Library Rationale

To the editor — As a 25-year Selah resident and community volunteer, I am concerned and disappointed with the current direction of Selah's leadership.

An example of this is the ongoing library fiasco. Despite the objections of many, the library contract was canceled by the city government without any positive or realistic alternative in place.

As an avid reader and computer advocate, I join others in being personally offended by this arbitrary action that effectively cuts us off from any library services.

For this and many other reasons, I urge your support for Judy Charcas Jones' candidacy for Selah City Council. She will be a new and refreshing voice in the community. It is not healthy for any organization to operate without dialogue and some opposing points of view. I feel Judy Charcas Jones will be her own person and vote her conscience, rather than just falling into lockstep with others.

A vote for Judy Charcas Jones will not only bring some sort of balance to the Selah City Council, but will also enhance our chances of regaining a modern public library for Selah.
