OFFICIAL PAPER OF NORTH YAKIMA

THE DEMOCRAT returns thanks to a number of socialist readers who have been appreciative enough to commend this paper for the stand taken in defense of free speech. This has reference to an editorial that appeared in these columns two weeks ago, when we condemned the action taken by members of the Loyal League of Tacoma in deliberately breaking up a massmeeting of socialists in that city. Some of our friends were inclined to assume from the tone of the article men ioned that we are socialistically inclined ourselves. This assumption, however, is totally unwarranted for our remarks when read even between the lines would not rightfully bear such an interpretation. We are not socialist and never pretended to be. Therefore we are not advocating socialist doctrine. We thoroughly believe in the rule of the people though, which is one of the corner stones of pure democracy. The right of free speech is another corner stone of democracy which we thoroughly believe in and it was the defense of this sacred principle that inspired the article. Another object that we had in mind was to point out in our feeble way the marked distinction between socialism and anarchy. This duty ought not to have been necessary, but it seemed to us that it was, for owing to the popular excitement occasioned by the brutal murder of our president the two isms were being closely associated together by people who have never taken the trouble to inform themselves as to the radical differences existing between the two organizations. The socialists that we personally know too, are not, we felt assured, the type of men that deserve to be classed with the anarchist. We know of none that do not procure a livelihood honestly and who are not good citizens. As a rule too, they are men who have given some study to the science of government and political economy and therefore have opinions that are worth listening to. Like all other organizations of a political nature the socialists doubtless have their quota of blatherskites who talk much and say little, but it is not fair to judge the mass by the froth that floats about on the surface. The socialist, the anarchist, the democrat and the republican are alike guaranteed the right of free speech in this country. But it should be remembered that every man who exercises this right makes himself responsible for his utterances. Our country ceases to be free when any man is prohibited the right to advocate any change in government that he proposes to bring about through peaceful means. The anarchist on the other hand, is justly condemned because

he has griveously sinned by grossly abusing the sacred right of free speech.

THE Tacoma News through its special representative, Mr. Henderson, gave the State Fair and incidently the whole Yakima valley, a very exhaustive and interesting write-up. A few errors were incorporated in the article, however, based presumably on false information, that ought to be corrected by that popular journal, as their publication is calculated to give the Sound people some erroneous and harmful ideas concerning this section. The most objectionable feature of the write-up is the reference that is made to the healthfulness or rather the unhealthfulness of this community. The assumption that typhoid fever is or has at any time been epidemic here is to say in the least not in accordance with the facts. Indeed, local physicians do not agree as to whether we have ever had a case of genuine typhoid fever here at all. If we have had it certainly has not been typhoid of malignant form as is witnessed by the small percentage of deaths resulting therefrom. There are doubtless a number of cases of malaria here every season, but never to such an extent that it could be regarded as epidemic. In fact only a small percentage of our people have ever been afflicted with it. At its worst anyway it is not a serious disease to combat if ordinary common sense is observed in its treatment. So far in fact from being a plague spot, as readers of the News might assume, the Yakima valley all things considered, is one of the most healthful localities in the state, so much so in fact that outsiders, particularly from Puget Sound, persist in coming here in search of health and what is more they generally find it as many of those benefited will readily testify.

BOTH shippers and farmers of this valley have suffered serious inconvenience and in some cases positive financial loss through the inability of the railway company to furnish sufficient cars in which to transport freight. There seems to be no reason to doubt the oft repeated statements of the railroad officials that they are doing everything in their power to relieve the conjection of traffic and it appears reasonable that they would try to do so. The plea made of a lack of cars to handle the business is hardly a justifiable one, however, as the same condition of things have existed in this section for the past three or four years, that is to say during the shipping season. Given the same conditions to meet, and the ordinary business man would certainly make provision to take care of his business after having had but one such experience. A goodly portion of the products of this valley are either of a perishable nature or are of such a class that their value depends largely on the ability of the owner to take advantage of the markets. This being the case the corporation can blame nobody for "kicking" for the very good reason that we have a righteous kick coming.

WM. J. BRYAN in his memorial address delivered at Lincoln, Neb., on the day of the McKinley obsequies paid the following simple but beautiful tribute to the memory of the distinguished dead: "I yield to none in my appreciation of the private character and public virtues of William McKinley; I rejoice that his career, so fully demonstrated the possibilities of American citizenship. The young men of the country can find inspiration and encouragement in the fact that he made his own way from obscurity to fame. Those who are nearing the boundary of life can find consolation and example in the superb manner in which he fought his final battle, his courage and fortitude in the closing hours recalling the bravery he displayed as a soldier. Domestic happiness has never been better illustrated than in his home life and Christian faith and trust never better exemplified than in the way he met death."

