Taft does in reality care for legal impartiality and calm. Mr. Ballinger, wearing that cloak, cares somewhat too much for 'business interests.' The contest between him and Mr. Pinchot should not be side-tracked on some irrelevant side issue. Mr. Pinchot is not a master of safe legal statement, but everybody who desires to do so can readily understand his actual meaning. Nobody proposes to violate the law, even to benefit the public. The question is merely how to use the discretion which is left to men in power. Let us see how Ballinger has used his."

Mr. Ballinger makes a speech about not limiting private enterprise. If we pay any attention to what is really happening to power rights all over the United States, may we not omit anxiety about struggling private enterprise? Mr. Ballinger declares at Seattle and Chicago that the interior department is not to be run by Mr. Pinchot. We can well believe so much. Will the secretary declare also that his department is not to be run by Senator Heyburn? The alliance between Ballinger and Heyburn is an alliance for special interests, surely as the alliance between Roosevelt and Pinchot and Garfield was an alliance for general interests. Not long ago a few constituents, giving no reason, asked Heyburn to use his influence to have certain lands eliminated from a forest reserve in Idaho. Heyburn hurried it to Ballinger, with an urgent request for immediate action. About the same time Heyburn received a very different petition from others of his constituents. These gentlemen asked for the withdrawal of lands, "because as home-makers we believe it necessary that this area be placed under national forest administration for the equitable distribution of grazing rights, protection of the timber and our watershed." What does Heyburn now? This petition does not go to the department. The senator replies: "I do not desire any more forest reserves in Idaho and shall not willingly consent to the creating of any more." He also says, "You could not live on it and it would be closed to settlement." Dear reader, if you will turn to your files of the Congressional Record for 1906, April, May and June, you will observe Senator Heyburn helping to pass the law which provides for settlement in forest reserves. Just what did he mean, therefore, by his threat to his constituents? A senator and a secretary of the interior make a powerful working team. Officers of local land offices are appointed upon the nomination of senators, so are federal district attorneys. As a newer incident in this controversy, let us note that indications were to be seen in the recent extra session that Senator Heyburn did not at all like the president's appointment of George W. Woodruff to a federal judgeship in Hawaii. It happens (perhaps it is a coincidence) that this Woodruff, once assistant attorney general for the interior department under Garfield, rendered a legal decision which caused Ballinger to resign from the land office, which he then decorated, but where, as far as the general public is concerned, he never, never was missed. Garfield had been struggling to limit to reasonable proportions land and timber grabbing in the west. Ballinger, soon after he became commissioner of the general land office, executed radical changes among the special agents, sending men of experience and vigor to new and distant territories where they would be less destructive to private enterprise. Roosevelt came to the assistance of Garfield, directing the co-operation of the forest rangers with the officials of the land office. Ballinger resigned and hid him away to Seattle, where the wood combine thrived, and seems likely to thrive for a long time yet. One more remark about Ballinger, showing him using the power of transfer in his present office, and we close. Just why did he recently send the man in charge of the land fraud investigations in Idaho to distant regions, replacing him with a mere youth, whose father is federal officeholder and friend to Ballinger? What does the Barber Lumber company think of that? Why no tears?

"Our appreciation of President Taft reaches enthusiasm. His treatment of the Philippines, his administrative ability in Mr. Roosevelt's cabinet, his tact in foreign missions, some of his appointments, his endeavor to hold his party to its tariff pledges, his promise to help reform criminal procedure, his conspicuous honesty, all make us rank him high. The course against which he most needs to guard is plant yielding to the soft conception of harmony; it is the acquisition of peace by wearily placating gray wolves; it is the policy of silencing their growls by throwing them an important office when they have been howling all the day and night."

Dr. F. M. Snyder returned the first of the week from a trip to the Deschutes valley in Central Oregon. He reports that there are between 2000 and 3000 men at work on the railway which is to be built through the valley. He also visited Portland.

Marriage licenses were issued today to Winfred Jos. Gibson and Miss Lillian May Allen, both of Toppensish, and to Edward E. Dillon and Miss Minnie K. Wallace, both of North Yakima.

### ADDITIONAL LOCAL.

Hon. Edward Whitson, U. S. judge for the eastern district of Washington, was in the city from Spokane Thursday and Friday.

Hon. R. A. Ballinger, secretary of the interior, returned to Yakima Wednesday evening from a trip to Ellensburg to await the coming of the senate committee on irrigation. He was favorably impressed with the feasibility of the big Kittitas irrigation project, but held out no hopes that the government would undertake it at present.

J. Dickson Mathews of Milan, Ill., while on his way to the Seattle exposition, stopped off at North Yakima Wednesday to visit for a couple of days with his cousin, J. D. Medill. The young man was very much pleased with what he saw in this city and valley.

Mrs. George Donald and two children left this week on a visit of several months to relatives in New York state and eastern Canada.

Ed Knowles, head plumber of the Yakima Hardware company, and secretary of the Washington Mining company, whose property adjoins the Goodenough mine in central Idaho, received some samples of ore from the mine this week which looked good to him, especially after getting an assay made. The ore assayed showed a value of \$744 in gold and \$8 in silver to the ton, a total of \$752.

**MAY TEAR DOWN THE OLD DEPOT**  
Railroad Officials and Contractors Want to get to Work on Express Office at Once.

Destruction of the old station building of the Northern Pacific railroad will probably begin within a few days now. The matter is before the railroad authorities for decision as to whether the work of construction of the express office will begin at this time or be delayed until the station proper has been constructed. The desire of the contractors, and of the railroad people as well, is to have all the work of improvement come to a completion at the same time. As against this is the fact that if the old station is now torn down there will be inconvenience to both the railroad and the public. This, however, will be but temporary.

The new express office will occupy the space from the present gentleman's waiting room south as far as the avenue line. It will be necessary, therefore, if the old station is destroyed, to make new quarters for the ticket office and the train dispatchers. The present plan is to enclose the passage between the gentleman's waiting room and the baggage room and use that as a waiting room, reserving a portion of the north end of the old station building as a ticket office and dispatchers room.

### WATER USERS GET RELIEF

H. J. Snively Says Solution Is About Reached—Irrigation Senators Here Tonight.

The most important feature of Secretary Ballinger's stay in North Yakima Thursday was his intimation to H. J. Snively that the disposition of the Pomona Heights Water Users' controversy with the North Yakima & East Selah Irrigation company might be disposed of by the government selling the settlers storage water from the reservoirs at the source of the Yakima river at the nominal cost of storage, probably between \$10 and \$15 per acre.

It will be recalled that the North Yakima & East Selah Irrigation company sold land in the East Selah in what is known as Pomona Heights, promising water for April 1, 1909. The company was unable to make good its guarantee despite the fact that a great many settlers bought land there and many of them went there to live. To provide these settlers with a supply of water the above plan has been proposed, the settlers to complete the pumping plant which will convey the water to the land. It is not understood that this arrangement has been definitely entered into, but Mr. Snively says that the secretary hinted strongly that such a disposition of the matter would probably be made.

Secretary Ballinger in company with Messrs. Conway, Knapp, Code and Swigart of the government service, and Messrs. Fechter, Larsen, Arthur and A. H. Henry, Alex. Miller, and Theodore Weisberger made the trip to the works on the Tieton by autos Thursday morning, inspected the tunnel and took a trip over the first unit of the Tieton project, returning through the Cowlitz and Wide Hollow districts. While uncommunicative as has been his wont since arriving in this city, Secretary Ballinger appeared well pleased with the work the reclamation service has been doing. The only deprecation uttered, according to those in the party, was concerning the horrible condition of the roads. A gentle zephyr blowing some 25 miles an hour carried the dust with the autos all the way on the return trip, and this is believed to have accentuated the pleasures of the journey, at least that version of it is related by ex-Mayor Fechter.

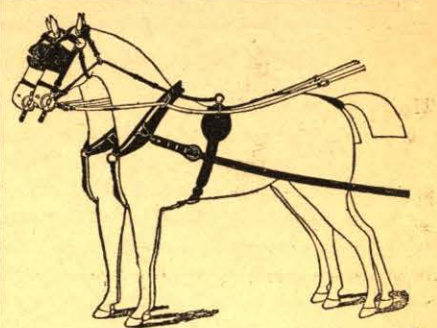

Secretary Ballinger left on the afternoon train for Prosser, where he met the senate irrigation committee last evening, and the party will journey by autos through the Benton and Sunnyside districts today, reaching North Yakima tonight. The senators are traveling in special cars and have their own autos in part. A trip will be made over the Tieton Saturday, and the visit of the senators will be concluded with a smoker and banquet at the Commercial club Saturday evening.

Secretary Ballinger will confer further with the Pomona Heights Water Users this afternoon and plans to leave tonight or Saturday for Seattle. A corroboration of the report that President Taft had summoned Secretary Ballinger to Washington and Beverly to aid in the unraveling of the Alaska coal lands investigation in progress by the government could not be obtained from Mr. Ballinger.

### Will Practice Anyway.

The recent action of the Washington state medical examining board in denying the right to practice to hundreds of drugless healers within the confines of the commonwealth has brought about a peculiar condition of affairs. By refusing to issue certificates to the drugless healers the state board has put such of them as continue to practice in danger of severe punishment by the law. Yet, the drugless healers—or many of them, at least, are continuing to practice and make no secret of it. Here in North Yakima, which is a typical city of the state, at least two drugless physicians are, by their own admissions, continuing in their work absolutely without regard for the mandates of the state medical examining board.

## NACHES COUNTRY HAS A FEW PEACHES TO SHOW

Residents of That Section Wish It Understood That They Are Keeping Up With the Procession

Naches people want it understood that they raise peaches, too. Their orchards are young, but they produce the rosy-cheeked goods that have given their name to rosy-cheeked things in general. Some well colored Carmen peaches have been brought to the Republic office from the Shadbolt & Schoephoester ranch in the Naches. They were picked from 4-year-old trees—10 boxes of them. There were a few Elbertas and Hale's Early, too.

