# Don't Make a Mistake

Many people make mistakes that cause them regrets through life. If you intend to follow a business career, you can make no greater mistake than by enrolling in the wrong school. While you are getting a business education, you don't want to waste any time. You want to get through as soon as you can and not slight your work. That is just what our students do. They are directed by the best instructors, each a specialist in his line. They are pushed as rapidly as their capabilities will permit, and no work slighted, but every part of each course is thoroughly gone over.

There is a position awaiting a student who has thoroughly and conscientiously completed the short-hand or book-keeping courses. There never has been a time in our history that we were able to fill the demand for help. If you want a position as soon as you are through a course; if you want your work, while completing a course, to be pleasant and agreeable, this school is the place for you.

Our catalogue gives you information which you should have. It is free for the asking.

### PROPOSED ELECTRIC SYSTEM

Prospect for the Early Building of the School Board Issues a Call for an Election Yakima Valley Central Lines

Very Encouraging.

Hon. Edward Whitson has lately received advices from Joseph McNaught, now in New York, which makes the prospects of the proposed Yakima Central Railroad company look very bright. Mr. McNaught states that he has recently concluded negotiations with some to vote on the proposition of issuing adof the head officials of the N. P. system, ditional bonds to the extent of \$15,000. whereby that corporation agrees to consouth end of this town. In addition debtedness. Mr. McNaught has secured a traffic quite advantageous to the new company. this county every encouragement, which with the increase. local promoters of the enterprize say curing the necessary capital to carry out his scheme.

G. S. Rankin, while in St Paul recently, conferred with a number of capitalists of that city whom Mr. Mc-Naught has interested in the project cital. and found them all to be quite enthusiastic over the enterprise. These gentlemen who have been over the ground here seemed to be very unanimously of the opinion that a system of electric to facilitate a higher development of afforded the outlying valleys.

The proposition made by Mr. Comings of Seattle, to establish a beet sugar factory here is to some extent contingent upon the construction of the electric lines. The promoters of the sugar factory consider that if the new lines are built that North Yakima as the center of the system would be one of the most advantageous locations for a sugar making plant in the United States.

### City Campaign Next.

The city election, which occurs Tueslay, Dec. 2, is beginning to be the subject of absorbing interest, especially ment of pupils is greater by 220 than for among the local politicians.

There is no disposition, apparently, to introduce partisan politics into the city election this year, as was done two years ago. However, it looks as though there would be two tickets in the field, the issue being whether North Yakima shall remain a practically closed town or be wide open again.

Those most prominently mentioned for the mayorality nomination are Mayor Fechter, Walter J. Reed and Miles Cannon. The first named gentleman states that if re-elected he will continue his present policy of opposition to open gambling. The position of Mr. nated. Reed on this question has not been defined. As to Mr. Cannon, his nomination is said to be favored by those who

favor removing the present restrictions. Scarcely anybody has been mentioned as yet, to fill the positions of councilmen. As for the salaried offices it is understood that City Attorney Snyder, Treasurer Donovan, Clerk Doust and Health Officer Frank will all be candidates to succeed themselves in the offices that they now hold. The other positions such as marshal, police judge, sexton, street superintendent, ditch tender, plumbing inspector and scavenger are all filled by appointment by the city

#### OFFICIAL PAPER OF NORTH YAKIMA.

Now that the returns of the recent election are all in and the result generally known, a review of the political situation is naturally in order.

On the whole, throughout the north and west the republican party won in practically every state; in the east by largely reduced majorities, in the west by largely increased majorities, even carrying several of the mountain states which in the last election were democratic. In the southern and border states it gained nothing, in fact it lost most of what support it had gained in that section since the memorable campaign of 1896.

In the east, notably in New York, New Jersey. Delaware and the New England states, the republican majorities look pitifully small as compared with what they have been in recent years. In that section the democrats made large gains in the number of congressmen elected and had the same ratio been maintained in the middle or central states, the party would have had control of the house of representatives, whether it wanted it or not. As it is, notwithstanding the increased membership, the republican majority has been whittled down to about 22.

There is no other way of accounting for the large slump in the republican vote in the eastern states, than that a growing dissatisfaction exists in that section, with the policy of that party or rather the want of policy in dealing with the trust question. An analysis of the vote throughout the east can hardly fail to convince the ordinary student of political events, that it is the trust evil more than any other issue that concerns the mass of the people; to correct which, they are beginning to anxiously look for a remedy.