THE miserable cur Czolgosz utterly collapsed while being conveyed to Auburn prison to await his day for electrocution. The air of bravado and indifference that he had previously maintained, entirely forsook him at the sight of a crowd that he thought meant to lynch him. Ere a few weeks have passed the unhappy wretch will have paid the greatest penalty that he is able to pay for the vicious blow that he has dealt society.

FOR the second time that popular British sportsman Sir Thomas Lipton, has been forced to go home without the coveted cup. At any rate he preserves his reputation as a gentleman and a true blue sport, which is more than his predecessor did. It would seem as though it is now up to his serene highness, the Kaiser, to make the next attempt.

A NUMBER of aspirants for the republican presidential nomination three years hence, are said to be treading very softly in order to discover where they are at under the new order of things. In this class stands Senator Fairbanks of Indiana, who is said to be particularly desirous of finding out which way the wind is most likely to blow.

THE late President McKinley left at estate the valuation of which has been appraised at \$210,000. Of this \$140,000 was in personal property which includes life insurance policies aggregating \$67,000. The balance is represented by real estate situated in the state of Ohio.

AN apple crop that represents in value \$400 per acre on the trees, may read like a fish story to benighted easterners, but it is fact just the same and the proof of it can be found this season in a number of different orchards in this vicinity.

The live stock exhibitors at the State Fair were so highly pleased with the liberal management of Supt. A. J. Splawn of that department, that they

"chipped in" and bought for him a very handsome gold locket and chain which they presented to him with their compliments on Saturday, the last day of the Fair.

C. P. Wilcox and others who sent green prunes to the eastern market some four or five weeks ago, were considerably disappointed at the small returns received from Boston recently. Mr. Wilcox is now engaged in drying the major portion of his crop and thinks that he will be enabled to realize a fair price this season from the dried product.

Dr. B. L. Baker while returning to his home late Saturday evening encountered three suspicious characters who followed him to near his residence. He went across the street and secured a revolver, and in company with J. M. Murchie returned to the house. They found two of the men lying under the trees in the front yard, with the aid of the revolver, the doctor soon persuaded the men to vacate the premises.

The county commissioners met in regular session Monday and continued in session until Friday. W. L. Dimmick was absent on account of sickness in his family. A large number of petitions for new roads were received. The road petitioned for by E. N. Bickle, which was ordered viewed at the last session was ordered constructed; also the road petitioned for by J. R. Walther was ordered constructed. The usual amount of bills, appeals etc. were passed upon. The board adjourned Thursday until the 19th.

The State Fair commission are considering the proposition of asking the citizens to advance a sufficient sum of money for the purpose of purchasing the stock of cots and bedding brought from Tacoma and keep the same here with which to meet future emergencies. The plan discussed and which seems to meet with the most favor is to raise the money in the form of a loan which is to be returned after the Fair next year without interest. The stuff can be bought cheap and it is held to be useless to return it when the necessity for it is again sure to occur.

The two balloon ascensions of Thursday and Friday passed off most successfully, there being no hitch whatever in the two daring feats of the aerial voyager, all the conditions being perfect. The professor ascended to an altitude of about 1000 feet on both occasions. The Indians especially were the most interested spectators and stood around in open mouthed wonder. One big buck was heard to remark in "Chinook" to some of his companions that "the white man would get smart enough after while to find his way to heaven in a balloon."

Congregational Association.

The thirteenth annual meeting of the Congregational State Association of Washington, convened at the Congregational church of this city October 8, 9 and 10. About seventy-five ministers were present, among them some of the ablest pulpit orators of the state. Besides the regular business of the session, several splendid addresses were given. Of special interest to Yakima people was the address of Rev. R. B. Hassell formerly of this city, but now of Everett. Miss Minor, a missionary from China, who was with the besieged missionaries, at the British Legation in Peking, gave a very interesting account of her experiences with the boxers.

Among the subjects discussed were:

"The Church as an Integral Part of Community Life"—By Rev. George R. Wallace, of Spokane. The Annual Sermon—By Rev. J. T. Nichols, of Seattle. "Polity and Mission of the Congregational Church"—By Rev. H. C. Mason, of Pullman. "Our Responsibilities and Today's Problems"—By Rev. W. H. G. Temple, of Seattle.

The field secretary of the church, Rev. Shelton, of New York, was present. Colfax was chosen for the next session in 1902.