The Naches country is expected to produce a good crop of peaches next year. Mr. Shadbolt states that the temperature there was considerably higher than in North Yakima during the cold weather last winter. Peaches there will be somewhat later than in other sections, but they will be there, nevertheless.

### Much Untaxed Land.

Recent activity on the reservation in regard to irrigation has disclosed the fact that there is over 2500 acres of land assessable in that part of the county which has escaped taxation. This land had been sold by Indians to whites but the Indian agent had failed to make any returns of the transfers. The matter was taken up by Assessor Sindall with the department and a report has been received showing that about 2500 acres of the reservation had passed into new hands recently. The board of equalization has instructed the assessor to prepare supplemental assessments showing the amount of taxes due from this land.

### Sanitarium Taxed.

In accordance with a ruling by Prosecuting Attorney Ward and under instructions from the county board of equalization County Assessor John W. Sindall will assess the property of the North Yakima Sanitarium company. It has not been assessed heretofore on the ground that it was a charitable and not a money-making concern. Attorney Ward holds that it does not appear to be supported by public or private charity. The land of the institution has now been assessed at \$580 an acre and the buildings and other property at \$9000. It is probable that the matter will be taken into the courts.

Mrs. P. M. Armbruster, wife of the mayor, left for an extended visit at Green River Hot Springs Sunday morning, hoping to better her health, which has been poor for some time.

## A LIST OF TIETON LAND NOW SUBJECT TO ENTRY

Vacant land subject to entry under the Tieton restoration of July 30 has been figured out by the local land office and the figures show an aggregate of 1880 acres exclusive of township 14, 15, which is unsurveyed.

The vacant lands restored to entry on December 9 as figured out by the land office are as follows:

Township 13 north, range 16 east, north ½ and southwest ¼ of section 24. All section 34.

Township 14 north, range 16 east, southwest ¼, south ½, west ¼, southeast ¼, section 21; southwest ¼, south ½, southeast ¼, south ½, northwest ¼ and northwest ¼ of northwest ¼ of section 26.

Township 13 north, range 17 east, southwest ¼ of southwest ¼ of section 1.

Township 14 north, range 17 east, southwest ¼ of southeast ¼ of northwest ¼ and northwest ¼ of southwest ¼ of section 20.

Township 13 north, range 18 east, southwest ¼ of northeast ¼ and northeast ¼ of southeast ¼ of section 6.

This land was withdrawn from entry in connection with the Tieton project. The work has now progressed so far that it is seen that this land will not be required in the work, therefore it has been restored. It lies above the ditch and does not come under the irrigation from the canal. Much of the land is excellent and will become in time a good yielder.

### The New Hotel Savoy.

The Savoy, Yakima's new hotel, was opened to the public last Wednesday. This late acquisition to Yakima's hostelry is located at 106 West Yakima avenue, just one block from the depot, and was especially designed and built for hotel purposes.

While the Savoy is not the largest hotel in the city by any means, it is unquestionably the most up-to-date in its appointments and accommodations. Every room is an outside room and equipped with hot and cold water.

Mrs. Alice Wilgus, the proprietress, is well known in Yakima as a caterer to the fastidious and in the furnishing of the Savoy she has eclipsed all former efforts. The carpets throughout the house are Axminster and body Brussels. The furniture is in maple, cherry and walnut. The crowning feature of the rooms are the beds, which are iron with gold trimmings, and equipped with woven wire springs and Ostermoor mattresses. Mrs. Wilgus has secured the services of one of the best chefs in the west to supervise the culinary department of the Savoy and the public can feel assured of first class service in every respect. Both the American and European plan has been adopted by the Savoy, thus enabling its patrons to live there according to their own choice. As the Savoy is a new house from top to bottom and conducted by an experienced public caterer, the public, and especially commercial men, are invited to make this beautiful little hotel their headquarters.

### Few Apples in Europe

Ren H. Rice, secretary-manager of the National Apple Show, Inc., has received advices from London, Liverpool, Dublin and Hamburg which indicate that because of the shortness of the crop in Europe there will be a large demand for American apples the coming fall and winter, with the promise of better prices than in former years. The apple crop in England is reported to be far below the average and there is an increased demand, not only for fancy fruits but also for medium grades. Robert P. Skinner, United States consul, writes from Hamburg there is a larger demand in Germany for American apples, adding that this European business can be increased by sending only the best fruit and honest packs. Growers in the Northwestern states and provinces are preparing to send large consignments of fruit abroad this season.

### Yakima Loses One

After a long string of victories Yakima county lost out in the Winesap apple competition at the A.-Y.-P. exposition. Chelan won by a margin of six points. The following letter from Superintendent E. J. Haasze to Secretary W. B. Newcomb tells the story: "Winesaps have been judged since I was over and we only got 490; Chelan, 496, and on Hyde's King, 492; Chelan, 490. We did the hardest work on these Winesaps, but lost out. We are very sorry about this, but it could not be helped. We did not have the apples to show against others which had been packed in cotton batting."

### Prize-Winning Herd Bought.

N. M. Snodgrass, who lives just south of the city, has bought the prize-winning herd of 15 brown Swiss cattle, formerly owned by Jayne & Bond, of the Moxee, and will exhibit the animals at the Salem (Ore) fair, at the Portland Livestock show and at the A.-Y.-P. fair this fall. For the present Mr. Snodgrass will keep the herd in the Selah valley, but after exhibiting them will take them to his ranch. He intends to dispose of a few of the animals, as the herd at present is larger than he cares to maintain.

## NEW GAME LAW IS PASSED BY HOUSE

Closed Season Is Lengthened One Month on Both Upland and Water Birds.

designed to furnish better protection, has been passed by the house. This bill makes the open season on deer, mountain sheep and goats and caribou October 1 to November 30, makes two the season's bag and prohibits killing spotted fawn, and makes it unlawful to kill any deer when in any lake, river or salt water. Heretofore many deer have been killed in the water when drinking or pursued by hounds.

### Shorter Season on Birds.

The open season on grouse, partridges, prairie chicken, sage hen and all varieties of pheasant and quail and all upland birds is from October 1 to January 1. Provided that all Mongolian partridge shall be entirely protected until October, 1913.

Special restrictions are laid upon some of the eastern Washington counties.

The bag limit is fixed at five per day on upland birds save quail, on which the bag limit is 10 per day, but the total number in mixed bags shall not exceed 10 per day.

### Change for Water Fowl.

On geese, swan, ducks, teal, snipe, curlew, plover, rail, surf or shore game birds, the open season is from October 1 to February 1. Provided, that it shall be unlawful to kill curlew, plover, surf or shore birds, brant and geese during the months of March, April and May along the ocean beach and five miles inland in Pacific, Chehalis, Clallam, Jefferson and San Juan counties.

The bag limit on all these kinds of birds is 20 per day or 50 per week, all told.

The sale, keeping or serving by persons, companies, concerns, restaurants or hotels of any game or game birds, save that a person may have the same for his own use, is strictly prohibited.

### Boys Steal Guns

Burglars believed by the police to have been boys entered the hardware store of Treat & Rayner, on South First street, Sunday night or morning and stole property to the value of \$300. The stolen goods, according to an invoice furnished the police, were 21 Iver Johnson revolvers, 30 dozen fly hooks, 12 fish lines, 12 boxes of cartridges and six hunting knives.

## A WONDERFUL APPLE DISTRICT

Council Valley, Idaho offers perhaps the very best opportunities for the fruit grower of any section in the west. At an altitude of 2910 feet; surrounded by timber-covered mountains; with abundance of water for irrigation; with splendid shipping facilities over the Pacific & Idaho Northern railroad and land still selling as low as \$60 per acre Council Valley indeed is worthy of careful investigation.

Apples have been grown in Council Valley for twenty-five years without a single failure and this year there is not only a full crop of apples but there is a fine crop of peaches, pears, prunes and all tender fruits as well.

Fourty-four plates of Council Valley apples won first prize on county sweepstakes at the Idaho State Fair at Boise last fall.

Six boxes of Council Valley apples at the National Horticultural congress at Council Bluffs, Iowa last fall won Seventeen prizes competing with the best from everywhere. It will pay to investigate Council Valley.

For full information regarding apple land investments in Council Valley address E. W. BOWMAN, "Sign of the Big Red Apple," Council, Idaho. 198-4t

Dr. and Mrs. Thomas Tetra returned yesterday evening from Seattle, where they have been to attend the festivities conducted by the Knights of Columbus.

## The Checking Account for the Farmer

Many farmers keep a checking account with us regularly because it is a great help and convenience in their every day business.

With a checking account you can tell exactly the total amount of your receipts and expenditures for each month for the entire year. When you sell your farm products, deposit your money in the Bank, subject to check. The obligations you have can be cancelled by check. When you make a purchase, pay by check.

We invite you to try this system.

#### SO LONG, "UNCLE JOE."

Speaker Cannon has hit the political  
toboggan and when the present congress  
adjourns sine die he will disappear as  
completely from public view as a pebble  
thrown into the Yakima river.

"Uncle Joe" was raised on high by the  
trusts and corporations. He was played  
up by the republican press as a simple  
country jake with hay seed in his hair;  
careless of dress, simple in habit, clean  
in his private life and incorruptible in  
public life; whose only mission was to  
serve the "dear" common people.

As the people of the United States  
gradually began to get an insight into  
Cannon's true character, the trusts be-  
gan to withdraw their support until to-  
day he finds himself sinking into the  
political cesspool.

Thus it has always been with "tools"  
and traitors. "Uncle" can now brush  
the clay from his boots, use a toothpick  
instead of a sprig of timothy, buy a  
pair of suspenders, go back to Danville  
and be forgotten. So long, "Uncle Joe."

#### MANY COCAINE FIENDS

The sudden growth of the "coke"  
habit in many parts of the United  
States has led to an investigation of  
the matter by city and state officials.

The state board of reform of Wyom-  
ing reports that "in Cheyenne, cocaine  
is acknowledged to be at the bottom of  
more crimes than all the other causes  
put together." The problem of dealing  
with the matter is especially difficult in  
Wyoming because there are no laws re-  
stricting the sale of cocaine in that  
state.

