Dear Click:

I want you to know that we sincerely appreciate the help that you gave us in putting across Red Cross publicity during our campaign. We realize that due to many difficulties which we encountered we naturally were more of a headache to you than we would have been under normal circumstances. Your cooperation encourages some of the rest of us to try to do this job from year to year.

You have been a big help to us professionally, Click, but outside of that it has been a genuine pleasure to know you better and have an opportunity to enjoy your fellowship.

Best personal regards,
