Dear Friend Click:

Thanks for the clipping but particticular for the word that the book is definitely coming out. It seems to me this is a field that hasn't been touched and I suspect that you are already thinking about Volume No. 2, though possibly under another name.

Congratulations also on the Awards. They put some cream in the bottle. When the time comes for some boosting of the book, let me know and I'll give it a good plug in the News-Letter.

I am sure the place for next year's Conference will result in no hassle with Spokane. Our first concern is that the Conference continue to live. I have written a long letter to Ross Toole and J.E. Ferris, pointing out that I feel there is need for a re-survey of the Conference, putting down on paper the Objectives, a complete organization, and other details. Some pretty definite objectives were set forth the first and second years and there is danger of getting away from them. It seems to me there should a chairman and possibly a secretary, so that between conference items can be cared for without wondering who is doing what.

I'm sure everything will work out nicely. I may see "r. Ferris in Spokane Tuesday if he is there. I'll be there during the morning but won't get out of the hote.

Fraternally

Chapin
