Tuesday

Dear Click:

I understand your problem as to vacations and I know that if there was any chance at all you'd be here.

Our meetings are scheduled by the By*laws for the first Saturday in August, December and April, but with the proviso that the April meeting can be shifted to any other Saturday in the month.

I'm reading the Treaty book at home. Its fine. Will a couple of copies be available for our library?

You noted I was not present Saturday. I was afraid to take the chance of the extra trip to Simcoe. I had called Bob Hitchman to say that if the business session was in Yakima in the morning with an afternoon trip to Simcoe I'd try to talk the doctor into making it. Coming along fine but taking it on the easy side as much as possible.

Hastily
