OFFICIAL PAPER OF NORTH YAKIMA

THE "Geary" Chinese exclusion act expires by limitation in May, 1902, and one of the most important matters that will engage the attention of congress is as to whether the present status is to be maintained or whether the bars will be let down and the "celestials" allowed to land on our shores unhindered. It is not probable that a new exclusion bill will be enacted without a tremendous fight. The transcontinental railways, allied with certain commercial interests will, it is believed, bitterly fight any measure providing for a continuance of the exclusion policy. It can safely be taken for granted that the pressure brought to bear upon congress by these selfish but powerful interests will be very great. It therefore behooves the advocates of exclusion to wake up to the gravity of the situation and begin their campaign of education. In the agitation of the subject that is bound to come, it is likely that the problem of Japanese immigration will also receive consideration. In many quarters the peaceful invasion of this country by the little brown men is regarded as almost as serious a matter as is that of the Chinese. According to the Tacoma News there were but a handful of Japs in this state ten years ago, but today there are nearly 6,000, the great majority of whom are laborers working for small pay. It seems clear enough that if this rate of increase is to continue the white laborer in the coast states will eventually be driven to the wall. If the republican party, entrenched in power as it is in every branch of the national government, refuses to meet the situation with the desired new legislation, it might as well go out of business in every state, at least, west of the Rocky Mountains.

PROF. WYNN of Denver is either a stupendous fraud or else he has discovered a secret of nature that bids fair to revolutionize the present financial situation throughout the world. That gentleman asserts that after years of study and experimenting he has discovered that by the use of a certain chemical preparation he is able to extract wonderful values in gold from ore that under the present system of smelting is now regarded as worthless. It is claimed for the new process that it has realized from three to ten times the amount of gold from ores than could be secured through the fire system of smelting now universally in use. The professor's theory is that by the slow process of nature gold is always being formed in the rocks which contain all the elements of which gold is composed. His process, he claims, will accomplish in 24 hours what in nature

would require at least a thousand years. Wynn's business partner, Willard Teller, a brother of the Colorado senator, and conceded to be a reputable man, says that the new process will do all that is claimed for it and that it will revolutionize the mining industry of the world. The smelter men of the country are inclined to scoff at the alleged discovery and ridicule it, but inasmuch as they have been holding secret meetings of late, according to the Denver papers, to consider the matter, they are probably worse scared than they would have the public believe.

THE farmers of this county are becoming alarmed, and with reason, at the prospect of being deprived in the future of the use of the public range for grazing purposes. The farmers generally, up to this time, have seemed to pay but little attention to this matter that affects their welfare so vitally, doubtless knowing but little of the inner workings of the scheme of interested parties to absorb the whole of the public range through the lease system. The fact, however, that Secretary of Agriculture Wilson has lately endorsed and recommended the proposed lease system on government grazing lands has opened their eyes. With their common interests now threatened with prospective hostile legislation it is possible to believe that they will organize in the effort to avert such a calamity. Senator Foster of this state is one of the men who is primarily responsible for this proposed policy of leasing the even numbered sections to large stock owners. If the farmers do not speedily organize to make their influence felt they will find that this scheme is very apt to be consummated at the present session of congress.

PRESIDENT ROOSEVELT'S first message to congress is an interesting document. In the main it is clear cut and forcible in style as befits the character of the man. For a new president accidentally swept into his high office on a wave of chance he exhibits a wonderful grasp of public affairs and of the responsibility of his position. In his treatment of matters affecting the welfare of the west he shows a wide knowledge and a keen insight into conditions for which the people of this section may feel thankful. There are some very disappointing features about the message, however. In his treatment of such subjects as tariff reduction and trust regulation too much timidity is shown. The trusts magnates themselves, will only laugh at his recommendations. We lack the space for a comprehensive review of the message this week, but will endeavor to give it the attention it deserves in our next issue.

THE census for 1900 shows that there are 21,329,819 men of voting age in this country. Of this number 2,326,295 are illiterates. Is not this rather a large percentage of illiterates, in a nation priding itself upon its intelligence, boasting that its mission is to enlighten the world,

insisting that it is "destiny" that it should instruct the people of the Orient? Just now the United States government is calling for volunteers who will go to the Philippines and teach. Already a large number of teachers have answered the call. It would seem that when more than 10 per cent of the voters of this country are illiterates, that the American people have an educational problem at their own doors, a problem which they should solve, and to the solution of which they should devote the energies which they are now exerting to the subjugation of a people who aspire to self government.—Commoner.

AN English scientist, Dr. Marage, claims to have invented and perfected a talking machine. Unlike the phonograph, which merely reproduces sound, the talking machine creates sound, and so perfectly, that it is easily mistaken for a well-modulated human voice. The mechanical construction of the machine is modeled closely on the interior of the human mouth which enables it to pronounce the five vowels, a, e, i, o and u correctly and distinctly. It is thought that a great field of usefulness will develop for the use of the new invention, particularly on vessels at sea and as a household necessity in the case of such men as have lost talkative wives.

THE 57th congress which met last Monday, will be organized on practically the same lines as was its predecessor, the 56th. Henderson of Iowa, a man without marked ability, has been re-elected speaker. There being now no vice president, Senator Fry of Maine, as president pro tem, will preside over the sessions of the senate. The republicans have a majority of 20 in the senate and about 40 in the house, so that that party is clearly responsible for all legislation enacted as well as for what ought to be enacted but won't be.

THE Republic man probably can't be blamed for being a knocker, for that failing was doubtless born in him and has been nurtured during a varied experience as a newspaper manager. The colonel boasts that he has steered thousand readers. Well, well, who denies it? The fact is patent to everybody, however, that he might have a good many more if he knew how to write and was not tied up quite so tight with special local interests.

TACOMA, it seems, also has a candidate for the senate in the person of Chester Thorne, a leading banker of that city. It would be a peculiar political mixup that would admit of Tacoma, the third city in the state, securing both U. S. senators. Such a consummation is not likely, although peculiar things do happen frequently in politics.

THE editor of the Walla Walla Argus is trying to reform that town. What a hopeless task.

