Attached please find an itemized statement for the month of August. I believe that it will explain itself. The entry of August 17 was merely to transfer the old check to the royalty account so that we could keep the commission account straight. The 69.69 figure in black mentioned should have had the letters CR after it..Not all of the girls typewritten have red ribbons on them and when they make the statements the only way to designate the credit balances is to put CR after them.
