

St. Joseph Mich
Sept 12-10

Dear Bro. -

Your letter came
a few days ago and the O.C.O. for
ten found me O.K. and you can
bet it comes in mighty handy
Of course I have been working here
for some time but when there
is so much to be put out for
other things you can't expect very
much.

I think I may make some thing
out of this nursery business as
Dunkles trees lost spring nearly
all died around here, so the people
are a little sore ^{at} him.

Jim Ball bought the Peace farm
and he intends to put in some
apple trees and of course has to buy
a lot of peach trees to fill in where
the other ones died. I saw him yesterday
and he wants only the best of every-
thing, so I hope to make quite a bit
out of this.

As I have a large territory to go over
I believe I will get or try and get
Julius Krueger to go in with me.
He ought to be a good help as
he can speak Polish & German & Eng.

which ought to go a long way with
the Catholic Church.

We may try and to some extent
restore business at the same time
that is if he agrees to it at all
Ma undoubtedly told you about
will having a fight with Mamma
Bunkey was just about 6 months
ago which the Priest called it a
draw. It was not such a very
gruelling contest. I guess she was
anxious and so was she. I believe
she has to furnish the money
to commence house keeping
Ma says she has a lot of it. Think of
it a person having a lot of it.
Maynard says he is getting some better
which is a mighty good thing. I took
Flossy Puseott & a couple dancers
one at Silver Beach and to the High
Rollers in Okla. & Edna Springs. She is a
peach of a girl. has been out here all
summer with her Grand Mother
It is getting so lonesome around here
that I believe I will go insane. Dr. Allen
told me that probably I never would be
my old self again you know I have
lost about 80 pounds. I hope they sell the
place for I think different air might
help some. Hope you are doing well now
your loving one. Everett

After 5 days return to