If it had not been for the attitude taken by Roosevelt on this burning question, the probabilities are that his party would have met defeat in many places where it won out by slender pluralities. The present occupant of the White House, it must be admitted, has the confidence of the country to a very great degree and since he has shown a desire to solve the trust problem, the people were loath to deny him a full opportunity, even though they may not have much faith in his party.

In the central states the republicans appear to have nearly held their own, except in the matter of congressmen

With the exception of California, the republicans appear to have gained ground in the west. Iu the golden state that party lost three congressmen and appear to have elected the governor by a mere scratch.

To sum the whole matter up the vote over the most of the country indicates a feeling of unrest among the people. The verdict, however, as we construe it is that the republican party under its new leader, who is yet in the experimental stage, has been given a probation period of two years in which to accomplish certain results, principally in dealing with the trust question. If that party, with the full reins of government in its hands, makes no serious effort to deal effectually with the trust evil it will be called to sharp account by the of 800. people in 1904.

THE people of this city and county generally and especially the farmers, should take a keen interest in the proposition recently made to establish a beet sugar factory in this valley.

If careful experiment counts for any thing the rich soil of the Yakima valley is the natural home of the sugar beet. It has been demonstrated repeatedly that that valuable vegetable can be grown here containing 18 and even 19 per cent of saccharine matter, when 14 per cent is considered a good yield in other localities where factories are located and profitably operated.

The projector of the enterprise in this valley has informed the DEMOCRAT that it depends entirely upon our own people whether or not a factory will be located here within the next year. He and his associates ask for not a dollar of subsidy to induce them to establish a mill here of sufficient capacity to crush 600 tons of beets per day, giving employment to several hundred hands for about five months of the year. It will thus be seen that our people are not asked to estimate: Preston 42, Wilson 4, Ank- meager plurality of 16 votes, is a matter

They ask that mates from 9 to 34 members are classed the farmers subscribe for stock to the amount of \$100,000, payable not in cash, but in beets, covering a period of two years. This offer is made not because

proposition. For the most part, their land is peculiarly adapted to the cultivation of the sugar beet and taken one year with another it is undoubtedly the most profitable root crop that they can handle. We are informed that in Utah, Colorado and other sections where beet culture is made a specialty, that many \$100 per acre. This too in localities where the per cent of saccharine matter distilled from the beet is only about 15 per cent.

One of the strong points in favor of beet culture is that it enriches instead of impoverishing the soil as so many other crops do. The tops of the vege- be met at least four times a year in the table are left upon the ground to be transportation of prisoners and witnessplowed under, which makes a rich fertilizer. Another point in favor of the beet, too, is that it is the best crop obtainable with which to alternate other crops, which is a point worth considering in a country like this where diversified farming is the rule.

The DEMOCRAT would certainly advise its readers, especially the farmers, to begin investigating the culture of the the Sound? This county, unfortunately, sugar beet. Unquestionably it is one furnishes a large proportion of the of the most profitable crops that can be raised on our high priced irrigated lands and with a factory here to use the to do so so long as our Indians will product there never need be any fear as persist in drinking rotgut whiskey and to a market.

His market would be right at

THE secretary of the interior, as usual, is just a little bit previous in announcing at this early date just how many head of stock, or for that matter any stock at all, shall pasture next season in the Ranier reserve. He should have withheld his decision, at any rate, until a case pending in the U.S. court had been decided which would settle the question whether or not he has any authority in the premises.

The dispatches say that Supt, Sheller recommended to the department that the number of stock allowed to graze next year should be cut down as compared with the number permitted to go upon the reserve the past ssason, on There are people we know, however, who account of over grazing.

157000 head of sheep be allowed to go in they died they wouldn't say anything next year instead of 172000 this year about it. The vote for Jory, candidate for if he does not do so. senator, is 167, which fact indicates that Splawn cut into the "solid phalanx" to some extent. In Whitman county, which was said to be a socialist stronghold, only 256 votes were cast, after the party leaders had been claiming a vote

Such meager results after a "hot campaign" is hardly calculated to produce a feeling of confidence of future victory in the mind of the average socialist.

We have no fault to find with our friends, the socialists. Their medicine is pretty drastic and we are prepared to believe that it would either cure the patient or kill him. We think, however, that our socialist friends would be better satisfied now if they had cut national politics out of county affairs.

THE senatorial fight in this state now occupies the boards and probably will continue to do so until the legislature adjourns next March. The fight on the start is a three cornered one, being between Ankeny, Wilson and Preston with several possible dark horses looking of the Wilson papers, has come out anxiously over the pasture fence.