Indications are that there are more  
persons addicted to the habit of using  
cocaine in those states where prohibition  
of liquor is enforced than in those  
states where liquors are sold.

It seems that certain persons must  
have some form of a stimulant and if  
they cannot get whisky or beer they will  
turn to the use of drugs or opium. And  
from the reports on the subject it  
seems that of the two stimulants the  
drugs produce by far the worst effects.

If the people own the railroads there  
would be no profits going to make mil-

lionaires; there would be no bribing of  
legislators or judges; there would be no  
interfering with rates in the interest of  
certain places and corporations; there  
would be no scandals such as we have  
been having for years; there would be  
no interfering with elections; no secret  
rebates to favored shippers; no millions  
spent by the government and states to  
convict the railroads for their crimes  
against society; there would be no own-  
ership of great papers by railroad mag-  
nates to deceive the public. If—a small  
but potent word.

The people forget very soon. The  
Wall street vampires are again trying  
to seduce the public to invest in its  
stocks and bonds. It would seem that  
after the recent skinning given by these  
sharks the public would be wise. The  
best thing to do at present is to leave  
industrial stocks and bonds severely  
alone. If you have a little money that  
you don't know what to do with better  
buy city, state or school bonds, or bet-  
ter yet buy fruit land in the Yakima  
valley.

When the rains in the middle west  
promised a more abundant corn crop the  
grain speculators of Chicago dropped the  
price on the prospective crop to exactly  
the same total that a smaller crop  
would have brought. The rains from  
heaven it seems fall for the benefit of  
the gamblers of the people's bread.  
While we are learning scientific ways in  
horticulture would it not be a good  
thing to invent some sort of "spray"  
that would kill these pests of the body  
politic?

According to our honorable contem-  
porary, the Yakima Daily Republic, "mind  
can make sick as readily as it can make  
well." Suppose, Colonel, you got the  
rheumatism, could you think yourself  
well? While this paper is ready to ad-  
mit that disease is largely due to negli-  
gence and to that extent criminal, yet  
it can not go so far as the Republic in  
declaring disease an imagination.

The tariff bill has passed to suit the  
Daily Republic and the country has been  
saved again. By the way, what do you  
know about the tariff bill that was  
passed? Have you read it? Have you  
been benefited by it? Say, it's great to  
save the people from themselves, isn't  
it? Just as easy!

#### GOVERNMENT ALL IN ALL.

There is a little country from which  
I have just returned, some 2000 miles  
to the south of New York city, where  
everything is done in new and wonder-  
ful ways. There the government is all  
in all, and though the individual does  
not seem to wither, the race is more  
and more.

This interesting land is the Canal  
Zone, a strip of territory 47 miles long  
and 10 broad, across the Isthmus of  
Panama. It is owned absolutely by the  
United States and Uncle Sam may be  
found there working night and day at

all the jobs usually left to private in-  
itiative.

Does one want food? Uncle Sam fur-  
nishes and delivers it at prices about  
the same as in New York. Does one  
want food cooked and served? Uncle  
Sam is ready at half a hundred places  
with meals at prices from 10 to 30  
cents apiece. He runs a railroad and a  
steamship line and a weekly newspaper.  
He gives free quarters to all his helpers  
and their families. He provides them  
with clothing at cut prices. He manu-  
factures ice and sells it for next to  
nothing. He bakes bread, pies and  
cakes and delivers them at consumers'  
doors. Every week he turns out and  
delivers more than 800 gallons of ice  
cream. He imports and sells Havana  
cigars at the price of Connecticut imi-  
tations. He washes, starches and irons  
linen, and mends, presses and sews but-  
tons on outer garments. There isn't  
much that can be done for creature  
comfort that he doesn't do; and all his  
helpers (some 30,000 persons) along with  
their families (some 10,000 or 12,000  
more), are sharers in this governmental  
paternalism. It is not socialism, be-  
cause among other things it lacks that  
fundamental basis of socialism, democ-  
racy; but it is the completest and great-  
est experiment in governmental collec-  
tivism that the world has ever seen.—W.  
J. Ghent in New York Sun.

#### WHAT THE WEST WANTS.

Visitors are returning from Wash-  
ington, Oregon, Idaho, Utah and other com-  
monwealths telling of the glories they  
have seen. Many declare their intention  
to join the great army of homeseekers  
who are pressing into these new lands  
of promise. Their enthusiasm merely  
reflects the feeling of those already set-  
tled beyond a more distant range of  
mountains than that which formed a  
barrier for the pioneer of a century ago.

The expressions which come from the  
irrigation congress at Spokane indicate  
the belief of the "west" in itself. It  
knows what it wants. It does not use  
a foot rule or a pint cup in its measure-  
ments. Nothing but a large scale will  
satisfy it, as it looks out upon the pos-  
sibilities. And it must be confessed  
that there is something contagious in  
the confidence which every western man  
feels in the certain future. As a stimu-  
lus to patriotic pride it can not be sur-  
passed.

The "west" wants money. It wants  
lots of it. Specifically, it wants \$5,000-  
000,000. It will share part of it with  
projects will require much of the vast  
amount. The money is to be divided  
the rest of the country. But its own  
into five equal parts and is to be used  
for reclamation of arid lands by irriga-  
tion, for deep waterways, for good roads,  
for conservation of forest resources and  
for drainage of swamp lands. Five bil-  
lion dollars is a great amount. The  
vision of the Atlantic coast citizen would  
never reach so far. It is the expectant  
"west" which sees far ahead, outlines  
the needs, and looks forward with a  
hopeful spirit in the direction of great  
accomplishments.—Chicago Tribune.

### STATE CONVENTION OF DIRECT LEGISLATION LEAGUE

Will Be Held in Fine Arts Hall at A.-Y.-  
P. Exposition Next Tuesday, August  
31, at 2 P. M.

The Washington Direct Legislation  
League will hold a state convention next  
Tuesday at Seattle. The main session  
will be held in the Fine Arts building  
at the A. Y. P. exposition at 2 p. m.

The object of this league is to secure  
the submission and adoption of a con-  
stitutional amendment providing for the  
initiative, referendum and recall, as the  
people have already done in Oregon and  
other progressive states.

The principal speakers and the subjects  
discussed are as follows: Hon. W. H.  
Kaufman of Bellingham, Wash., on "The  
Best Plan for Securing Direct Legisla-  
tion." Hon. W. S. Uren of Oregon, on  
"Six Years of the Initiative and Refer-  
endum in Oregon."

This is the next great movement be-  
fore the progressive citizenship of this  
state and all who have the interest of  
the state at heart should lend the league  
a helping hand. It means a step to-  
ward better government, better officials  
and better laws. It is non-partisan.

#### Women Scratch the Ticket.

Washington women in their fight for  
the ballot are going to give wide cir-  
culation to the substance of an address  
made at the A. Y. P. auditorium recent-  
ly by Judge Ben B. Lindsey, who de-  
clared equal suffrage was all that saved  
Denver from complete domination by  
corrupt interests. In fact, Judge Lind-  
sey, whose works of uplift have made  
him favorably known, far and near, at-  
tributes his election to the bench to  
the votes of women. When the politi-  
cians vowed to defeat him, he made a  
direct appeal to the fair sex and re-  
ceived the undivided support of that  
part of the electorate.

"The reason why women saved Den-  
ver from the spoilsmen," said Judge  
Lindsey, "is because they are not blind  
party adherents. Denver women have  
learned the gentle art of scratching the  
ticket. They use their brains and can  
be depended on to stand up for the clean  
and to oppose the unclean."

Washington men who will have to  
vote on a constitutional amendment for  
equal suffrage in 1910, will be made  
acquainted with these facts by the or-  
ganization that is now championing  
women's rights in this state.

#### Two More Stars

Various are the pretexts given for the  
denial of separate statehood, which the  
territories ask, not as a boon, but as a  
right. It is charged by Senator Aldrich  
that they are dominated by the rail-  
way and mining interests, and that  
their political affairs are hopelessly  
corrupt and rotten. Senator Beveridge  
says "ditto" to Aldrich, and adds that  
they are not fit for statehood, and will  
not be for many years. Some argue that  
their population is too small, and dis-  
claim against the creation of any more  
"pocket-borough" states like Nevada;  
Some would deny statehood to New  
Mexico on account of its large number  
of Spanish speaking citizens, and some  
think that the alleged domination of  
the "Pennsylvania gang" ought to dis-  
qualify it. Again, it is argued that to  
give Arizona with 200,000 inhabitants,  
and to New Mexico with approximately  
500,000, the same power in the United  
States senate that New York possesses  
with more than ten times the population  
of both combined, would be a manifest  
absurdity.—John L. Crown in The Pa-  
cific Monthly for September.

### Schively Acquitted

J. H. Schively, State In-  
surance Commissioner, was  
formally acquitted by a  
vote of the State Senate  
Thursday night on every  
count brought against him  
in the impeachment trial.  
It required 28 votes to ac-  
quit, but the largest vote  
mustered against Schively  
was 26.

The verdict in the  
Schively case completed  
the vile record of the pres-  
ent legislature, the worst  
in the history of the state—  
perhaps of any state.

What are the people go-  
ing to do about it?

#### "Man of Many Faces."

E. S. Van Houten, a famous lecturer  
and traveler, was a visitor in the city  
during the week. Mr. Van Houten is  
known as the "Man of Many Faces,"  
due to the fact that he has always  
practiced the custom of dressing and  
wearing his hair according to the cus-  
tom of the country in which he trav-  
ersed. Thus, while traveling and lectur-  
ing in the Holy Land, he dressed and  
made up not unlike Christ did, with  
flowing locks and beard; while touring  
China and the Orient he appeared as a  
celestial, and so on wherever he went.  
His numerous photographs show him in  
almost every conceivable make-up of  
nationality. Mr. Van Houten was at  
one time lieutenant governor of Alaska.  
He is a very brilliant talker and a  
linguist of note.