T. G. Redfield has been wrestling with la gripp this week.

A little daughter arrived at the home of Mr. and Mrs. W. E. Ayres last Saturday.

Measles are said to be quite prevalent among some of the French families in the Moxee.

C. R. Harris the First street merchant, has been confined to his residence by illness for several days.

Messrs. Martin and Caney, who recently came here from Iowa, have purchased the Hatch farm of 40 acres in the Selah.

Ed Bland is now a member of the city police force, having been given the position made vacant by the retirement of Officer Wilhite.

A social dance will be given at the armory Friday night Dec. 13th. Geo. S. Vance is chairman of the committee on arrangements.

W. A. Lee, who came here a few weeks ago from Ellensburg, has embarked in the life insurance business and opened an office in the Ditter block.

Jos. A. Parsell and Miss Hannah Wilson were granted a marriage license on Saturday. A license was granted Tuesday to Fred Krauel and Miss Sarah J. Frawley.

The Yakima county cattlemen's association will hold its annual meeting today at 2 p. m. at the city hall. Officers will be elected for the ensuing year and other business of importance considered.

The U. S. Land office on Tuesday received seven homestead applications by mail from parties who reside in Fairhaven. The filings are on land in township 7, range 13E, located on the Big Klickitat.

John Sweigert, a rancher living near Kiona, got his foot caught under the

car wheels at that place Saturday. Dr. Frank, who was wired for, went down that day and amputated a portion of the injured foot.

Briggs and Dam expect to move to their new quarters in the Clogg block about Jan. 1st. A contract has been entered into with W. W. Doty for the lighting of their new store room with acetylene gas.

No portrait of a man ever appears on Uncle Sam's coin and no portrait of a woman on his postage stamps, and perhaps that is the reason we lick the stamp and squeeze the coin.—Barnesville (O.) Enterprise.

Messrs. Shomaker, Beck and Blair, who have been at Ellensburg for several days organizing a branch of the American Fraternal Club, report good progress. A club will be organized there with a membership of at least 60.

The sheriff and his deputies were busy on Wednesday trying to find a man named H. F. Renna, who according to the sheriff of Columbia county was wanted at Dayton as a witness in an important case. He was not found here.

Fire Chief Hauser returned from Ellensburg Tuesday, where he purchased a team of horses for the use of the fire department. The team he says, is well matched and weighs 2800. The horses will probably be delivered here today.

Dick Case, the Yakima pugilist, was matched for a 20 round boxing bout at Seattle Thursday night with Perry McQueen of San Francisco. The affair has been looked forward to by Seattle sports as a great event. In the betting the odds were slightly on Case.

Miss Eva Davidson and Mr. Scott Hawn were married Thanksgiving day at the residence of the brides' parents, Mr. and Mrs. Lorenzo Davidson of Wide Wallow. The happy couple will make their home in the Ahtanum. The Democrat returns thanks for a very generous supply of wedding cake.

Another Broadhurst success coming to Larson's theatre on Dec. 11th. Another play by Broadhurst which compels laughter through true merit. Those who saw "The Wrong Mr. Wright" have every reason to expect something good in this production, which is under the usual good management.

North Yakima Camp 5550 M. W. A. at its regular meeting Dec. 3rd, elected the following officers for the ensuing year: Venerable consul, H. E. Angle; worthy advisor, Orlando Beck; clerk, Roy McWain; banker, Frank Jackson; escort, Harry Benson; watchman, Joe Hulse; sentry, J. T. Davis; physicians, Drs. Gordon, Wells and Fletcher; managers, J. G. Aldrich and W. W. Pettyjohn.

W. L. Steinweg made a flying visit to Seattle the first of the week.

C. C. Case returned from a visit to his former home at Bucoda Friday.

Mrs. Alex McCreedy visited friends in the "burg" the first of the week.

The annual election of the blue lodge Masons will be held Friday Dec. 20th.

Dr. Lynch has removed his office from the Ward building to the Ditter block.

Judge Rudkin is holding court for Judge Richardson of Spokane this week.

John Knox of Tampico, on Thursday sold 100 bales of hops to Mr. Hubbard at 10 cents.

The Misses Lucy and Bessie Scudder left Thursday on a visit of several months to Boston, their former home.

Miss Ida, a sister of Alex and John Miller, arrived last week from the old country and is the guest of the former.

Syringa Chapter Order of the Eastern Star will give a social at the lodge room in the Mason block, Saturday evening, Dec. 14th.

F. K. Hiscock left Thursday for Syracuse, N. Y., to spend the holiday season with relatives, as has been his custom for several years.

James Dodson was bound over Tuesday by Justice Taggard on the charge of stealing a diamond pin from the person of H. R. Miller, of Spokane.

J. M. Arrington, formerly a resident of the Wenas, writes the DEMOCRAT that he is interested in a proposition to establish a shoe factory at Seattle.

Mr. and Mrs. R. N. Harrison returned Saturday from Tacoma, where they

went to place their eldest daughter in the Annie Wright seminary.

N. S. Johnson, of the Hotel Yakima, returned Tuesday from the east. Beginning Jan. 1st. he will go on the road for a St. Louis hardware house.

The appearance of Yakima avenue has been considerably improved since the top coat of mud was removed. The street was sluiced again Thursday night.

A social and dance was given at the town hall in Tampico Thanksgiving night for the benefit of Mrs. G. M. Allen and family. About \$36 was realized from the affair.

W. P. Cressey, who has been head clerk at Ditter Bros. store for the past year, left Sunday accompanied by Mrs. Cressey, for South Bend, Wash., where he has bought an interest in a mercantile business.

The annual memorial services of the Elks, held Sunday afternoon were well attended. The musical program in charge of Geo. S. Vance, was well rendered. Ira P. Englehart, who delivered the address, received a good many compliments from those present.

The Yakima Tea Co. which has recently become established in business in this city, is preparing to carry on a wholesale as well as retail trade in tea and coffee. The firm will employ salesmen steadily at Ellensburg, CleElum and Roslyn and later will have representatives stationed at different points in the lower valley. North Yakima will be the permanent head quarters and all goods sold will be shipped from this city.