The Seattle Times of recent date gives an estimate of the present strength of the prises on the public that it may be exthree leading candidates, by themselves. The following are the estimates: Wilson estimate: Preston 40 votes, Ankeny show is over. 36, Wilson 40. Preston estimate: Wilson 22, Ankeny 27, Preston 43. Ankeny

In addition, about twice that number of witnesses were of the farmers have realized a net profit obliged to leave their work or business from their crop this year of as high as in order to give their testimony in the cases against the prisoners.

We have not attempted to figure out what it will cost "Uncle Sam" when he comes to pay the expense of this expedition to Walla Walla, but it will certainly amount to a very considerable sum and this big bill of expense has to es to Walla Walla or Spokane.

Now, all this tomfoolery ought to stop and it could be stopped by holding semi-annual sessions of the court at North Yakima. What sense is there in compelling the government to transport prisoners eastward to Walla Walla or Spokane and then on conviction to haul them westward to McNeil's island on business of the U.S. court in eastern Washington and probably will continue are denied the privilege of buying it. ## Grazing in Ranier Reserve.

The secretary of the interior authorized the grazing of 157,000 sheep and 6,300 cattle and horses on the Ranier forest reserve, and 20,000 sheep and 4,000 cattle and horses on the Washington forest reserve during the grazing

The sheep are to be allowed in the reserve from July 1 to September 25; is also found in great quantities and it and cattle and horses from June 1 to may not be impossible that this valley October I. Investigation has shown that too many sheep were allowed in tion of niter. There is no doubt that these reserves during the past summer, the development of this famous valley hence the number of permits is materially reduced.

The sheep in Washington reserve must be grazed east and aouth of Stehekin and west of Lake Chelan. Permits

The grazing allowance for the Rainier reserve is made in accordance with the recommendation made by Superintendent D. B. Sheller in his annual report. Last year 162,000 sheep and 6,500 head of cattle and horses were permitted to be grazed on this reserve, but Superintendent Sheller found that the range was deteriorating under such a number.

#### Fixed For Both Worlds.

Sam Jones in one of his sermons tells the following characteristic story. "Before I ever saw a Christian I learned one thing, and I want you to hear this. I was away from home and was robbed on a train. I had all the money I and my friend both had. He did'nt have any. They got mine-and we got off at a station. That was when I was a sinner and that was twenty-five years ago. He was a steward in the Methodist church, and I was a plain, common, simple sinner; that was all I was. When we got off at the station we strayed around there a short time.

He says: Sam, I wonder if there is a Mason in town? I said 'A Mason!' He said, 'Yes.' 'Well, I said, 'What do you want with a Mason?' He says: 'I can get some money if I can find a Mason.' I said: 'Ain't you a Methodist?' He said 'Yes.' I said: 'Why don't you go to a Methodist?' "Oh shucks,' he said, 'I go to the Masons,' and e struck out and in a few minutes came back. I said: 'How did you come out?' 'All right,' he said, 'I got it,' 'Whom did you get it from?' 'From a Mason,' he says. 'Sam if you want to go to heaven, you join the Methodists; but it you want to hold on down here you join the Masons,' So when I started in I just joined both, and tonight I am a Methodist and a Mason, and I am getting along well for both worlds."-Sumner Herald.

#### Was no Beehive.

The Sprague Times, is responsible for the following squib of pleasantry:

A good story is told on the betterhalf of a couple who went from this county to spend their honeymoon in a large city. One day the bride, finding that she needed to purchase a few small articles, left the young husband and hotel to go shopping. She returned shortly and made her way upstairs to the door she thought opened into her own room. Knocking gently at the door, she called affectionately:

"Honey, let me in." No response came, and she knocked

again and called in insinuating tones: 'Honey, please let me in."

"Madam," answered a gruff voice from within, this is no beehive. This is the bathroom."

#### Election In Frankin County.

There was quite a mixup as the result of the election in Frankin county. Tue democrats elected their candidate for representative, Dr. Muse, by a plurality of 22. They also secured the treasurer and the two commissioners. The republicans secured the sheriff, the combined office of auditor and clerk, the assessor and school superintendent.

The vote of Frankin county this year was over 500, which is about equal to the total population two years ago. The large increase coming from the new settlement about Connell.

Interest in the recent election centered on the office of representative and the battle between Muse and Hutson was a spirited one. Both are newcomers in the county.