#### Non-Irrigated Tracts Show Strong.

A feature of the Spokane Interstate  
fair, held this year September 20 to 25,  
is the activity of intending exhibitors  
in the department of fruit, grains, vege-  
tables and grasses. Not only are there  
to be tremendous exhibits of products  
of irrigated tracts, but the non-irrigated  
tracts will be represented by huge and  
choice arrangements of prize fruits and  
vegetables, showing that, despite the in-  
terest in irrigation in the Inland Em-  
pire, stimulated by the National Irriga-  
tion Congress held in Spokane, there are  
vast tracts where growers do not re-  
quire irrigation at all.

## TWO TRAINS OF EX-SOLDIERS

Spanish War Veterans With  
Wives and Friends Will Pass  
Through North Yakima.

Special Train in Two Sections  
Will Reach City on the  
Evening of September 5.

Two special trainloads of Spanish war veterans and their wives and friends will pass through North Yakima Sunday evening, September 5, on their way to Tacoma and Seattle for the sixth national encampment of the United Spanish War Veterans in Tacoma, and to attend the fair on United Spanish War Veterans' day on September 11.

The excursion is scheduled to arrive in Seattle early on the morning of September 6 and to spend two days at the exposition before proceeding to Tacoma for the encampment.

### Special Cars From Atlantic.

Ex-soldiers from all over the country will be members of the excursion, arrangements having been made for special cars to be hauled from the Atlantic coast to the Pacific, one of them from Boston and another from New York. These two cars will start on September 1 and will be attached to regular trains for the trip to Chicago. In Chicago the special train will be made up in two sections, to start from that city on the evening of September 2. Veterans from points outside of Boston and New York and not on the line of the journey of the special cars from the east, must go to Chicago on the regular trains.

### Entertainment at Butte.

The night of September 4 will be spent in Butte, where the local comrades will give a reception to the commander-in-chief, Charles W. Newton, and will take the whole party on a tour of inspection of the copper mines and smelters.

Arrangements have been made by the transportation committee of the department of Massachusetts for an extensive tour on the return trip, for those veterans who desire to take it. The route will be by Northern Pacific to Portland; Southern Pacific to San Francisco and Los Angeles; San Pedro, Los Angeles & Salt Lake railway to Salt Lake City; Denver & Rio Grande to Denver; Union Pacific to Omaha; Illinois Central to Chicago.

### Collar Bone Broken

Staging falling on the new Listmann building on Yakima avenue caused William Acres to sustain a broken collar bone Monday morning. Acres was caught beneath the mass of timbers. Besides his injury to his collar bone Acres was badly cut and bruised. He was taken in an automobile to the office of Dr. Compton and his injuries attended to.

Potatoes are not in great demand at present. White River seems to have the Sound market monopolized. The crop is very good, showing up much better than was expected.

Mr. and Mrs. R. M. Esgar of Bozeman, Mont., stopped off in the city yesterday en route home from a trip to the A.-Y.-P. exposition. Mr. Esgar is a merchant and is here to see the famous Yakima valley and to purchase fruit. He is enthusiastic in his praise of Washington.

Mrs. Hattie Henderson accompanied her mother, Mrs. D. J. Wynkop, as far as Seattle yesterday on her return to her home in Nome, Alaska. Mrs. Wynkop has been spending the summer in the Ahtanum with Mrs. Henderson and her daughters, Mesdames Henderson.

Judge Edward Whitson of Spokane is spending a brief time in North Yakima. Dr. J. E. Banks returned recently from Seattle, where he has been in attendance at the exposition.

Rev. N. H. Barragar will preach at the Christian church Sunday, August 29, at 11 a. m. and 8 p. m. His subject will be "The Drama of Life in Three Acts."

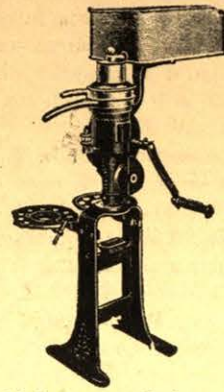

Marriage licenses were issued today to Winfred Jos. Gibson and Miss Lillian May Allen, both of Toppenish, and to Edward E. Dillon and Miss Minnie K. Wallace, both of North Yakima.

Mr. and Mrs. William Maxwell depart this afternoon for Seattle, where they will spend a few days visiting the exposition.

After a two weeks' trip, in which he visited in Oregon, at the fair and on the Sound, City Clerk J. C. Brooker is again in the city.

### CITY LOSES SUIT.

Defendants in Health Case Get Decision  
By a Jury.

The suit of the city of North Yakima against Frank Clerf and Pat Mullins for maintaining nuisances by allowing water to stand in excavations was unsuccessful yesterday in justice court. The city set up that the health of the public was endangered by the standing of stagnant water in the cellars and the defendants set up that they were not responsible for the condition as the drains of the city were inadequate to carry off the fluid.

The case was heard by a jury composed of the following: H. H. Schott, H. H. Allen, J. M. Murchie, George Carey and L. H. Linbarger.

### Action in Debt

Emory Thompson has brought action in the superior court against E. E. Beal and wife to recover for goods sold and delivered, and on a note which he signed as surety with them. He says that in 1908 at Sunnyside he sold them goods to the amount of \$26.17, on which account only \$1 has been paid. Later he loaned them \$5, and then signed a note as surety, upon which there is still due the sum of \$88.27. He asks for the recovery of the entire amount. He also asked for a writ of attachment to apply on real estate. This has been issued.

W. H. Northey, agent for the Northwestern Mutual fire association, has settled the loss sustained by Joseph Garrecht in the fire which destroyed his home on North Seventh street last week. Mr. Garrecht was allowed the full amount of the insurance, \$2000.

An orange or banana farm and a city lot for \$100. For further particulars see the Mexico Land Co., 2 1/2 West Yakima Ave.

### Hotel Tieton

Noth Yakima, Wash.

### School Warrants Ready.

County Auditor Wilbur Crocker announces that the warrants for the school districts of the third class are now in the auditor's office and are being prepared for distribution among the school clerks of those districts. The clerks who are located in the vicinity of North Yakima may have these warrants by calling at the office of the auditor, while the warrants for the more remote districts will be sent by mail to the clerks.

### No Smoking Allowed.

Two young men who are members of the Y. M. C. A. have been asked to vacate their rooms at the association for smoking. The rule that there shall be no smoking at the association is rigidly enforced and as a result of a violation of the same two young men were packing their goods this morning making ready to move out of the rooms they occupied.

### New Flats Planned.

S. H. Danner will build a modern, two-story frame apartment house on Sixth avenue south and Walnut street, the building occupying lot nine of block 292. It will contain 12 rooms, modernly equipped for housekeeping purposes, and will cost in the neighborhood of \$2500.

J. E. Peters and A. N. Johnson departed for their homes in Leviston, Minn., on Wednesday afternoon, after spending two days looking over the Yakima valley. They came here somewhat doubtful of the truth of the stories they had heard of this section. They went away convinced that one-half had not been told. Both gentlemen intend to come back with their families and locate.

The Kohls Investment company, organized to conduct a general real estate and loan business, has filed articles of incorporation with the county auditor. The capital stock is placed at \$10,000, and the principal place for doing business is North Yakima. The first board of trustees is composed of Fred O. Oullette, Lena Kohls and Henry C. Kohls.

Jacob A. Knapp, the architect, is in Spokane this afternoon to attend his wedding. His bride is Miss Mary Carey of that city. Mr. and Mrs. Knapp will spend two weeks or so in honeymoon on the Sound, and then will return to North Yakima, making their home after September 10 on South Naches avenue.

## CLEARANCE SALE

Refrigerators, Lawn Mowers,  
Hose, Ice Cream Freezers, Kerosene and Gasoline Stoves—  
These summer goods must be sold out, so anticipate your next seasons needs. Buy now at a big saving and have the benefit of them the balance of this hot weather.

### HOP SUPPLIES

**WE HAVE THE GOODS.**

### Yakima Hardware Co.

### ADDITIONAL LOCAL.

Dr. J. B. Darling has filed suit in the superior court against L. K. Newman and wife for \$136, interest and costs, for alleged medical services rendered. Federal Judge Edward Whitson is a North Yakima visitor and is registered at the Hotel Yakima.

Mrs. James Leslie, Miss Leslie and Master Leslie returned to North Yakima Thursday from Seattle where they have spent the summer.

Supt. S. S. Busch is busy preparing his institute program. Among the features will be a rural school section, the first to be held in the county.

The mid summer work at the local land office continues heavy. There are many inquiries, contests, appeals and applications received every day, and they come from all parts of the country.

The Horticultural Union is working a corps of 40 fruit packers at the present time and so great is the rush of fruit that it has been found necessary to put a night crew at work for the present.

C. E. Wheeler, Joe Zehner and A. C. Steinman of North Yakima returned yesterday from Martin, where they have spent the last few days fishing, hunting and picking huckleberries.—Ellensburg Record.

Born, Monday, August 23, to Mr. and Mrs. A. Earle Whaley of 115 Second avenue north, a son. Mr. Whaley works in the West Side Barber shop. Cigars were in evidence to celebrate the joyful event.

John Michels, Mrs. Michels and their son left North Yakima Thursday for Seattle where they will visit the fair. From there they will go to San Diego, Cal., where they will remain for some time and where Mr. Michels is making investments.

Services at the First Presbyterian church Sunday will be as follows: Sabbath school 9:45, preaching at 11 a. m. and 8 p. m., by Rev. A. W. Healy of Indianapolis, Ind., Christian Endeavor meeting at 6:45 p. m. A cordial welcome to all.

The Kohls Investment company, with Fred O. Oullette, Lena C. Kohls and Henry C. Kohls as trustees has filed articles of incorporation with the county auditor with a capital stock of \$10,000. The firm will do a general real estate business.

R. B. Aylsworth and wife of Calgary, Alberta, have been in North Yakima visiting at the home of Mr. and Mrs. Harvey Fry. Mr. Aylsworth and his wife, who was Miss McIntyre of Prince Edward Island, are on their wedding tour. They like this valley very much.

Dr. J. E. Banks has returned from a two weeks' visit in Seattle.

George W. Olney of Fort Simcoe was at the Tieton hotel yesterday.

William Hull and wife of Naches are at the Pacific hotel.