W. N. Granger, manager of the Washington Irrigation Co., who was in town Wednesday, states that the sale of company lands in the Sunnyside for the months of October and November were very much greater than they were for the same period last year. The class of people coming in this season as a rule all have money and are buying land in larger tracts than has been the case in any preceding season.

H. M. Gilbert, the bonanza melon farmer of Toppenish, has purchased 320 acres of land near Sunnyside, which he expects to seed principally to alfalfa. A good deal of Sunnyside lands have been sold within the past two weeks. H. J. Snively this week sold what is known as the I X L ranch of 160 acres near Sunnyside to a gentleman from Seattle. The Green Acre Stock & Land Co. composed of Walla Walla county men, have purchased 160 acres also in the Sunnyside neighborhood, which they propose to devote to the growing of fine stock.

A Crack Shot.

Capt. Geo. E. Bartlett, one of the best rifle shots in the world, now a traveling salesman for the Peters Cartridge Co., gave an exhibition of his skill as a marksman to a number of Yakima sportsmen in the vicinity of the stock yards Wednesday afternoon.

I. H. Dills, N. Hartung and others, who witnessed the exhibition inform the DEMOCRAT that they regard the feats performed by Capt. Bartlett as simply marvelous. The former gentleman carries in his pocket a silver dollar which was hit in mid air by Bartlett, who stood at considerable distance using a 22 rifle. A small can likewise thrown in the air was punctured four times with a shot gun before reaching the ground.

An interesting test was made to show the superiority of King's smokeless powder and the Peters' make of cartridges. After firing 100 shots from a 22 rifle using the Peters' cartridge, the gun was examined and found to be bright and clean. Then three cartridges of another make were fired from the same rifle and they left more fouling, according to the spectators, than the previous 100 had done. Fawcett Bros., of this city, have made arrangements with Capt. Bartlett to handle the line of goods that he represents.

Capt. Bartlett was for years in the government service, first as a scout and afterwards as a deputy U. S. marshal. He saw service in the ghost dance war with the Sioux Indians 11 years ago, and participated in the battle of Wounded Knee. On walking over that memorable battlefield the following day he found a baby Indian girl clinging to her dead mother's breast. He rescued the half frozen midget and turned her over to Mrs. General Colby, who adopted the child and is now educating her at Washington, D. C.

The Hypnotist Exhibition.

Prof. Griffith, mind reader and hypnotist, has been giving exhibitions of his powers nightly at Larson's theater this week. Although by no means a gifted speaker, the professor is a fairly skillful operator and through his classes on the stage furnished a good deal of amusement for his audiences.

On Monday a committee of four gentlemen, consisting of Messrs. Thorpe, Lowe, Sloan and Beck, were placed in a car-

riage with Gov. Lowe as driver, and took a spin around several blocks. On their way they hid a coin near the front door of Briggs and Dam's music store. The professor was blindfolded and afterwards taken into the carriage and given the reins. He drove the team pell mell over exactly the same course previously traveled by the committee even to running the wheels of the vehicle over the end of a culvert as the committee had done. Returning he stopped short in front of the music store and without difficulty found the coin.

At Tuesday night's performance an amusing thing occurred which caused the most of the male portion of the audience to roar and the ladies to turn their heads the other way. The hypnotised class were made to believe that flees were biting them. Pandemonium reigned while coats and shirts were being shed and the sceneshifter seeing that the show was going too far, suddenly dropped the curtain. One fellow at the edge of the stage was overlooked, however, and he proceeded to divest himself of all his clothing and had nearly succeeded in doing so before he was finally jerked from view.

Monday night the professor put an "understudy" to sleep in Schott & Co.'s show window, where he remained fast in the arms of morpheus for a period of 48 hours. Wednesday night the man was awakened.

LONGMIRE WINS HIS CASE.

Supreme Court Reverses the Decision In the Wenas Water Suit.

On Tuesday the case of David Longmire vs. Richard Smith and others was decided by the supreme court in favor of Longmire, according to advices received from Olympia by H. J. Snively, attorney for Longmire. Longmire's contention is completely sustained by the supreme court and the upper land owners will be enjoined from taking any water out of the creek till the full amount required by Longmire reaches his premises. The decision by Judge Davidson, who divided the water, is reversed and set aside. The effect of this decision is to make all the ranches above Longmire's, dry ranches. By the expenditure of comparatively small sums of money, water in abundance to irrigate the many productive lands thus deprived of water, can be obtained from storage reservoirs at the head of the creek and an extension of the Selah Valley canal. These two sources of supply will now no doubt be quickly utilized by the rapid construction of the necessary works. The people who feel they suffer by the decision now, should not be discouraged for they own some of the most productive lands in the county. At best they have had water sparingly from the creek heretofore and raised but partial crops and owing to the water contentions the lands have been of little market value. They will now readily, by incorporating together, get a permanent supply of water from the sources named and have an increase of crops and an increased value on their land attributable to a fixed and certain water supply, and we really believe in the end the settlement of the rights of the waters of the creek will be a benefit to the people, now believing to be injured by it. The decision is undoubtedly a great victory for Mr. Longmire. Communicated.

FARMERS ARE ALARMED.

**Meetings to be Held to Protest
Against the Leasing of Govern-
ment Lands to Stockmen.**

The farmers in various sections of
this county are becoming aroused over
the proposition of leasing government
grazing lands to stockmen. A number
have called at this office within the past
few days and in discussing the matter
expressed themselves as being most em-
phatically opposed to the lease system
in any form.

A committee of Moxee farmers had
some bills printed this week calling a
mass meeting to convene at Moxee
school house this, Saturday, evening for
the purpose of discussing the matter and
formulating a vigorous remonstrance.
The DEMOCRAT was informed by the com-
mittee that the sentiment in that sec-
tion is practically unanimous against
the leasing proposition.

At the Moxee meeting tonight signa-
tures will be procured to a remonstrance
and arrangements will probably be
made to call a mass meeting of farmers
of the entire county to meet at the
court house in this city, for the purpose
of protesting against the proposed
measure.

Why Astronomy Destroys Am- bition.