The Claimant Wins.

As was announced briefly in these columns last week, the register and receiver of the local land office have rendered a decision favorable to Mrs. Virginia Bartholet for the ownership of a one half section of land in the Sunnyside, which that lady made final proof on under the "desert act." A rehearing was ordered in this case by the general land commissioner on the recommendation of a special agent a few months ago, on the ground that evidence could be adduced to show that the law had not been complied with.

In the decision rendered by the local officers, it is held that no such showing was made in the rehearing or rather that the claimant had used reasonable diligence to comply with the law, the main provision of which, of course, is to reclaim the land, which in this case has been done, the most of the land in controversy being now in a high state of cultivation. The opinion further states that the effect of an adverse ruling to the claimant would likely be to invite a vast amount of litigation for the ownership of land in that locality where the conditions are much the same. Such a policy, the local officers say, would tend to hinder the carrying out of the government's object which is to have the land reclaimed and cultivated. The opinion has now gone to the commissioner. It is believed that it will be approved, thus finally settling the matter.

To the Ladies.

The undersigned has in contemplation the securing of the services of an experienced tailor from Seattle for the purpose of making for those who desire, fashionable made to order ladies' tailor suits and jackets. Those interested should call at once as we will have the services of this tailor for a month or six weeks only.

Fruit For Buffalo Exposition.

H. D. Merritt of Spokane, of the Pan-American commission, bobbed up serenely during Fair week. Mr. Merritt was after the Yakima county quota of fruit to be sent to Buffalo, to be given away for advertising purposes, and he got what he came after, as he is in the habit of doing. He secured and with the assistance of Orlando Beck, soon had packed and on its way to Spokane, the most of the fine fruit exhibited at the State Fair. In addition he secured the hearty co-operation of W. N. Granger who immediately put a number of men to work buying, collecting and packing fruit near Zillah, for the same purpose. A carload was to have been made up at Spokane, from which point the N. P. Ry. Co. agreed to transfer it free to its destination. The fruit from this county was all wrapped in paper that recited in glowing terms the resources of this county. A portion of the wrappers were turned out from this office.

Deafness Cannot be Cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Sound visitors at the Fair whose excursion tickets were good until Sunday morning and who waited, were shocked to find that the already loaded train was unable to provide accommodations for all. The train pulled out loaded to the guards. A few determined to wait for the next train and take their chances on their tickets being accepted.

The local postoffice has received notice from the department that the free delivery system for North Yakima will begin February 1st. The carriers to be appointed will be under the civil service. Applicants for positions are requested to file their applications with F. L. Chandler, who will act as secretary of the commission, not later than Nov. 12. The examination will take place Nov. 23. The age limitations are 18 to 45.

Among the attractive exhibits in the main pavillion at the State Fair was the display of pen work of The Blair Business college of Spokane. Prof. H. C. Blair, the principal of the school, was in charge of the exhibit in person. This school had an enrollment of over five hundred during the past year and has the reputation of being among the best business training schools of the northwest.

The Model bakery on Yakima avenue was entered by thieves Saturday evening. Mr. Jackson, the commission man, who was passing by seeing someone moving about and thinking it was an employee of the house, entered to get a box of bananas which he had left there. The thief kept up the deception until Mr. Jackson had left, and then fled with a small amount of tobacco, which he had already secured. Entrance was effected by springing the lock on the front door.

F. C. Brown, W. D. Jackson and Barney Sperling from Seattle, Spokane and Tacoma respectively, who were appointed by the governor a few months ago as state barber examiners under the new law, were here on Monday. A meeting was held in Clemmer's tonsorial parlor where two candidates Archie Jones and H. A. Morrison were examined and passed to the degree of journeyman barbers. Another applicant failed to pass and was continued on for three months longer as an apprentice.

The other night three masked men held up W. B. Williams and W. W. Robertson at the corner of Second and C streets, at North Yakima, and rifled their pockets. Watches and chains were taken from both. Williams lost \$43 in money and Robertson \$7. Mr. R. is the publisher of the North Yakima Republic, and it seems strange that a newspaper man should have that much money on his person all at one time.—Olympia Standard.

L. C. Van Patten, of Ritzville, spent the greater part of the week in looking over the Horse Heaven wheat country, and as a result of a very thorough investigation, he in company with several other parties has purchased 8 sections of land about 12 miles east of Prosser in the Horse Heaven wheat belt. Mr. Van Patten has great confidence in the future of this country, and will begin improvements on his land another spring. He says they will put in a well among the first improvements they make.—Prosser Record.

