

## AMERICAN STUDIES ASSOCIATION

Aware of your concern with the study of the United States in its many aspects from many points of view, we cordially invite you to join the American Studies Association and to receive its journal, AMERICAN QUARTERLY, and its pedagogical newsletter, AMERICAN STUDIES. We are sure that you will find AMERICAN QUARTERLY, devoted to the varied facets of American life and their relation to the American scene and to world society, a stimulating publication and that AMERICAN STUDIES will prove valuable to you for its articles on the methodology and bibliography of American civilization. We know that you have much to contribute to the activities of our regional chapters which sponsor separate programs and joint sessions with other scholarly societies. We are confident that you, like our more than a thousand members from many fields of interest, will find participation in the activities of the American Studies Association a rewarding experience.

You may become a member by returning the enclosed card to us.