Lord Rosebery recently deprecated the
study of astronomy "because it destroys
ambition." His point was well illus-
trated in the current news of the queer
doings of the star that blazed out for us
in the constellation Perseus in February,
1900. The favorite theory of the origin
of this star is that two great dead or
dying suns rushed together in the vast
and populous yet empty infinities of
space and were set on fire by the stupen-
dous impact. The telescope now reveals
strange perturbations there—enormous
masses of molten matter moving about
at a rate that can hardly be less than
50,000 miles a second!

No figures which the human mind can
grasp would express the size of the
bodies involved or the extent of this
conflagration. And, most crushing of
all to the imagination of man, this star
is so far removed from our tiny niche in
the universe that, although light travels
more than 180,000 miles a second, the
events of this drama which we are now
observing occurred between 2,000 and
3,000 years ago.

As Lord Rosebery suggested, the study
of such facts as these does not tend to
give a man the sense of his own impor-
tance necessary to his acting upon the
theory that his puny possibilities are
worth developing.—N. Y. World.

"The State" For November.

The November issue of "The State",
a magazine published at Tacoma, is at
hand. This issue is made up almost
entirely of State Fair and Yakima mat-
ter and is very well illustrated. Col.
Fowler's literary style while rather
stilted and flowery, is nevertheless at-
tractive which makes his productions
always readable. Mayor Fechter con-
tributed a very excellent article on the
Yakima valley. About 1200 copies of
the issue were purchased in this city,
the State Fair commission, the Commer-
cial Club and different business firms
being the purchasers.

To Whom it May Concern.

Editor DEMOCRAT:

As there are certain malicious and
mischievous parties who have been
spreading the reports about me in re-
gard to the artesian well, I hereby chal-
lenge them to prove their statements to
the effect that I was in any way bought
off by the ditch company, or that there
was any understanding with them or
anyone else to stop work on same. The
trouble was with and within the com-
mittee which was appointed to collect
the subscription money and look after
the affair. When I had worked at drill-
ing for months and had sunk the well
357 feet, and 150 feet of it through the
hardest of material, at a cost of \$1,000,
and had received only \$140 from the
committee (less what I had paid on my
own subscription) I asked them to fur-
nish \$250 to go on with the work, not to
pay in part for what I had already done.
They claimed they held a meeting and I
was told that times were hard and that
the subscribers would not pay and that
I had better get another job. That was
all I heard about it until a few months
ago I heard that they told other people
that I had not done work justifying an-
other payment, which is a false state-
ment. I challenge those parties who
have been spreading these false state-
ments with an offer of \$300 to prove that
I had any understanding with the ditch
company or in anyway acted dishonor-
able in regard to the well. If the peo-
ple wish the well finished I am willing
to go on with it as soon as certain con-
ditions are complied with, which I will
make known should a meeting be called
to discuss the matter. J. W. TURNER.

WASHINGTON LETTER.
(From Our Regular Correspondent.)

WASHINGTON, Nov. 28, 1901.

"Has President Roosevelt been playing an extremely clever game of politics?" That is the question which in Washington has taken precedence of all others and beside which economic problems, committee appointments and local appropriation "trades" pale into insignificance. No one ever suspected such a thing until congressmen began to arrive for the session and then general discussion of local conditions revealed such an extraordinary concatenation of coincidences(?) that it simultaneously dawned upon a number of people that the young gentleman in the White House had been perfecting an organization preparatory to the 1904 convention with a degree of political skill which no one ever suspected that he possessed.

"The discovery," as it is called, was discussed in every hotel lobby in Washington last evening. "I never believed him capable of it," said a republican senator. "The charming naivete with which he has made appointments and turned down candidates has misled us all," said another. "In a way that was 'childlike and bland' he has announced that he would appoint only good men to office and all the time he has been quietly manipulating his little bowie knife under the fifth rib of the Hon. Marcus A. Hanna," laughingly remarked a western representative. It is most entertaining to hear the opinions that were expressed by various members of the president's party.

The facts on which "the discovery" is based are as follows: It is held that at his recent visit to the White House, Senator Quay was lead to pledge himself to the support of the president and that is what has produced Governor Stone's disaffection, because the governor believed that Mr. Roosevelt would prove so erratic a politician as to entirely disrupt the organization of his party and so render his nomination for a second term impossible.

As I have already pointed out in these letters, Mr. Roosevelt has secured pledges from Governor Odell and Mayor-elect Low of Greater New York. It is true he has lost all chance of support from Senator Platt but it is doubtful if he ever possessed any.

With the aid of Senator McLaurin, who, it is believed, will remain a democrat until the time approaches for the presidential convention when he will declare himself a "Roosevelt man", irrespective of party, the president has practically reorganized the republican machines in North and South Carolina and the former members, who were under obligations to Senator Hanna, are now out in the cold. The reorganization process has just begun in Alabama but no opportunity will be lost to perfect it. The same is true of Texas where Mr. Roosevelt has deposed National Committeeman Hawley.

In Missouri, Mr. Roosevelt is deferring his decision in the Kerens-Hitchcock controversy but it is alleged that whichever faction comes out squarely with a pledge of support in the next presidential convention will be declared the winner. In Illinois he has secured pledges from a large number of the leading republicans and probably of the entire republican machine, although it has not been his policy to show his hand but to move quietly and deliberately but with certain aim so that before he has been in the White House a year he may feel relieved from all uneasiness because of the existence of the Hanna machine which twice nominated Mr. McKinley and was scheduled to nominate Mr. Marcus Hanna in 1904.

I have it on excellent authority that the president hopes to score a masterstroke by the recommendation in regard to reciprocity with Cuba in his forthcoming message. He will, I am told, attempt to steer between the Scylla of the high protectionists and the Charybdis of the Oxnard faction and at the same time gain the golden apple of sugar trust favor by recommending a material concession in the tariff rates on raw Cuban sugar. It is worthy of note in this connection that the report of secretary of war, Root, who, by the way, stands very close to the president, recommends a "reasonable reduction in our duties on sugar" imported from Cuba, saying

that "our present duty to Cuba can be performed by the making of such a reciprocal tariff arrangement with her as President McKinley urged," etc.