R. Stines of the United States reclamation service is in the city.

J. J. Callahan left Thursday for a few days' recreation in Seattle. The Sandoz class of the Christian church Sunday school will give an exchange social in the social room of the Christian church Friday evening. Refreshments will be served. A small admission fee will be charged.

Chas. Walker, formerly owner of the Red Cross Employment Agency in this city, has purchased the cigar store of Sanderson & Mullenger on south Second street, known as "The Hub." The change in ownership took place Thursday.

G. H. Mudd and G. W. Stevens have purchased the Nob Hill Real Estate and Brokerage Exchange from Mrs. Bertha B. Johnson and will conduct the business in the future. The purchasers are young men who have recently come to North Yakima with the intention of making this their home.

Frank Goldsworthy, a young man well known in this city, is walking from Ritzville to Los Angeles on a \$50 wager. Goldsworthy has reached The Dalles, Ore., in his hike and expects to reach Los Angeles by the first of October. He must be in the southern California city by that time in order to win the bet. Goldsworthy has relatives in this city. He was formerly employed by the city engineering department.

Chief Engineer Swigert of the reclamation service has returned from a trip to the Okanogan country.

### ARTESIAN FEVER

#### STRIKES COWICHE

**Finding of Water on High Land Leads  
Many Ranchers to Seek to Procure  
Their Own Wells.**

There is an artesian well fever among land owners in the Cowiche valley resulting from the success of well drilling operations which have been carried on to a successful issue on the land of Joseph Worrell about half a mile west from the Cowiche store and at an altitude considerably above the level of the valley. The hole was pushed to a depth of 125 feet and water was struck which rose to a depth of 15 feet or thereabouts in the well. A short test was made and the well supplied all the water which could be taken from it by the means available. Another test by regular pumping apparatus was made Thursday and the well was found to meet all requirements, furnishing ample water for the irrigation of a large tract.

The drilling outfit has been removed to the ranch of J. Elliott where another well will be bored. This property lies about a mile and a half northeast from the Cowiche store and well above the valley level. Following the work on the Elliott ranch a large number of other wells will be drilled as all the ranch owners have become convinced of the value of the undertaking. A number of them express regret that they had not hitherto had wells drilled instead of waiting for water from the Tieton project.

### SAVES HIS NECK

#### BUT LOSES HORSE

**Joseph Worrell of the Cowiche Has a  
Narrow Escape From a Severe  
Accident.**

Joseph Worrell, a Cowiche rancher, had a narrow escape from death and lost a horse while in pursuit of a stray cow on Wednesday. He found the animal and was driving it when his horse stepped into a badger hole and fell. It was going at high speed at the time and turned a somersault, breaking its neck and crushing its skull. Mr. Worrell, when thrown from the animal struck in a sagebrush which he believes was all that saved him from severe, if not fatal injury as had the bush not intervened he must have struck a large rock which was directly in front of him. As it was he escaped injury.

### UNIVERSITY MEN

#### WILL HAVE HOME

**Have Decided to Rent Commodious  
Dwelling—Unable to Find  
Suitable Quarters.**

The university graduates of the Yakima valley are to have a home all of their own. That program has been decided upon and the boys are looking for a suitable house. They want a large residence in as central a location as possible and furnished, if there is a snap of that sort available. The present plan contemplates a home with sleeping quarters for at least eight people and commodious living rooms and dining room and kitchen. If anyone in North Yakima has a house similar to the one described probably Colonel Walker Moren would be pleased to know about it. According to latest reports the university men are in the mood to do business in a hurry.

### WOULD SELL WATERWORKS

At the special council meeting yesterday, called by Mayor Armbruster to consider what steps the city fathers cared to take in regard to purchasing the plant of the Northwest Water & Light company, and also for a general discussion of the topic, George Arrowsmith, speaking for the company, made the city an offer of \$331,000 for the water plant in its entirety, including the use of the pumping machinery in the present power plant for a term of years, the exact time to be fixed by joint agreement. This offer, Mr. Arrowsmith said, was the bedrock figure of the company, and was not quoted as a starting point in a bargaining match.

Mr. Arrowsmith announced this figure at the latter part of the meeting, after he had thoroughly stated the company's position in the matter, given his reasons for being willing to sell, and after he had freely discussed with the councilmen the plans of his company for the future, the benefits and evils of a competitive system and the advantages which would accrue to the city from the purchase of the company's plant. Mr. Arrowsmith also spoke of some of the difficulties his company was laboring under, and told in detail the condition of the present plant.

After some slight delay, due to a misunderstanding in regard to the meeting place, the council got down to business in Mr. Armbruster's office in the Farmers' & Merchants' bank, on West Yakima avenue. After the mayor had stated the purpose of the meeting, Mr. Arrowsmith was given the floor. He said in opening that he had long desired to have a talk with the city council, in a man-to-man way, on the matter of the water service, as he believed it would lead to a better understanding of the problems, and remove a great deal of unnecessary unpleasantness and friction, which had heretofore existed.

### Odd Fellow Visitors Coming.

The local lodge of Odd Fellows has taken up the matter of entertainment of the special excursion trains of delegates from the Sovereign Grand Lodge Odd Fellows, which will pass through North Yakima September 3 or 4, and stop over for several hours. The Sovereign lodge is made up from delegates all over the world and the local Odd Fellows believe there is an opportunity on their arrival here to do some good and effective advertising of the Yakima country. There will be two train loads which will be made up at St. Paul. The Odd Fellows are in hopes to interest the Commercial club and the citizens to the extent that the visitors may have a good time and carry away with them favorable remembrances of the Yakima valley.

Five baseball players, who were members of the Ellensburg team during the season just closed, have placed their back salaries, amounting to nearly \$600 in the hands of an attorney for collection from the Ellensburg Baseball association.

### RANGER'S EXAMINATION

Said to Be Seventy-Five Vacancies in  
Western District

Portland, Or., Aug. 28.—An examination to fill vacancies in the ranged force on all national forests in District 6 will be held October 25 and 26. From this examination it is expected that 75 appointments will be made on national forests in this district.

The examination will be held at the headquarters of each national forest in the district, at the following places: Ketchikan, Alaska; Eugene, Grants Pass, Heppner, John Day, Lakeview, Medford, Prineville, Portland, Roseburg, Sumpter and Wallawa, Or., and Bellingham, Chelan, Leavenworth, Newport, Olympia, Orting, Republic, Seattle and Walla Walla, Wash.

While the examination is entirely along practical lines, and knowledge of field conditions rather than book learning is considered essential, the opportunities for those applicants with educational advantages are considerably increased. The rapid development of the national forests is making continually increasing demands upon those engaged in their management, and men with ability to assume responsibility and serve in supervisory capacities are in demand. These more responsible positions on national forests are filled by promotion from lower grades, so that anyone entering as a ranger is eligible for promotion to any of the more responsible and higher paid places, including that of forest supervisor.

Only those men who are at least 21 years of age, not more than 40, of good character, temperate and in good physical condition, are eligible to take this examination. The salary paid to beginners is \$900 a year.

Applicants can secure information concerning the examination from the district forester at Portland, Or., forest supervisors or the United States civil service commission, Washington, D. C.

### Purchases Mabton Hospital.

Dr. J. M. Gahringer, of Grand Island, Neb., has purchased a controlling interest in the Mabton Hospital and will take charge about the first of September. Dr. Gahringer has had a large experience in the practice of medicine and comes here highly recommended. He will move into the hospital, there being only himself and wife, and will have full control of the institution.—Mabton Chronicle.

T. B. Moore has been awarded the contract to build the tenement house planned for the Washington Accident & Health Insurance company, and to be located at the corner of Second and Pine streets. The contract price is \$10,000. The building is to be a frame tenement building, the plans, as already described, having been drawn by E. Workman.

W. E. Smith was granted a building permit Monday for the erection of a one-story frame bungalow on South Seventh avenue, Capitol Hill. The house will cost approximately \$2000, and will be erected on lot 11, block 314.

### Star of Bethlehem

The star of Bethlehem, which is supposed to have appeared in the heavens the first time at the birth of Christ, and which is visible every 500 years, may be seen every evening rising over the Columbia river hills in the east. The star, which has borne such a close relation to the Christian religion for the past 2000 years, appears above the hills which border the valley at about 9:30 every evening. It is very easy to distinguish on account of its size and brilliance. It is not like the average star as it has a distinct reddish tinge and appears as a bright red light in the heavens as it rises over the hills.

Chief Engineer Swigert of the reclamation service has returned from a trip to the Okanogan country.

### NEW LAWS PASSED

BY LEGISLATURE

### Considerable New Legislation Was Adopted By Both Houses Before Adjournment

The special session of the state legislature, which came to an end on Saturday, passed a number of new bills, a few of which are of considerable importance. Among those passed by both houses are the following:

S. B. 1, Stevenson—Appropriating \$427 to defray expenses of Gov. Cosgrove's funeral.

S. B. 5, Nichols—Relating to commercial waterways, Duwamisa bill.

S. B. 10, Rydstrom—New game bill.

S. B. 15, Allen—Appropriating money to pay for printing constitutional amendments to be voted on at the general election in 1910.

S. B. 17, Potts—Appropriating \$2000 to defray printing expenses of the new public accountancy board.

S. B. 24, Fatland—Relating to material men's liens.

S. B. 25, Graves—Appropriating \$40,000 to defray printing expenses of the impeachment trial of J. H. Schively.

### New Highway Law

S. B. 27, Cox—Amending the state highway law to permit the state to acquire and operate more than four crushing plants by convict labor.

S. B. 29, Bassett—Relating to collateral securities for municipal deposits.

S. B. 34, Bryan—Appropriating \$50,000 for maintenance of the veterans' home at Port Orchard.

H. B. 45, Beach—Creating the position of assistant state auditor.

H. B. 51, Cameron—Changing boundaries of legislative districts in Pierce county.

H. B. 52, by appropriation committee—Appropriating \$16,000 for "cruising state lands."

H. B. 56, McGregor—Prohibiting the sale of intoxicating liquor except by persons holding licenses.

H. B. 57, Appropriation committee—Appropriation \$10,000 for printing journals and records of impeachment trial.

### Privileges for Women

H. B. 58, Weir—As a substitute for H. B. 41, amending the liquor law to permit women to enter rathskellers where liquors are sold.