NORTH YAKIMA.....OCTOBER 12, 1901

America's Foremost Comedian.

When the history of the last century's stage is written, the name of Stuart Robson, who comes to Larson's theatre Saturday night will find frequent place. It is to Mr. Robson that the American theatre is indebted for many fine productions of the utmost importance. It was his distinctive and peculiar qualities which assured the great success of Shakespeare's "Comedy of Errors", Goldsmith's "She Stoops to Conquer", and Howard's American classic, "The Henrietta." His "Dromio" and his "Tony Lumpkin," are never to be forgotten impersonations, but his "Bertie, the Lamb" is a characterization that remains unchallenged as the best comedy creation of the day. For forty years Mr. Robson's career upon the stage has been one given to the most honorable ideals. He has always presented his productions with the best of taste, care and settings, and has enlisted the best

of histrionic associates in his support. It will be a pleasure to theatre-goers to welcome this distinguished player and his company in his elaborate new revival of "The Henrietta," in which he will appear in the much beloved character of "Bertie, the Lamb."

Stuart Robson can well call his company presenting "The Henrietta," the most important stellar organization in this country as it altogether contains five stars. When Mr. Robson determined to give a revival of "The Henrietta" he decided to present the play with the greatest cast it ever had and he has evidently succeeded. Of course, leading in the stellar honors of the company is Mr. Robson, then follows Maclyn Arbuckle, Russ Whytal, Dorothy Rossmore and Estelle Carter. Mr. Arbuckle was until this year a star under the direction of Joseph Brooks, manager of "Ben Hur" in "The Sprightly Romance of Marsac", and next season again stars in "A Gentleman From Texas", written purposely for him by Augustus Thomas. Russ Whytal, the eminent author-actor, has been touring the country in his own plays of "For Fair Virginia" and "Dorothy Deane." Dorothy Rossmore, who had been leading woman for Fanny Davenport for many seasons starred in Shakespearean and Sardou repertoire and Estelle Carter played Maxine Elliott's part in "When We Were Twenty-one," in which she starred last year. Each of these gave up stellar honors for the honor of appearing in Mr. Robson's company. Every member of the balance of the company is well known to theatre-goers.

Why Not Spray?

The following excerpt from the Walla Walla Union shows the condition of the fruit industry in that section. Conditions are not so bad in the Yakima valley but they are bad enough to warrant our fruit farmers in taking more pains than most of them do to stamp out the pests. The Union editorially says:

"Why don't you spray? You complain about worms in your apples and the shippers say they are not worth sending out of the country. Ask what the remedy is and they say it all the people would spray their trees this condition would not exist. Why don't they do it? Do they want poor fruit? Verily it would seem so.

"Naturally, the Walla Walla valley is one of the best fruit growing sections on earth. There was a time when its apples and its pears were known and searched for all over the country. When one said his table fruit came from Walla Walla that settled it—every one wanted to eat it, for it was known to be good. Today the apples and the pears are simply homes for bugs. Large families take up their residence in each apple and each pear and raise other large families. If this condition remains it will be but a short time until Walla Walla fruit will be blackballed in every market in the country.

"All fruitmen agree that spraying is the only remedy for this terrible worm pest. Then why not spray? There are laws in the county which say certain forms shall be gone through. Are those laws enforced? Why is there a county fruit inspector if he does not see that they are? Why do not the fruitmen and the shippers get together and demand that this thing shall be done?

"There is a remedy and it should be applied."

WASHINGTON LETTER.

(From Our Regular Correspondent.)

WASHINGTON, Oct. 2, 1901.

From chance remarks dropped in hotel lobbies and government corridors, it may be easily surmised that republican leaders, that is the republican party workers, are very much of the impression that they have in the White House an entirely unknown, not to say erratic, quantity. When Roosevelt was civil service commissioner he was enthusiastic for civil service reform, insisting that merit was the only qualification for governmental employment and, at times, seriously irritating those politicians who considered that party fealty should receive its reward in patronage.

When Mr. Roosevelt became governor of the state of New York, he found himself so seriously obligated to the politicians that it was impossible to disregard their advice and their claims. Nevertheless in his attitude towards the great corporations, in his efforts to effect state civil service reform and his defeating the scheme for making the New York police force the tool of the republican politicians, he so antagonized "the machine" that Senator Platt exerted his utmost effort to "lay him on the shelf" by shoving him into that political graveyard, the vice-presidency.

