March 24 1953

Dear Click,

I cannot let this opportunity pass without expressing my appreciation to you for the most excellant meeting that you arranged and conducted at Fort Simcoe last Sunday, for the man and women you gathered from the far places who had so much interest in the restoration and historical aspects of the place that they came many miles for the occasion. To me it was a real feat and clearly indicates that you are unquestionably the man in the right position to assure success in our undertaking.

The Judge spoke highly of you and in the same vein. He enjoyed and appreciated his trip far beyond his expectations, and they were high. Your committee selections are tops. They have been thoroughly demonstrated to be and you as Chairman are to be commended and congratulated in their selection.

Should you in your research, run across any Ben Snipes information, I would be most appreciative to have it.

Thanks again Sir, you are doing a whale of a job. The publicity is wonderful.

Sincerely

Roscoe Sheller