H. B. 59, Appropriation committee—Appropriating \$36,678 for the national guard.

H. B. 60, Beach—Appropriating \$10,000 for the relief of Indian war veterans.

H. B. 2, Beach—Appropriating \$40,000 for expenses of extra session of the legislature.

H. B. 3, F. C. Jackson—Appropriating \$10,000 for legislative printing.

H. B. 4, Beach—Making the state treasurer custodian of the funds of the state college.

H. B. 9, Thayer—Amending the drainage district law.

H. B. 10, Special committee—Appropriating \$30,000 for expenses of the legislative investigation committee.

H. B. 17, Norris—Seattle viaduct bill.

H. B. 21, Calkins—Amending the school code to permit county superintendents to set dates for teachers' institutes.

### Marriage Law Amended

H. B. 27, Ghent—Amending the marriage license law.

H. B. 31, Byrd—Authorizing county commissioners to condemn rock quarries for road building material.

H. B. 33, Bell—Congressional primary bill.

H. B. 35, Bell—Exempting legislators and legislative employees, witnesses and jurors from the provision requiring affidavits on salary vouchers.

H. B. 37, Thayer—To provide for reinstatement of corporations whose names have been stricken from the records.

### Can Now Hunt.

Hunters' licenses were issued by the county auditor last Saturday to the following: Horace Leach, O. C. Travis, A. R. Parker, Ben F. Linse, Ernest E. Buckley, Clyde Wells, W. L. Barton, M. E. Orrell, O. H. Warner, B. E. McArthur, James Sanderson, E. E. Bumpus, North Yakima; Henry Froemke, C. L. Hawk, Cowiche; James Donald, Wapato; James A. Silkwood, Seattle; William Adams, A. C. Coburn, Fort Simcoe; W. E. Day, Fairview; August Newling, Mabton; Jacob Westerman, Alfalfa; W. S. Clark, Naches; Scott E. Stevens, Homer Stevens, R. B. Stevens, Selah; Ira Fells, Luke Nicholas, Zillah; Clayton Jeffreys, Ralph Odell, Moxee.

### Followed Sheriff's Advice

C. F. Lyons, the Northern Pacific officer, whose term of service in this city was marked by unusual activity in the arrest of vagrants, concluding with an assault upon the person of Hubert Prentiss, a young man employed by D. L. Thacker of this city, swore on the witness stand Monday at his trial in Justice Hunt's court that he had been advised by Sheriff Lancaster to leave the country. Lyons evidently took the alleged advice, for he disappeared simultaneously with the issuance of the warrant for his arrest, and was later arrested by Sheriff Lancaster at Finley, a station on the North Bank. Sheriff Lancaster was not called to refute the assertion of Lyons.

Lyons was fined \$50 and costs by Justice Hunt upon the strength of the evidence submitted. The costs will bring the entire amount close to \$100.

### Want Their Pay

Five baseball players, who were members of the Ellensburg team during the season just closed, have placed their back salaries, amounting to nearly \$600 in the hands of an attorney for collection from the Ellensburg Baseball association.

## GOPHERGO

KILLS GOPHERS

It is sure to kill, easy to use, cheap, and will kill ten gophers where traps and other devices get one. All experienced gopher fighters find poisoning the best method, but it must combine three points: Some thing that they will eat, it must be thoroughly poison

ed, must be placed where they will get it. This sounds simple, but it is a difficult combination to produce.

Gophergo does it. Try it, if it don't do the work we will return your money. It is sold in cans, 25c, 50c and \$1.00. The large can will kill 200 to 300 gophers.

## SCHIVELY ACQUITTED

Balloting Delayed an Hour by Absence of Senator Hutchinson of Spokane.

OLYMPIA, Wash., Aug. 26.—John H. Schively, state insurance commissioner, was tonight acquitted on every count placed against him before the senate sitting as a court of impeachment. It required 28 votes to convict under the rules, and the most cast against him on any of the charges were 26 votes. This was on the charge that Schively, while drawing pay as deputy state insurance commissioner, acted as president of the Pacific Livestock association.

Balloting was delayed more than an hour by the absence of Senator R. A. Hutchinson of Spokane. The sergeant at arms, his assistants, Olympia police and 20 deputies were sent out to find him. Finally he was located and brought before the senate. The verdict was received with great applause by the galleries, as Schively had many friends at hand to witness the balloting.

## PLAN BIG POULTRY SHOW

Directors of Display Would Surpass Previous Records

The second annual display of fancy poultry, under the auspices of the Inland Empire Poultry and Pet Animal show, will be held in Spokane January 11 to 20. Plans are being pushed rapidly and everything possible will be done to make this the best show of the kind ever held in the state.

The men who are backing the movement this year made last winter's show a success. They feel that they will be able to make the second display superior to the first. Believing that a movement which will encourage the breeding of fine poultry is a benefit to the country and the Inland Empire, they have incorporated and will make the poultry show an annual affair. They have subscribed stock of \$5000. A board of directors has been chosen consisting of M. B. Watkins, John L. Smith, H. J. Fuller, J. D. Belmont and A. G. Bacon. On Saturday night, August 28, officers will be elected and plans formulated. It is probable that a number of North Yakima chicken fanciers will be exhibitors at the big show.

## U. S. BUYS UP

Ditch in Cowiche Taken Over by Reclamation Service.

George S. Rankin and B. F. Barge have sold their small irrigation system in the Cowiche to the United States reclamation service, the consideration being \$1300. The ditch watered about 240 acres of land. It crosses the right of way of the Tieton canal in the Cowiche and the government bought it in order to have a clear field for their own canal. The Rankin-Barge system also includes a reservoir, but it is not likely that the government will make use of either it or the canal. The property owners under the ditch will be signed up by the government.

## Would Make Sheriff Farmer.

Samuel Price, a farm hand, until recently employed by Jim Kee, et al, has filed a petition with the superior court asking that Sheriff Lancaster be appointed receiver of the farm and proceed at once to harvest the crop and sell it in the public market in order to pay a debt of \$26.60 alleged to be due to Price for services rendered.

Price alleges in his petition that Kee has left the farm and that he has not been paid for the work he performed. Sheriff Lancaster does not look with favor on the plan to make him a farmer. The petition was considered Thursday by Judge Preble.

## Apple Show at Denver

The Denver Auditorium is to be the scene of one of the greatest exhibitions of the coming season. The Colorado National Apple exposition will be the grandest demonstration of the apple growing industry that has ever been promoted. Thousands of dollars in prizes will attract hundreds of exhibits in the various classes and it is doubtful if the Auditorium will hold the stuff that is offered for display. The apple industry is growing rapidly and will this year mean millions of dollars to Colorado. No better dates could have been secured than the week from January 3 to 9, 1910.

## Scaled Mount Baker

The Mazamas, an Oregon mountain climbing club, scaled Mount Baker during the past week and returning members of the party describe the trip as one of the most enjoyable ever undertaken by the organization. This Washington peak, the visitors found, has a charm all its own and they were delighted with the trip. It is the custom of the Mazamas to scale one Northwest peak each summer, and Mount Baker was selected this year.

H. Cahalan is putting in a little brick building where the candy kitchen stood at 16 1/2 South Second street. It will be a little cubby hole of about the proper size for a real estate office, but arrangements have not yet been made for its occupancy.

## SHAKESPEARE'S POISONS.

They Are Taken Too Seriously by Some Modern Chemists.

It is one of the penalties of Shakespeare's position as a great poet that his words are taken seriously.

A learned doctor in a foreign scientific review has been molding an inquisition into the poisons mentioned by him. He points out that the "juice of cursed hebenon," which Claudius is said to have poured into the ear of Hamlet's father, is incapable of piercing the tympanum of the ear and therefore could not have penetrated the body and poisoned the blood, as the ghost alleges. Again, the narcotic which Friar Laurence administers to Juliet was probably either Datura stramonium or mandragora root. The first is used by the convicts in New Caledonia when they wish to rob their companions, but its effects do not last forty-two hours nor anything like that time. A scientist who experimented on himself with mandragora found that intense sickness is caused on waking, and this did not happen to Juliet. As for the poison which was given to Romeo, it was probably aconite or one of those mixed poisons composed of vegetable alkaloids and ptomaine, since it was so remarkably rapid in its effects. But that is the fault of too serious people. They will take everything seriously. Shakespeare probably knew nothing at all of poisons or of narcotics. He was a poet and not a chemist and might therefore be allowed the usual poetic license.—London Globe.

## TWIN EARTHQUAKES.

Two Distinct Series of Shocks Are Felt Almost Simultaneously.

Among the most interesting earth tremors from a scientific point of view are those known as "twin earthquakes," where two distinct series of shocks are felt, separated by an interval of two or three seconds. In each series the vibrations increase to a maximum and die away, the whole duration, including the quiet interval, being eight to twelve seconds. In some parts of the earthquake zone the most powerful shocks are nearly always of this kind. When they occur, however, there is always a strip of country where only one shock is felt.

Apparently there are two distinct points of origin for these shocks, and the strip where a single shock is felt is that where the two sets of vibrations arrive simultaneously. The fact that this band is straight shows that the twin shocks occur together and that therefore one is not a consequence of the other. Probably there is an S shaped bend in some interior layer of rock and the twin foci are at the points of greatest displacement—namely, the bends of the S. The movement that causes such a twin earthquake therefore results in accentuating the form of the fold in the earth's crust.—New York Herald.

## The Fighting Maoris.

Some 300 Maoris were shut up in trenches at a place called Orakau. Without food except a few raw potatoes, without water, pounded at by artillery and under a hail of rifle bullets and hand grenades, unsuccessfully assaulted no less than five times, they held out for three days, completely surrounded. General Cameron humanely sent a flag of truce, inviting them to surrender honorably. To this they made the ever famous reply: "Enough! We fight right on forever!" Then the general offered to let the women come out, and the answer was, "The women will fight as we." At length on the afternoon of the third day the garrison in a body charged at quick march right through the English lines, fairly jumping over the heads of the men of the Fortieth regiment as they lay behind a bank. Half of them fell; the remainder got clear away. The earthworks and the victory remained with us, but the glory was theirs.—"The Long White Cloud," by W. P. Reeves.