As a result of all this Mr. Roosevelt has assumed command untrammelled by any promise or debt to any individual or faction and, while he has proved unurbanity itself to those politicians who have had occasion to call upon him, no one can in the least fortell how he is going to handle the practical side of republican politics and every faction is on the anxious seat.

It certainly looks as if the steel trust ought to add a little more water to its stock. The spectacle of this gigantic "infant industry" showing a profit of nearly \$55,000,000 on the six months' business just ended and that notwithstanding it was during those six months the great strike occurred, is not one that is likely to prove of benefit to the republican party. After the all too realistic pictures we have seen of the suffering among laboring men caused by the

strike and the comfortless, cheerless and crowded condition of the laborer's homes even before the strike, we cannot help asking where is the benefit to the American laboring man which this government fed "infant" is supposed to work? This is a question the republican party will probably have to answer in the next campaign.

There promises to be a lively contest over the governorship of Hawaii in the near future and the people may have an opportunity of judging how eminently American in spirit is republican administration of governmental affairs in "the colonies." The presence of Secretary Henry E. Cooper of the Hawaiian territory, in Washington is still a subject of speculation. He has not yet seen the president, his only conferences having been with Secretary Hitchcock but there seems to be little doubt that the real object of his visit is to present to Mr. Roosevelt a defence of Governor Dole as opposed to the representations of Judge Humphreys, et al. Judge Humphreys, before he left Washington declared himself unconditionally in favor of the candidacy of Harold M. Sewall.

When it was first heralded abroad the proposition of Jno. W. Mackay and others to lay a cable to Hawaii and the Philippines without asking of the government a cent of bounty seemed most worthy of acceptance and certainly preferable to the proposition submitted to the last congress that a large share of the expense of laying a cable, which was to become the property of private individuals, should be borne by the government.

At first the only objection to the Mackay proposition seemed to be the purely legal question as to whether the concession granted by the Spanish government would obligate the administration to refuse a landing to all other companies. It now transpires, however, that portions of the wording of the proposition are so obscure as to lead to the suspicion that an acceptance of the proposition would involve permission to land cables on Cuba and Porto Rico. After being discussed at the cabinet meeting yesterday the whole matter was referred to Atty. Gen'l Knox for elucidation.

The Schley Court of Inquiry proceeds steadily and with no particularly sensational features. For the third time death has effected the court, the last time necessitating the temporary absence of Judge Advocate Lemley who was called away to attend the funeral of his sister in North Carolina.

So far nothing has been brought out which reflects seriously on Admiral Schley although a series of coincidences seem to have operated to prevent his receiving information and instructions which the navy department attempted to communicate to him.

While it is hard to locate any particular blame for the failure to deliver the important dispatch announcing Admiral Cervera's presence in Santiago harbor and instructing Admiral Schley to go there, the experience should prove a warning to the navy department in the future. The imperative necessity of constant ability to establish communication between the commander-in-chief and his subordinate officers is one of which no successful campaigner ever loses sight.

STATE PRESS OPINION

It is said that President Roosevelt is very much in favor of making large appropriations for the reclamation of desert lands, which if true will tend to make him popular with the western members of both houses.—Prosser Record.

§ § §

The trusts threatened to precipitate a panic if Bryan was elected. They will make the same threat if any attempt is made to lower the price of manufactured articles by revising the tariff schedule.—Walla Walla Argus.

§ § §

Mr. J. Pierpont Morgan is a lay delegate to the Episcopal convention in San Francisco. This reminds us that Mr. Morgan would be a good man to organize the proposed "gospel trust", which is to put the churches of the United States on a business basis.—Seattle P. I.

§ § §

The thoroughly democratic disposition of President Roosevelt, if continued during his term of office will endear him to the American people. One reason for the utter hatred of Grover Cleveland was his autocratic manner. The American people are still American and naturally are democratic. They will never endorse anything else.—Goldendale Journal.

§ § §

The republican members of the Pan-American Exposition from this state have all resigned their positions leaving only the democratic members to make known our wonderful resources at the world's big show. The members who severed their connection are L. B. Andrews, W. L. Thompson and N. Rudebach, and they give as a reason, it is said, that they are averse to creating a deficit, another way of stating the unpleasant fact that they have squeezed the orange dry.—Olympia Standard.

The Population of Babylon.

Various attempts have been made, by comparing its area with that of modern cities, to estimate the population of Babylon. But on the lowest calculation it would be found, supposing it to have borne any considerable resemblance to one of our cities, to have had a population of 5,000,000, a supposition to which all but insuperable obstacles are opposed. The map of Asiatic Turkey shows that the extent of country around Babylon available for agricultural purposes must have been quite inadequate to supply the necessary demands for anything like such an immense population.

