Yakima, Wash. 98901

Dear Ralph:

Enclosed are two, instead of one photograph I mentioned to you.

Needless to say, I hope they can be returned after you make a copy of the ones you want, as they are a part of my historical collection. I note one has a date 1920, and "Cowan Photo" on it. I think you may be able to identify, through historians there, a few of the men, especially the one I suspect was Dr. Meany.

The other photograph has no date, but has other information written on the back and the "stone" inscription is obvious.

When these are returned, I hope it can be to my home address, instead of the office, and that eliminates one possibility of "loss."

I enjoyed the informal meeting the other day and trust it gave all of us various new insights.

Sincerely