In this connection some figures on our sugar consumption and on republican methods of raising a revenue may prove interesting. Our consumption of sugar for the current year is estimated at 2,360,500 tons of which amount domestic producers, using the term to include the producers of Porto Rico and Hawaii, furnish approximately one million tons leaving a balance of 1,360,500 tons on which a duty of about \$36 per ton is collected.

This means that the government receives in sugar duties approximately \$49,000,000 but, as this duty enables the domestic producers to charge as much for their sugar as the imported sugar costs with the duty added, it also means that the consumer pays into the pockets of the domestic producers \$36,000,000 and that the consumer pays a total of \$85,000,000 a year for sugar in order that the government may receive a revenue of slightly less than \$49,000,000. These figures show how far republican plutocratic tendencies have carried the party since the period, some ten or twelve years ago, when the republican war-cry was "A free breakfast-table for the American workingmen."

The democratic members of the House will hold their caucus on Saturday morning at 11 o'clock. The only business that will come before the caucus will be the selection of a few members of committees and the few employees whose nomination is conceded to the minority.

The republican members of the house of representatives will hold their caucus on Saturday afternoon and it is probable that an evening session will also be held. There will be considerable business to be disposed of, the election of officers, over which there will be no contest, and the selection of employees, but no matters of policy will be taken up and the major portion of the work of reorganization will devolve upon Speaker Henderson, who will, of course, be re-elected.

I understand that when congress convenes on Monday, Senator Hanna will formally notify the senate and Representative Grosvenor the House of the death of ex-President McKinley, that both bodies will decide upon a day for the delivery of eulogies and adjourn. This will mean that the president's message will not be read until Tuesday.

Catarrh Cannot be Cured.

With local applications as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in the country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

The Great Railway Combination.

As Russell Sage says, the \$400,000,000 Northern Securities Company or Western Railway Trust, will have to be "watched and watched very carefully." While it directly controls only trans-Mississippi railways, its organizers are the same men who control the great Eastern trunk lines. It is therefore in fact a continental "combine" which practically abolishes railway competition and places the access to market of every producer in the United States at the mercy of a few men who are themselves monopoly-seeking producers of such necessities as coal, iron and oil.

Not only are these men strong in the national party councils, and so, if they wish in the National government, but also they have interests that are within the jurisdiction of the courts and legislatures of every state in the Union. Only their sagacity, their caution and the honesty of public servants stands between their perfectly natural human appetites and a policy of widespread oppression.

But as the World said Saturday, greater even than the public anxiety must be the anxiety of these "harmonizers" because of the internal problems of their monster mechanism. All these railroads are burdened with stocks and bonds to many times the value of the actual property they purport to represent. Fully as dangerous to this gigantic creation as to the public will be any failure justly to apportion earnings, any policy tending to favor one city or section or set of producers at the expense of another. Long before public wrath had gathered, the wrath of injured bond and stock holders would be beating fiercely against the foundations which Messrs. Morgan, Rockefeller, Vanderbilt and Harriman have laid.

The test of these great dams across the ancient river of competition will come with "hard times." And the main hope of their endurance is, as their authors admit, the realization of Mr. Morgan's confident belief that by harmony and equalization—that is, by private socialism in the prime necessities of civilization—"hard times" can be indefinitely postponed.—N. Y. World.

Good Pay for a Joke.

A witty remark does not always result so satisfactorily to the perpetrator as in the case of the young curate who obtained a valuable living in the west of England by means of a pun.

The rector who held the living had died, and there were many applicants for the place, which was worth \$10,000 a year. The living was in the gift of an Earl, who was surprised at the funeral by the manifestations of grief by the assembled rectors and curates. So he said to the young curate who had been acting as the tutor of his son:

"Naturally they should feel a proper amount of grief, but I cannot understand why they should weep so frenziedly for the dead."

The young man instantly replied:

"You are mistaken, my lord; it is not for the dead they weep—it is for the living."

Thereupon the Earl was so pleased with the keenness of the remark that he presented the living to the curate.—Youth's Companion.

A Characteristic Schley Report.

Modesty seems to have been a characteristic of Admiral Schley. The testimony before the court of inquiry showed that he had never, in any of his reports,

attempted to make his own part in the great battle of Santiago Bay conspicuous. The Lincoln (Neb.) Journal recalls an interesting fact which occurred in 1871, when Schley was lieutenant commander and acted as adjutant of the landing party which demolished the Korean forts. According to the official reports, Schley was the second officer within the forts and engaged in a desperate hand-to-hand struggle which routed the Koreans. In reporting this action, Commander L. A. Kimberly, now a rear admiral says: "The citadel was captured, but dearly so, as the gallant and brave McKee, the first to enter over the parapet fell, mortally wounded with two wounds. He has since died, and the navy lost one of the noblest and best sons. Lieutenant Commander Schley was the next officer in the fort and killed the Korean who wounded McKee." Schley's report of the occurrence is in the following modest language: "The same brave one who had speared McKee rushed upon me, but the spear passed between my left arm and my body, and, before he could withdraw it for a second trial he was shot dead and fell lifeless at my feet.—Commoner.

"IMPROVING EVERY DAY."

"For a number of months I suffered with female trouble," writes Miss Agnes McGowne, of 1212 Bank Street, Washington, D. C. "I tried various remedies but none seemed to do me any permanent good. The doctors said it was the worst case of female trouble they ever had. I decided to write to you for help. I received a very encouraging reply and commenced treatment at once. I had not used your 'Favorite Prescription' a week before I began to feel better, and, as I continued, my health gradually improved. It is improving every day and I still continue to take the medicine."

"A WONDERFUL MEDICINE."

"For three years," writes Mrs. Mary A. Sasser, of High, Lamar Co., Texas, "I suffered with female weakness, also ulceration of the internal organs. After using three bottles of your 'Favorite Prescription,' four bottles of 'Golden Medical Discovery,' and two vials of 'Pleasant Pellets,' I found entire relief. I am able to do my work with ease. I recommend your wonderful medicine to all my friends, for I truly believe it saved my life."

UNHAPPY WOMEN!