## Forgot Himself.

Absentminded persons are not infrequently met among the medical profession, who of all men should always have their wits about them. It is related that a well known doctor was once present in a public place when an accident occurred and, seeing a wounded man, went about calling: "A doctor! A doctor! Somebody go and fetch a doctor!"

A friend who was by his side ventured to inquire, "Well, what about yourself?"

"Oh, dear," answered the doctor, suddenly recalling the fact that he belonged to the medical profession, "I didn't think of that!"

## To Ferment.

"You know, Elsie, that 'ferment' means 'to work,'" said the teacher. "Now you may write a sentence on the blackboard containing the word 'ferment.'"

After a moment's thought Elsie wrote as follows: "In summer I love to ferment among the flowers in our garden."—Chicago News.

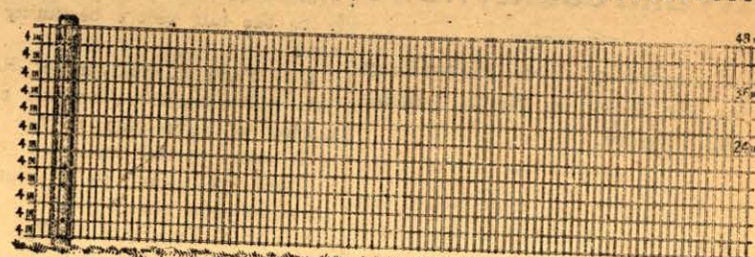

## The Real Object.

Indulgent Papa—Why, my dear, you had a party last month. How often do you wish to entertain your friends? She—This one is not to entertain my friends, papa, but to snub my enemies.—Life.

## He Struggles in Vain.

The cynical bachelor rises to remark that when a girl makes up her mind to marry a struggling young man all his struggles are useless.—Philadelphia Record.

Man must always in some sense cling to the belief that the unknown is knowable.—Goethe.

### SUMMONS FOR PUBLICATION.

In th. Superior Court of the State of Washington, for Yakima County.

Minnie Blanche Everton, Plaintiff, vs. Elmer Everton, Defendant.

The State of Washington: To the said Elmer Everton, the defendant above named:

You are hereby summoned to appear within sixty days after the date of the first publication of this summons, to-wit, within sixty days after the 14th day of August, 1909, and defend the above entitled action in the above entitled court, and answer the complaint of the plaintiff, and serve a copy of your answer upon the undersigned attorney for the plaintiff at his office below stated; and in case of your failure so to do, judgment will be rendered against you according to the demand of the complaint, which has been filed with the clerk of said court.

The object of the above entitled action as set forth in the complaint is as follows, to-wit: The said plaintiff prays that she be granted an absolute divorce from the defendant. That she be given the custody and control of the two children named in said complaint. That she be awarded one-half of the community property and allowed fifty (\$50) dollars per month for the support of herself and children.

That she have such other and further relief as may seem meet and equitable in the premises.

H. J. SNIVELY, Plaintiff's Attorney.  
Office and P. O. address North Yakima, County of Yakima, State of Washington.  
Aug. 14-Sept. 25.

NOTICE OF THE ANNUAL MEETING OF THE STOCKHOLDERS OF THE TIETON WATER USERS' ASSOCIATION, A CORPORATION UNDER THE LAWS OF THE STATE OF WASHINGTON, AND OF THE ANNUAL ELECTION OF THE TRUSTEES OF SAID ASSOCIATION.

Notice is hereby given that the annual meeting of the stockholders of the TIETON WATER USERS' ASSOCIATION, a corporation under the laws of the State of Washington, and the annual election of Trustees of said association will be held in the Farmers' Room, in the North Yakima Court House, North Yakima, Washington, the place heretofore designated by the trustees, on the first Saturday of September, 1909, to-wit: the fourth day of September, 1909, at the hour of one o'clock in the afternoon, and that at said meeting there will be elected five (5) Trustees of said association to serve for one year; and that at said meeting there will be transacted such other business as may properly come before the meeting.

Dated at North Yakima, Washington, this 9th day of August, 1909.  
R. H. WARNICK,  
Secretary of the Tieton Water Users' Association.

### SUMMONS FOR PUBLICATION.

In the Superior Court of the State of Washington, for Yakima County.

Martha M. Houser, Plaintiff, vs. Alvey Houser, Defendant.

The State of Washington: To the said Alvey Houser, defendant above named:

You are hereby summoned to appear within sixty days after the date of the first publication of this summons, to-wit, within sixty days after the twenty-fourth day of July, A. D. 1909, and defend the above entitled action in the above entitled court, and answer the complaint of the plaintiff, and serve a copy of your answer upon the undersigned attorney for the plaintiff at his office below stated; and in case of your failure so to do, judgment will be rendered against you according to the demand of the complaint, which has been filed with the clerk of said court.

The object of the above action is as follows: The said plaintiff prays that she be granted an absolute divorce from the defendant; that the property mentioned therein, to-wit: Lots one (1), two (2), three (3), four (4) and five (5), in block one hundred seventy-four (174) of the First addition to the town of Wapato as same appears on file and of record in the office of the auditor of Yakima county, Washington, be declared to be her separate property, free and acquit from any interest or right of the defendant therein or thereto; that plaintiff be permitted to resume her maiden name of Martha M. Clark, and that she have such other and further relief as to the court may seem meet and equitable in the premises.

H. J. SNIVELY, Plaintiff's Attorney.  
Office and P. O. address North Yakima, County of Yakima, State of Washington.  
July 24-Sept. 4.

Eggs, poultry, fruits, vegetables and berries bought at the Fulton Market.

## City and County News

### Brief Record of Local Happenings for the Week in North Yakima and Vicinity.

A marriage license was issued last Saturday to W. E. Day and Mrs. Addie L. Ransom, both of this city.

Dr. and Mrs. Howick returned last Saturday from the Sound where they have been for the past two weeks.

Amos F. Shannon, who has resided in this valley for several years, died at the home of his daughter in Tacoma Friday, August 20. Mr. Shannon was 60 years of age and had been sick for a long time. The funeral services were held at the Christian church in this city last Sunday, after which interment of the body was made in Tacoma cemetery.

S. Fuyato, the section foreman at Yakima City, was seriously injured in a runaway accident on Naches avenue last Saturday evening. He jumped from the wagon in which he was riding, thinking that the horse was about to turn the wagon over. He struck the road with such force that he broke his leg.

A. F. Lausen, father of A. F. Lausen, jr., of the Wilhargus ranch, with his daughter, Nina, have arrived and gone to his ranch, which he recently purchased on Nob Hill. Mr. and Miss Lausen have just returned from an extended visit to Germany, the home of his boyhood.

Dr. Currie has sold the 13 acres of his ranch on the Lower Naches, on which is the orchard and buildings. Dr. and Mrs. Currie will spend next winter at their old home in North Dakota, returning in the spring to build and make other improvements on the 27 acres which is left.

D. H. McIlvain, a prominent oil merchant of New York City, and wife are visiting the Smith home on the Wilhargus ranch. This is Mr. McIlvain's first visit to the Far West and he is very favorably impressed with the country.

Prof. W. C. Howard, the new principal of the Columbia school, will bring his family to Yakima next week. Prof. Howard has, for some years, been the principal of Columbia, Jr. college, and is very prominent in Methodist circles.

The Northern Pacific Railway company has filed an application in the local land office to select three lots in section 8, township 14, range 27 east. Protests against this selection will be heard October 24.

The assessment for the Northwest Light & Water company has been reduced by the county board of equalization from \$437,360 to \$420,000.

R. Harris of Walla Walla is in the county jail here on the charge of having passed a check in the name of J. D. Dazet, when he had no funds in the bank with which it could be paid.

Mrs. H. H. Schott of North Second street returned Saturday from a two weeks' visit to the exposition.

Miss Mary McCully of Lodi, Wis., is visiting in North Yakima with Mrs. W. B. Newcomb and other friends.

The funeral of Mrs. Lula Scott, the wife of Charles Scott, of Parker Bottom, was held Sunday at the Christian church.

Dr. H. P. Turner, who has for 21 years been a homeopathic physician in Seattle, came here Sunday to join his wife, who is employed in the ladies' suit department of Dittler Bros. He has taken quarters in the Monterey apartment house, a portion of which he will fit up for an office.

The Free M. E. camp meeting now being held on Capitol Hill, corner Tenth avenue and Chestnut, is well attended and increasing in interest. Nine tents with their occupants are on the grounds.

Duncan Campbell was paid \$5 bounty Tuesday morning by the county auditor for killing a wildcat.

Rodney Ackley, principal-elect of the Summit View school, came up from

Matton this week to get acquainted with his duties. He will take his family to the fair before beginning school work.

Miss Flora E. Baldwin, of Berkeley, Cal., will take Miss Carriek's place as teacher of expression in the schools here. Miss Carriek has been forbidden by her physician to attempt school work for some time.

Mrs. B. C. Crouch of Phillipi, W. Va., accompanied by Mrs. L. V. McWhorter, with whom she has been visiting, has gone to Seattle. After visiting the fair she will go to California to spend the winter.

Prof. A. C. Davis, principal-elect of the local high school, arrived in the city Monday from Coeur d'Alene, Idaho. Prof. Davis is enthusiastic over conditions here and is looking forward to a good year in school work.

The public school gardens of the city sent another consignment of flowers and vegetables to the exposition Monday morning. As these are the only school gardens represented at the fair, they are getting much favorable comment.

Classiness sticks out all over this week's offerings at the Lyric theatre. Incidentally, the bill is one of the best balanced, smooth running, laugh-producing shows that has graced the boards of the vaudeville house for some time. There is not a weak spot in the program from start to finish.

