

TOPPENISH TRADING COMPANY, INC.

GENERAL MERCHANDISE

TOPPENISH, WASHINGTON

Nov 15th 1926,

Judge N B Brooks,
Goldendale Wash.
Dear Friend Judge,

I was pleased to receive your recent letter and to know the dedication of Mary Hill went over so well also to receive a copy of your address of welcome to Queen Marie, it look so good th at we had it read at our Commercial Club Luncheon on wednesday and a vote of appreciation was unanimous with a request that I convey to you the action of the club in the matter. It was with deep regret that I learned the defeat of you and Mr C. but I am hoping you can give me the good word that those that were elected will be a great nepp to our road program. I trust the little boy you mentioned has recovered fully. As for the recall it is dragging very much in this neck of the woods the feeling seems to be that the tax payers are against the expense and you cannot blame them I am in hopes the matter will either get onto our system or else off. Duncan Dunn says it reminds him of an experance they had with their sheep herder by the name of Rodeo with whom they could not ke ep a dog the dogs kept coming home and his bro Geo said what shall we do Duncan, Duncan said let us try a pup on him so they sent him a pup and kept him blind folded until they were gone before removing the sack, and week or so after Duncan asked Rodeo how the pup was doing and Rodeo said he just barked like hell but got no where so he says that is the way with the recallers. Colonel Robertson and Geo Allen have sure been barking like helland getting no where in fact is has been rumored that many have lost a few subscribers. Billy Sunday is in Yakima and he is going good heard him yesterday 5000 in afternoon present 8000 at night and the boys crawled up on top on the roof to listen in lots of pep I, say. We are to hold our Big Baked Potato Dinner friday evening wish you and a few of the boys could come if you should consider coming would be necessary to wire for tickets as we sell only a certain numbe 450. this is all the room will hold nicely. What do you think of getting in touch with the boys that go over to Olympia and see what we can do towards lining up our road matters. let me heard from you.

With best regards.