No woman can be happy when her health is undermined. No woman can have good health while she suffers from female weakness, inflammation, ulceration or any disease of the delicate womanly organs. Nervous, sleepless, fretful, suffering in body and mind, she does not live but only exists.

More than half a million such women have found a perfect and permanent cure for their diseased condition in the use of Dr. Pierce's Favorite Prescription. Women cured by this remedy say it is a "wonderful medicine," so perfectly does it restore them to health and comeliness.

Sick and ailing women are invited to consult Dr. Pierce, by letter, absolutely without charge or fee, thus avoiding the unpleasant questionings, offensive examinations and obnoxious local treatments considered necessary by many local practitioners. The Commoner.

(Mr. Bryan's Paper.)

The Commoner has attained, within six months from date of the first issue, a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of the Commoner Mr. Bryan contributes his best efforts; and his review of political events as they arise from time to time cannot fail to interest those who study public questions. The Commoner's regular subscription price is \$1.00 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and the DEMOCRAT together for one year for \$1.75. The regular subscription price of the two papers when subscribed for separately is \$2.00.

FARMERS ARE ALARMED.

**Meetings to be Held to Protest
Against the Leasing of Govern-
ment Lands to Stockmen.**

The farmers in various sections of
this county are becoming aroused over
the proposition of leasing government
grazing lands to stockmen. A number
have called at this office within the past
few days and in discussing the matter
expressed themselves as being most em-
phatically opposed to the lease system
in any form.

A committee of Moxee farmers had
some bills printed this week calling a
mass meeting to convene at Moxee
school house this, Saturday, evening for
the purpose of discussing the matter and
formulating a vigorous remonstrance.
The DEMOCRAT was informed by the com-
mittee that the sentiment in that sec-
tion is practically unanimous against
the leasing proposition.

At the Moxee meeting tonight signa-
tures will be procured to a remonstrance
and arrangements will probably be
made to call a mass meeting of farmers
of the entire county to meet at the
court house in this city, for the purpose
of protesting against the proposed
measure.

Why Astronomy Destroys Am- bition.

Lord Rosebery recently deprecated the
study of astronomy "because it destroys
ambition." His point was well illus-
trated in the current news of the queer
doings of the star that blazed out for us
in the constellation Perseus in February,
1900. The favorite theory of the origin
of this star is that two great dead or
dying suns rushed together in the vast
and populous yet empty infinities of
space and were set on fire by the stupen-
dous impact. The telescope now reveals
strange perturbations there—enormous
masses of molten matter moving about
at a rate that can hardly be less than
50,000 miles a second!

No figures which the human mind can
grasp would express the size of the
bodies involved or the extent of this
conflagration. And, most crushing of
all to the imagination of man, this star
is so far removed from our tiny niche in
the universe that, although light travels
more than 180,000 miles a second, the
events of this drama which we are now
observing occurred between 2,000 and
3,000 years ago.

As Lord Rosebery suggested, the study
of such facts as these does not tend to
give a man the sense of his own import-
ance necessary to his acting upon the
theory that his puny possibilities are
worth developing.—N. Y. World.

"The State" For November.

The November issue of "The State",
a magazine published at Tacoma, is at
hand. This issue is made up almost
entirely of State Fair and Yakima mat-
ter and is very well illustrated. Col.
Fowler's literary style while rather
stilted and flowery, is nevertheless at-
tractive which makes his productions
always readable. Mayor Fechter con-
tributed a very excellent article on the
Yakima valley. About 1200 copies of
the issue were purchased in this city,
the State Fair commission, the Commer-
cial Club and different business firms
being the purchasers.

To Whom it May Concern.

Editor DEMOCRAT:

As there are certain malicious and
mischievous parties who have been
spreading the reports about me in re-
gard to the artesian well, I hereby chal-
lenge them to prove their statements to
the effect that I was in any way bought
off by the ditch company, or that there
was any understanding with them or
anyone else to stop work on same. The
trouble was with and within the com-
mittee which was appointed to collect
the subscription money and look after
the affair. When I had worked at drill-
ing for months and had sunk the well
357 feet, and 150 feet of it through the
hardest of material, at a cost of \$1,000,
and had received only \$140 from the
committee (less what I had paid on my
own subscription) I asked them to fur-
nish \$250 to go on with the work, not to
pay in part for what I had already done.
They claimed they held a meeting and I
was told that times were hard and that
the subscribers would not pay and that
I had better get another job. That was
all I heard about it until a few months
ago I heard that they told other people
that I had not done work justifying an-

ment. I challenge those parties who
have been spreading these false state-
ments with an offer of \$300 to prove that
I had any understanding with the ditch
company or in anyway acted dishonor-
able in regard to the well. If the peo-
ple wish the well finished I am willing
to go on with it as soon as certain con-
ditions are complied with, which I will
make known should a meeting be called
to discuss the matter. J. W. TURNER.

CITY COUNCIL PROCEEDINGS.

**Much Talk but Little Business
Transacted.**

At the regular meeting of the city council Monday night the mayor and all the councilmen except Weed, responded to roll call. The minutes of the preceding meeting was read and approved after some minor corrections.

The petition of A. Johnson for renewal of saloon license on lot 30, block 11, was read and on motion granted.

The October reports of city officers were then read. That of the sexton showed seven burials and \$24 collected. That of the police judge showed that the sum of \$414.25 had been collected in fines. The marshal reported that 77 arrests had been made, 109 meals furnished prisoners, three horses sold from the pound for the sum of \$18.75 and necessary work done in the way of repairing sidewalks and cleaning streets. The reports were referred to the proper committee.

An ordinance providing for an increase in the salary of the city attorney from \$25 to \$40 per month and that of the police judge from \$20 to \$25 per month was read. On motion of Donald the ordinance was laid on the table.

A resolution was read authorizing Trustee Fechter to relinquish back to the government all claim to the disputed tract within the city limits. The matter was discussed at great length. Shaw finally made a motion, which was carried, that a committee of three be appointed to proceed to negotiate with the N. P. Ry. Co. looking to a settlement and with instructions to report at the next meeting. The motion was carried and the mayor appointed as such committee, Shaw, Donald and Reed. In this connection a letter was read from D. E. McKinnon of Wallace, Idaho, a property owner of the disputed tract, urging a prompt settlement of the matter.

