Dear Click,

Sometime ago I wrote to Dr. Fred Burrows of Yakima, whom I have known since his childhood, about getting a story in the FORD TIMES. I felt that he should be interested from a Ford Dealer's standpoint as well as from his natural concern as being a prominent citizen of Yakima Valley. He was.

He wrote to a man he knew who is on the Ford Times Staff and had a very encouraging reply, asking that ALL NEWSPAPER ARTICLES and PICTURES concerning the Fort be supplied him and that they would take it from there.

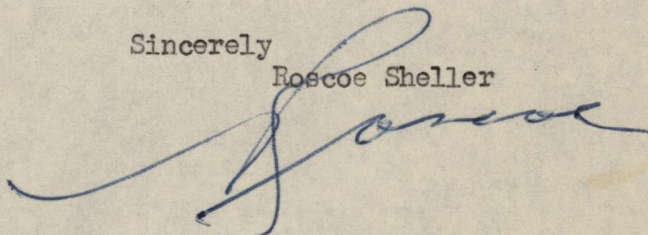

As Research Committee Chairman of the Society, would you collect the material and turn it over to Dr. Fred Burrows? It might be well to phone him first and ask him to let you see the letter, so that exactly the material they wish, be secured.

Thanks Click. I suggested to Fred that he arrange with you to write the story. Maybe that will happen yet. Anyway the Fort will get a whale of a lot of REALLY FINE publicity if we get the story in that magazine.

Success to you. and thanks again.

Sincerely

Roscoe Sheller
