Shields, Books and Stationery,
516 West Lewis St.,
Pasco, Washington

Attn.: Maggie Kuempel

Dear Miss Kuempel:

If the book you referred to in your letter of September 10 pertaining to the Nez Perce is Dr. Francis Haines' The Nez Perce, I have no reservation but that it is an outstanding book and worthy of every attention.

I know Dr. Haines, his past work and his qualifications and should Drummers and Dreamers possess the qualifications that Dr. Haines is capable of in his writing, I would be more than happy.

Should I encounter a small list of horse lovers and readers of western material, ones who would be especially interested in his book, I shall forward the names to you, but on the spur of the moment I do not know where it would bob up from. Dr. Haines himself I believe was instrumental in organizing the Appaloosa horse association, there's quite a following of that breed in Eastern Wash., too.

Sincerely