Perhaps, on the whole, we may estimate the population at from 1,000,000 to 1,200,000. This supposition derives support from the fact that Seleucia, with a population of 600,000 souls, is stated by Strabo and Pliny to have been about half the size of Babylon in the days of her greatest glory.

Head-End Collision.

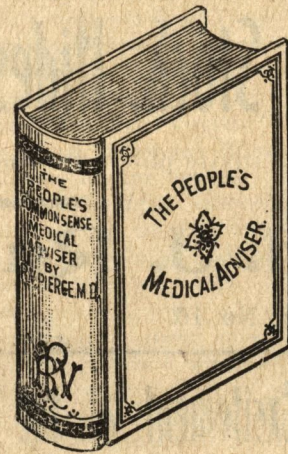

Two engines were badly damaged and several freight cars destroyed in a collision which occurred Tuesday morning near Selah station. A brakeman named Morrison, was severely bruised by jumping. One engine was thrown from the track, making it necessary to bring the wrecking train from Spokane. Traffic was delayed about eighteen hours in consequence. The accident was due to a misunderstanding of orders by some of the trainmen.

SAFE.

The little child is safe from ordinary dangers in the care of the faithful dog. But neither the dog's fidelity, nor the mother's love can guard a child from those invisible foes that lurk in the air, water and food—the germs of disease. Children need to be specially watched and cared for. When there is loss of appetite, lassitude and listlessness in a child, an attempt should be made to revive the appetite and rally the spirits. In this attempt it is to be borne in mind that the first step to health is to put the stomach and organs of digestion and nutrition into perfect working order. The child's physical life is supported by food, but the benefit received from the food depends entirely on the ability to digest and assimilate the nutrition the food contains. That is why a child may eat heartily and yet be frail and "scrawny." It is not getting the nutrition out of the food it eats. In view of these facts the folly of feeding a child nauseous oils or the modified nastiness of their emulsions is apparent. These also are foods. They claim to be foods easily assimilated. But what is needed is not to bring the food down to the level of the weak stomach, but bring the stomach up to the level of strong, nutritious food.

The value of Dr. Pierce's Golden Medical Discovery lies in the fact that it strengthens the weak stomach and heals diseases of the other organs of digestion and nutrition. Its purely vegetable character and absolute freedom from alcohol and narcotics commend it to every thoughtful person. It is pleasant to the taste, unlike the foul oils and their emulsions offered for children's use. "Golden Medical Discovery" makes pure blood and sound flesh, and absolutely eliminates from the system the poisons which feed disease.

Mrs. Ella Gardner, of Waterview, Middlesex Co., Va., whose daughter suffered from malarial poisoning and catarrh, writes: "My little daughter is enjoying splendid health. I am glad I found a doctor who could cure my child. She took twelve bottles of 'Golden Medical Discovery,' eight bottles of 'Pellets,' and one bottle of Dr. Sage's Catarrh Remedy, and she is well. We thank God for your medicines."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay cost of mailing ONLY. Send 21 one-cent stamps for paper, or 31 stamps for cloth binding, to Dr. R. V. Pierce, Buffalo, N. Y.

W. W. Felton's House Robbed.

The climax of the carnival of crime that has been going on during Fair week, was reached last Friday night, when W. W. Felton's house was entered by burglars and completely ransacked. The burglars entered through the front door, passed through a bathroom to the dining room and there secured a purse containing about \$3, the property of Mrs. Felton, which she had left lying under her hat the night before. They then entered the bedroom occupied by Mr. and Mrs. Felton, but failed to secure about \$100 belonging to different members of the family, which was kept in the room. They then went upstairs to the bedroom of B. M. Donnelly, of Sedro-Wooley, who was rooming there during the Fair. They took \$18.50 from Mr. Donnelly's purse but left a draft for \$175.

The room of C. H. Nye, also of Sedro-Wooley, was entered and his purse containing about \$90 in cash and a draft for \$1087 was taken. Another lodger's clothes were searched and a card case containing \$25 in bills was thrown upon the floor. Several good watches were left also. Mr. Nye immediately stopped payment on the draft which he had lost. Among the coins taken was a \$2.50 gold piece belonging to Mr. Donnelly. The men were evidently professionals and carried a complete outfit of tools. They closed all doors behind them and passed out through the rear door, leaving no clew.

CITY COUNCIL PROCEEDINGS.

A Big Grist of Business Put Through the Municipal Mill.

The city council met in regular session Monday evening with the mayor and all members present.