A communication was read from Attorney Snively which stated that the claims of Messrs. Berry and Walton, Quaker doctors, against the city amounting in all to \$339, had been assigned to him and demanding that a warrant be drawn in his favor for that sum. Mr. Snively asserted in his communication that the fines against his clients had been illegally assessed for two reasons, first, because the ordinances were illegal and secondly that Mr. Lince, the judge who assessed the fines, was without jurisdiction. The letter was referred to the finance committee.

Clerk Doust asked that a warrant in the sum of \$902.25 be authorized to pay the semi-annual interest on the city's bonded indebtedness, which was done.

Engineer Marble reported that the co-operation asked for by the county from the city in aiding to repair the boundary road north of town, would probably cost

the city about \$50. He advised, however, against attempting the work before early spring, which view was accepted by the council.

Thomas Lund then addressed the council as a Front street property owner and claimed that Contractor Burlingame was not complying with the specifications in the matter of laying the gutter paving on that thoroughfare. A long argument then ensued in which the mayor, all the council, Mr. Lund, Mr. Burlingame and the city engineer all took part and the atmosphere was a little sultry for a time. The mayor finally smoothed the matter over by stating that the contractor in any departure he made from the specifications was taking all the chances in the matter of collection of street assessments.

The condition of the Yakima avenue pavement also was considered at length. A motion made by Hall finally prevailed to try the experiment of placing a layer of sand two inches deep over one half a block to see if it would not improve the street.

Sinclair, of the cemetery committee, reported that the city plot in the cemetery was now almost all taken, that no ground could be bought from the Odd Fellows and that the price of adjoining lands was held at extremely high prices. He advocated the purchase by the city of 80 acres of land under the proposed Burlingame ditch and the establishment of a new cemetery. No action was taken on the report.

The following election officers were then appointed by the council: First ward, J. E. Merwin, A. L. Aikins, W. A. Hall. Second ward, A. Hammel, G. S. Hough, James Curran. Third ward, John Reed, Geo. S. Ourter, S. J. Neeland.

On motion of Allen the council authorized Chief Hauser to appoint a man at a salary of \$60 per month to take charge of team and chemical engine on arrival.

Bids were then opened for the grading of S. First street. That of Wm. McKivor was for \$1.00 per lineal foot, that of E. C. Burlingame was \$1.20 per foot. On motion of Donald the bids were rejected on the ground of being excessive. The council then adjourned.

Resolutions of Condolence.

North Yakima Camp 5550 M. W. A. at its regular meeting Dec. 3rd, the beginning of a new year in the camp, passed the following resolutions of sympathy for the neighbors who have been called upon to mourn the loss of loved ones during the past year.

Whereas; it hath pleased the most compassionate One in his unsearchable wisdom to visit the homes of our esteemed neighbors, F. H. Plumb, R. N. Gorden, F. L. Hayden and W. W. Burges, and take back unto himself those dear ones whom they nevermore shall see until they gather with those white robed ones around the great camp fire on high, be it therefore

Resolved, by this North Yakima Camp 5550 M. W. A., that we extend to our bereaved neighbors this expression of our sympathy and neighborly regret, and be it further

Resolved, that the clerk of this camp be instructed to furnish a copy of these resolutions to Neighbors Plumb, Gorden, Hayden and Burges and another to the press for publication.

A Quiet Election.

The municipal election in this city Tuesday was an exceedingly tame affair. There being but one ticket in the field, the result was regarded as a forgone conclusion and a good many citizens, even of those who were registered, did not take the trouble to vote.

Only 158 votes were cast in all out of about 1000 in the city. 58 were cast in the first ward, 52 in the second and 48 in the third. In the first ward the polls were located in the armory, in the second at the court house and in the third at the city hall.

"What Happened to Jones,"
Dec. 11th.

Teeming with spontaneous humor is that most interesting of all comedies, "What Happened to Jones." It is the medium which has made millions laugh and its usefulness is not yet extinct. This season this clever work is to be seen under the direction of Thomas W.

Broadhurst and successes of other days no doubt will be repeated.

Humor may be broad and most enjoyable; the trouble with most broad humor is that it has an element in it which causes a feeling of repugnance to manifest itself among people of breeding, but this is a charge which cannot be laid up against that screamingly funny farce, "What Happened to Jones." The humor is broad and very keen yet not an objectionable line will be found in the entire play. Thomas W. Broadhurst is sending it on tour this season and a clever company has been engaged to present the play properly.

FAIRVIEW! FAIRVIEW!

A CHANCE TO GET A HOME

We have listed the entire Simpson tract of land in Fairview, adjoining the State Fair Grounds on the south. This property is located only two miles from the city of North Yakima, and is well adapted for any kind of agriculture, particularly fruit culture and gardening. The locality, from a residence point of view, is most desirable for the following reasons:

First, it is a good neighborhood.

Second, it is healthful; the water supply being exceptionally good.

Third, this tract is located within the North Yakima school district, and a suburban school is situated on the tract itself.

This tract has been sub-divided mainly into 5-acre lots, and is now on sale at very reasonable prices, and on easy terms.

We have the exclusive agency of this desirable property.

Call on us for particulars.

WE OFFER THIS WEEK THE FOLLOWING BARGAINS:

LOCAL HAPPENINGS.

Thomas Lund is a Seattle visitor this week.

Messrs. Tenant and Miles, the new proprietors of the Hotel Bartholet, have spent most of their time in Alaska during the past four years. They built and operated for a time the Grand hotel in Skagway and have since been engaged in mining enterprises near Dawson.

A committee of Ellensburg gentlemen—namely, Messrs Getz, Talbott, Elwood and Wright, came down Thursday to inspect Larson's theater with the view of gaining some pointers in the remodeling of the play house in their own town. They seemed well pleased with the local theater in all particulars save for the arrangement for heating.

The marriage of Marcus Graves, the popular clerk at the Yellow drug store, to Miss Margaret Parsons, is announced to take place tomorrow, Sunday, at the residence of the young lady's grandpar-

ents Mr. and Mrs. E. S. Yeates of the Natchez. The DEMOCRAT extends congratulations to the happy couple in advance.