Complying with the rules of the state board of education, County Superintendent Jacobson held examinations for teachers at the court house Thursday, Friday and Saturday of this week. This is the first of three examinations for teachers during the school year, and are conducted for those teachers who have not certificates and for those whose certificates expire.

#### Births.

A daughter was born Monday to Mr. and Mrs. J. W. Forney of 508 South Naches avenue.

A daughter was born Sunday to Mr. and Mrs. J. H. Hyson of 309 North Third avenue.

A nine-pound daughter was born last Saturday morning to Mr. and Mrs. Geo. J. Lowrie of 204 First avenue north.

Mr. and Mrs. William Frink of Naches City are happy over the arrival of a baby boy.

#### Elect Officers

On Tuesday afternoon the W. C. T. U. met at the First Christian church and elected the following officers; President, Mrs. Sarah Allen; vice president, Mrs. Mary Yeager; recording secretary, Mrs. A. A. Mathis; treasurer, Miss Mary Stangle; corresponding secretary, Mrs. Julia Van Buskirk; delegates to state convention at Spokane, October, Mrs. Mary Yeager, Mrs. Cora Green, Mrs. M. Mull, Mrs. Minnie Van Mavern. The next meeting will be held in two weeks.

#### Had Seventeen Children

Seventeen children of Belone Menard of North Yakima, who died August 13, 1909, are allowed one dollar each under the will of the father, which was filed for probate Friday in the office of the county clerk. The estate, of a value approximately of \$7000, is left to the widow, Annie Menard, who has petitioned the court for administration of the estate. The main portion of the property is 10 acres of land in the Moxee. The list of heirs, containing as it does the name of the widow and of 11 daughters and six sons, is a formidable one.

#### Fire Destroys Homes

Fire, believed to have been caused by the careless dropping of a cigarette stub near the barn of Peter Eschbach, at 212 North Seventh street, Friday afternoon, August 20, destroyed property at an estimated value of \$10,000 and laid in ruins the homes of Joe Garrecht and gutted the residences of Peter Eschbach and Professor A. B. Dow and totally destroyed five barns.

#### Little Typhoid This Summer.

North Yakima has thus far this summer had little or no typhoid fever, no more than five cases being of official record in the health office at the present time. The existing sanitary conditions are such that but little fever is expected and it is reasonable to hope that such cases as do develop will be easily handled and without any fear of the spreading of the infection.

#### Planting Trees in Kittitas.

The Kittitas valley is waking up to its possibilities as a fruit producing section. It is estimated that 84,000 fruit trees will be planted there next spring. Farmers who have hitherto refused to order trees are now ordering them, winter apples being the favorite.

#### Orchard in Bloom.

There is a three-acre orchard full of blossoms at the ranch of J. C. Butterfield in the Moxee. The orchard is young, consists of pears, peaches, apples and other fruits and it appears to have got an idea that this is springtime. Mr. Butterfield came to North Yakima lately to deliver cantaloupes at the Horticultural Union and brought a bouquet of fruit blossoms with him. He says that the flowers are to be found on every tree on the three acres.

#### Apples for Fair.

The second car of apples for the Yakima A. Y. P. exhibit was shipped Tuesday, consisting of apples held over since last fall in cold storage. The fruit is said to have held up well. The two cars of apples were put in cold storage last fall especially for use at the exposition and the first one was sent over at the opening of the fair.

#### Want Standard Box.

Acceptance of the standard apple box of the Pacific northwest as the standard size for boxes at the national apple show is to be formally asked by the Yakima Horticultural Union at the management of the apple show at Spokane November 15 to 20 next. A resolution to this effect was passed by the trustees of the union Saturday, and the secretary was instructed to forward a copy to the secretary of the national show at Spokane.

#### To Fumigate Trees.

A company is being organized by A. W. Brown to go into the fumigation of fruit trees, warehouses and residences on a large plan. It is the purpose to follow to some extent the methods used in California in the fumigation of fruit trees which is the tent plan, and which is said to be very effective in the annihilation of scale, aphids and the codling moth, and the expense is not as great as for spraying.

#### Parker Nursery Sold

H. E. Angell has disposed of his business known as the Parker Heights nursery, to E. F. Perry and H. E. Brown of North Yakima, according to a deed filed in the county auditor's office Tuesday. The consideration is given as \$5000. The new owners will take possession at once.

The Parker Heights nursery is located at Parker Heights about 10 miles south of this city. It has been conducted by Mr. Angell for the past year. Mr. Perry, one of the new owners, is a well known fruit man in this city. Mr. Brown is an experienced nurseryman, having been local agent for the Sunny-side nursery last spring.

#### To Rebuild Matton Bridge

C. E. Lum, the local bridge contractor, will have an opportunity to make a record in bridge building in this section. He was awarded the contract Tuesday for the new Matton bridge across the Yakima river, and offered a bonus of \$250 to complete the work in 30 days. The bridge will be 500 feet long and will consist of four spans. It will replace the bridge recently burned there. Mr. Lum secured the contract against three competitors, his bid being \$15,894.

#### Water Appropriation

J. E. Blakemore of Seattle filed on water in the Klickitat river last Saturday, receiving an aggregate of 2000 cubic feet for use in Yakima, Klickitat and Benton counties for use in mining, milling, agriculture, manufacturing, irrigation, etc. Five hundred cubic feet are to be taken out on the left bank of the west fork at the falls and 1100 feet below the junction of the Fish Lake stream with the Little Muddy. One thousand cubic feet are to be taken out from the left bank of the Klickitat river at a point 55.6 feet north and east from the northwest corner of section 1, township 9, range 12 east. The final 500 cubic feet are to come from the Big Muddy on the left bank 300 feet below its junction with the Hell Roaring creek.

#### Russian in Yakima.

Two distinguished visitors from foreign lands arrived in the city Tuesday to study irrigation problems in the Yakima valley. They are O. Aliband of Santiago, Cuba, and E. E. Skorniakoff of St. Petersburg, Russia. Both gentlemen were delegates to the International Irrigation congress at Spokane, and both will make a thorough investigation of the various Western reclamation projects before returning to their homes.

# AN ARRAY OF NEW FALL SUITS

OUR variety is becoming greater every day. Our present extensive showing will appeal to any women. The new models for Fall, long coats, 44 to 52 inches, tight and semi-fitted, are admired by every one who sees them. Then the plainness of the garment lends added beauty, although some few show pretty decorations. Worsteds in various shades in neat stripes. Broadcloths in all shades. Homespun in a variety of novelty effects. All add to the material beauty of these suits. Then the exclusiveness of the many suits we display makes them most attractive.

**New Fall Suits \$14.75 to \$65**

**\$1.50 White Lingerie Waists, 69c**

THE very best waist item we have published this season is this. Waists of fine lingerie cloth, trimmed with imitation Irish crochet lace insertion and fine tucks. Long sleeves, button back. A score of other pretty models at this price. Choose from waists whose regular fair price was \$1.50, for only **69c**

\$4.50 values, only.....

**RICHARDS & BAYNE**  
FORMERLY BALDWIN'S

#### Hay Balers at Work.

At least six hay balers are working at full blast in the vicinity of North Yakima, disposing of the second cutting of alfalfa. This second cutting is hay of the best possible grade. Six or seven carloads a day are being hauled into the city, of which three are shipped to Seattle. The price to the farmers is in the neighborhood of \$10 for baled hay in carload lots.

#### Tailor to the Women.

Another proof that Yakima is fast assuming the proportions of a metropolitan city is evidenced by the fact that we can now number among our better class merchants an up-to-date ladies' tailor, in the person of Mr. C. T. Manhart. Mr. Manhart is lately from Chicago, where, for a number of years, he conducted a fashionable ladies' tailoring establishment in the Masonic Temple. Like a great many other successful eastern merchants, Mr. Manhart could not resist the "call of the west." During one of his pleasure trips out here he espied the Yakima country and immediately became infatuated with our section and its environments. Not only did he decide to locate here, but he showed his faith in our future by investing several thousand dollars in the peerless fruit lands of the Selah valley. The women of Yakima and vicinity have always sorely felt the need of an establishment where high class tailored

garments could be procured, and they are fortunate in having Mr. Manhart locate here. The entire front of the Yakima Business College block has been leased for his business and he assures us that he has equipped it with everything necessary to turn out metropolitan suits. Chicness, style, individuality and quality, together with perfect fit and Chicago prices, are Mr. Manhart's promises to the ladies of the great Yakima country. His advertisement appears in another column.

#### Look Out for Fake Sales.

This is the time of year when the "fakes," purporting to have bankrupt stocks, fire sales, assignee sales and other mysterious ways of procuring stocks of merchandise, infest the Yakima country, and the unwary are notified to beware of them. These bunko merchants mean no good to anyone and are only here long enough to fleece the unsuspecting bargain hunter of his loose change and leave him with nothing but a shoddy lot of wearing apparel that will not withstand a respectable washing. It is not only an imposition on the residents of this vicinity that they are allowed to practice their skin game sales, but also an imposition on the reputable merchants who endeavor to give value received for the money. Don't patronize these thieving Polish gypsies. Spend your money with merchants you can trust and who will

give you a square deal. Money spent with reputable merchants will not only remain in Yakima but will help keep these "bunko men" from getting a foothold. A favorite way for these shoddy traders to operate is to advertise a bankrupt stock, ostensibly bought in some other city for 30 or 40 cents on the dollar and because of their deep interest in humanity, are willing to unload for a small profit of 5 or 10 per cent.

#### Deschutes Valley.

Central Oregon lands are on the move at present time owing to the fact that two railroads are not only assured but are now under construction.

These two roads insure a market for this favored valley that is unsurpassed. Lands, \$40.00 per acre, including water right.

A party of men have just returned from the Deschutes and all are highly pleased with the country. Get ready to join next excursion. See Dr. F. M. Van Snyder, 110 1/2 E. Yakima Ave.

#### Potatoes Good.

Potatoes are not in great demand at present. White River seems to have the Sound market monopolized. The crop is very good, showing up much better than was expected.

Chief Engineer Swigert of the reclamation service has returned from a trip to the Okanogan country.