E. W. Dooley presented a petition asking for renewal of saloon license in the Hotel Yakima, which was granted.

Blanchard Fuerbaugh presented a claim of \$250 against the city, for lowering the street grade so that he could not run water from the street ditch to his property. Moved and carried that the claim be disallowed.

An ordinance prohibiting the tying or fastening of horses on Yakima avenue between Natchez and Front street, was introduced by Weed.

An ordinance to macadamize Front street from B to Chestnut was passed.

An ordinance to macadamize First street from A. to Chestnut was also passed.

The committee on streets and ditches reported favorably on the macadamizing of Yakima avenue.

It was then resolved by the council that the work be accepted that the adjoining property be assessed, and warrants issued to the amount of \$10,600 to to pay for the work.

Bids were opened for the changing of Schanno ditch. There were four bids opened ranging from \$150 by McKivor to \$325 by Aumiller and Hinds. McKivor was awarded the contract.

Bids were opened for the macadamizing of First and Front streets. Wm. McKivor's bid on First street was \$3680; E. C. Burlingame's \$3650. On Front street McKivor, \$6250; Burlingame, \$6125. On motion of Weed, and after considerable discussion the bids were rejected, and the clerk instructed to re-advertise for new bids.

It was moved by Weed that the subject of providing better fire protection be made a special order of business at the next session of council, carried.

The mayor was requested by the council to confer with the Water & Light Co. as to the necessity of shutting off the light from the entire city during a fire.

It was moved that the expenses incurred by reception committee be borne

by the city. The motion was lost, but the mayor suggested that an itemized bill of expenses be laid before the council at its next meeting, which was accordingly ordered.

Hall called attention to the fact that the ordinance regarding "the throwing of waste paper and other garbage in the streets and alleys" was being violated. The clerk was instructed to publish and post notices of the ordinance, and the penalty for its violation.

Dr. Frank asked for an assistant for ten days in inspecting and improving the sanitary condition of the city.

The city marshal reported as follows for the month of September:

Twenty-eight prostitutes arrested and fined to the amount of \$145.

Fines collected from nickel-in-the-slot machines and other gambling devices, \$205.

Fines for violation of city ordinances other than mentioned, \$171.50.

Fines collected from Quaker doctors, \$30. Total amount collected, \$614.50.

Fifteen men were arrested and turned over to the United States marshal for selling liquor to Indians.

\$38.50 was realized from impounded horses sold at auction.

One runaway horse which had broken its leg was shot.

Two hundred arrests were made during fair week: Fifteen pickpockets, confidence men etc were arrested.

Thirty-one cases were tried in police court.

City Engineer Marble reported that the Power & Light Co. refused to allow him the use of the water for flushing the sewers, but that the company itself had done a part of the work. He also recommended that the damaged sewer pipes be taken up and relaid in the same place. On motion he was ordered to do this with a portion of the pipes on Natchez avenue.

The sexton reported six burials for the month and receipts \$13.

Two stables, the property of Phil Ditter and Jeff McDaniels, were burned about nine o'clock Monday night. Mr. Ditter's barn was filled with hay, and burned fiercely. Only the prompt and efficient work of the firemen saved Mr. Ditter's fine house and other near residences. Mr. Ditter's loss is about \$500 fully covered by insurance. Mr. McDaniel's loss is \$250 with no insurance. The origin of the fire is unknown. The smoldering ruins blazed up at 6 o'clock Tuesday morning, and a second alarm was turned in, to which the fire department responded promptly.

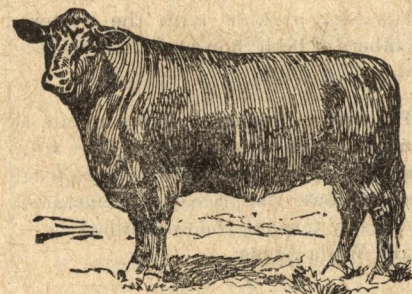

The Commoner.

(Mr. Bryan's Paper.)

The Commoner has attained, within six months from date of the first issue, a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of the Commoner Mr. Bryan contributes his best efforts; and his review of political events as they arise from time to time cannot fail to interest those who study public questions. The Commoner's regular subscription price is \$1.00 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and the DEMOCRAT together for one year for \$1.75. The regular subscription price of the two papers when subscribed for separately is \$2.00.

ADDITIONAL LOCAL.

United States civil service examinations will be held at the court house November 23rd, for mail carrier service in this city.

E. F. Benson states that he either lost or mislaid during Fair week in this city, an oaken box, which in size is about six inches square. He would be thankful for its return or any information that would enable him to recover it.