An informal meeting of the city council was held in the Commercial Club room to consider the "disputed tract" question Friday night. Judge Rudkin as the special attorney for the city in this case, was present and made a full presentation of the matter. The majority of the council are understood to have agreed that while a compromise with the Ry. Co. was desirable from every point of view, yet the city ought not to compromise its claim on the land without receiving some substantial benefit in the shape of a concession from the company of at least a block of land.

The Celebrated "Leaf Ant."

One of the oddest little creatures in all animal nature is the "leaf ant" of Central America. Although different species of this oddity are known to inhabit the American continent from Brazil to Mexico, the real home of the true leaf ant is in Nicaragua. To all outward appearances this little insect is a common ant, but one of gigantic size, it must be admitted, when compared with the ants of our temperate regions, being on an average over an inch in length. The habit for which these ants are so celebrated, and one which we could hardly believe were it not for the testimony of reputable naturalists, is that of carrying a leaf for a sunshade, just as our women and men carry parasols and umbrellas for the same purpose.

When at work, the leaf carrying ants look like a little army in which each individual member is protected from the sun's rays by a little banner of green. Another remarkable fact in connection with the leaf carrier is that only those at work carry the little leafy protection. When a long file of burden bearers have deposited their budgets, they discard their parasols and return for a load without the leaf which made them such conspicuous objects when on the "up trip."

Millet and "The Angelus."

It was only after long years of struggle and dire poverty, through which Millet was consoled and supported by his wife, that the peasant painter was able to take the three roomed cottage at Barbizon and "try to do something really good." It was then that he began to paint that most beautiful "poem of poverty," the "Angelus," which is today one of the most valuable pictures in the world. Again and again he threw aside the picture in despair of ever finishing it to his satisfaction, and as often his wife replaced it on the easel and induced him to continue.

On one occasion he was so incensed at not being able to produce a certain effect that he seized a knife and would have destroyed the canvas and ended the matter once for all had not his wife fortunately seized his hand and induced him to give the picture another trial. Thus it was that at last the "Angelus" found a place on the walls of the Louvre. The success it won encouraged Millet to paint many more pictures and thus place himself among the immortals in art.

Abraham Lincoln.

This Lincoln of the black loam, who built his neighbor's cabin and hoed his neighbor's corn, who had been storekeeper and postman and flatboatman, who had followed a rough justice round a rough circuit, who had rolled a local bully in the dirt, rescued women from insult, tended the bedside of many a sick coward who feared the judgment, told coarse stories on barrels by candlelight (but these are pure beside the vice of great cities), who addressed political mobs in the raw, swooping down from the stump and flinging embroilers east and west—the physician who was one day to tend the sickbed of the nation in her agony, whose large hand was to be on her feeble pulse and whose knowledge, almost divine, was to perform the miracle of her healing.—Winston Churchill's "The Crisis."

A Chinese Joke.

There was a man in Ch'ang-an who was very fond of giving dinners, but the food given was atrocious. One day a guest threw himself on his knees in front of this gentleman and said, "Am I not a friend of yours?"

"You are, indeed," replied his host.

"Then I must ask of you a favor," said the guest, "and you must grant it before I rise from my knees."

"Well, what is it?" inquired his host in astonishment.

"Never to invite me to dinner any

Notice to Contractors.

Notice is hereby given that the city of North Yakima will let a contract to grade SOUTH FIRST STREET in the city of North Yakima, from the north line of Chestnut Street to the southwest corner of lot 10 in block 13 in said city by grading said street between said points, said grading to be done, constructed and completed according to the grade marked out and established along said street by the city engineer and in all respects according to the plans, specifications and detail drawings of the city engineer for the completion of said improvement.

Plans and specifications can be seen at the office of the city clerk of said city. Sealed proposals for the contract for the above proposed improvement will be received by the city clerk up to the time the bids are opened, to-wit: on the 16th day of December, 1901, at 7:30 o'clock p. m.

All bidders will be required to deposit with their bids a certified check for 100 dollars on some bank in the city of North Yakima, payable to the order of the city treasurer, as security that said bidder will enter into a contract with said city in case such contract is awarded to him. The contractor will be required to enter into a contract and give a bond with approved sureties, as required by laws of 1897, page 57, within three days after notice from the city clerk that the contract has been awarded to him.

The city council reserves the right to reject any and all bids.
Dated at North Yakima, Wash., this 3rd day of December, 1901. H. B. DOUST, City Clerk.

more," cried the guest, at which the whole party burst into a loud roar of laughter.—North China Herald.

Oddest Parasite in Creation.

Do readers know that the royal Bengal tiger is infested with one of the strangest creatures that ever lived? It is said to be a fact easily demonstrated or proved by one who has access to a zoological collection that the web of the foot of tigers of the above named species is inhabited by a blood sucking insect about the size of a common flea which is a perfect counterpart of a tiger in every particular, shape, claws, tail and stripes included.

Eternal Lamps.

A common superstition that the ancients possessed the art of making lamps which would burn forever for a long time obtained, and it was claimed that one such lamp was discovered in the tomb of Rosicrucius. Science, however, has long set this, together with other superstitions, forever at rest, since it has been demonstrated that fire will not burn in a chamber from which the air has been exhausted.

Hotel Bartholet Changes Hands.

Landlord John Michels, who for the past four years has been the popular host of the Bartholet house of this city, stepped down and out Monday, having sold his hotel business and bar to Messrs. E. G. Tennant and M. B. Miles, of Seattle.

The deal made includes the business, the furnishings of the house and the bar together with a three year lease of the property, which may extend to five at the option of the purchasers. The price paid is said to have been \$9000. The new proprietors, who are experienced hotel men, took charge Monday night.

Mr. Michels expects to get his affairs adjusted here within the next two weeks, after which time he and his family will leave for the Sandwich islands, where they expect to spend the winter. Mr. Michels' health has not been of the best during the past year and he and Mrs. Michels trust that the change of climate will prove a benefit. The hotel business from which he now retires has proved very profitable to Mr. Michels, having netted him a small fortune within the time mentioned.
