Dear friend Joel:

Enclosed is a postal note . I feel that I should perhaps make it for the entire sum you were out for getting the list, but we'll see about that when our paths cross. Anyway, It is for \$10. The help was much appreciated and you can rest assured it will be treated most ¹confidentially.

I'm working out lists etc. and it now occurs to me, that in view of the recent Historical Society appointments, there might be some value of weighing and evaluating these various lists I am assembling, with a view of making them workable in any activities the membership committee embarks upon. (I note that I am on such a committee.)

Enclosed too if I can lay my hands on it, and if not in a later letter, an account of the archaeological undertaking at Fort Simcoe State Park and a reference made therein to Mr. Ed Larrabee concerning the inspiration you have been to him in things historical.

I'm head over heels in work for the office and my own goings on, so will terminate , until later

Sincerely