Commissioners court is being held this week. Commissioner Dimmick, of Kiona, has been unable to attend owing to the fact of illness in his family. The most of the business wrestled with has been in relation to county roads.

A number of well known citizens of Seattle and Tacoma who were here last week, exhibited much interest in the new pavement on Yakima avenue. They seemed highly pleased with it and voted it the best made street in the state. A great many questions were asked and answered relative to the thickness of the macadam, cost and etc.

The "Quaker" doctors, Sunday morning silently folded their tent and departed for other fields. Before going they liquidated the fines levied against them for violation of the show ordinance. They appeared to be in a happier frame of mind when leaving then formerly, due doubtless to the fact that they found Yakima a rich field.

The order made by Judge Hanford at the Walla Walla term of the U. S. district court last November, ordering all federal prisoners held for trial, committed temporarily to the North Yakima city jail and finally to the jail of the county in which the cases should be tried, was so qualified by the judge last week as to make all such commitments to the county jail of Yakima county.

The residence of S. Sadlier, situated in the rear of his blacksmith shop near the Fashion stables, was burned Friday night about 8 o'clock. A strong wind was blowing and the building and contents were completely destroyed before the fire department reached the scene. Mr. Sadlier, who was in bed asleep was quite seriously burned before he could escape. Mr. Sadlier estimates his loss at \$750, with insurance of \$100 on the building. The origin of the fire is supposed to be incendiary.

Burglars attempted to gain entrance to the home of P. A. Bounds about nine o'clock Monday evening, by cutting out a portion of the large plate glass window in the front of the house. The burglars evidently thought that the members of the family were all absent for they were very noisy in their operations. Mrs. Bounds and her brother, John Davern, were in the house at the time, and hearing the crash of the glass Mr. Davern seized a pistol and rushed out, but the men escaped in the darkness. Davern did not get near enough to identify the rascals.

Have you consulted Prof. Harriden yet? He is still giving those wonderful life readings at reduced prices. Most of his callers say he tells their life better than they know it themselves. If you are skeptical ask your neighbor about his reading. The professor has a large class in palmistry, clairvoyance and hypnotism at present and if you intend to take it up you should do so at once, so you will have plenty of time in which to be developed. Remember you can get the full course in palmistry, clairvoyance, hypnotism and astrology for the small sum of \$100.00, this week only. Why not take up this grand profession? Some of my pupils are earning as high as \$700.00 a week. You get a guarantee with your course that if you do not earn \$50.00 a day right from the start you pay nothing for the development, provided, of course, you advertise as you are told to. Office hours 10 a. m. to 8 p. m. Sunday 1 to 7 p. m. Office located in the Weed block, 113½ Yakima avenue.

W. M. Ayres received word last Saturday that his former business partner, G. W. Quiett had died that day at Los Angeles, from lingering consumption. The funeral occurred Thursday of this week at Tacoma, in which place Mr. Quiett had made his home. The deceased left here in January last for Arizona in the hope that the warm climate of that section would restore his waning health. Mr. Quiett was a man possessed of many lovable traits, which made him many friends. He leaves a wife and three children.

A. Van Holderbeke of Tacoma, state fruit inspector was here during the early part of the week and in company with County Inspector Beck visited a number of orchards adjacent to town. Mr. Van Holderbeke who was appointed last spring as the successor of J. E. Baker, appears to be a man well qualified to fill his arduous position. He informed the DEMOCRAT that he would come here early next spring to remain for several days in order to give our fruit farmers some object lessons regarding the pruning and spraying of trees.

Wild Zebras.

The zebra when wild is a ferocious animal, and an unwary hunter is likely to suffer from its teeth and hoofs. The author of "Kloof and Karroo" says that a Boer in Cape Colony had once forced a zebra to the brink of a precipice, when the desperate creature turned upon him, attacked him with its teeth and actually tore one of his feet from the leg.

Another author writes of a soldier who mounted a half domesticated zebra. The creature, after making the most furious attempts to get rid of its rider, plunged over a steep bank into the river and threw the soldier as it emerged.

While the man lay half stunned upon the ground the zebra quietly walked up to him and bit off one of his ears.

The Penalty of Being Idle.

Idleness is at the bottom of the drunkenness, gluttony and sensuality which compass the destruction of one section of the community at the present time. Such women often look forward to marriage to cure them, but when they are married and settled the old malady recurs, and in our own day we see them running hither and thither after that elusive something. Others try to find a cure in the suffrage and others again in cigarettes.—Sarah Grand.
