

United States Indian Service,
Yakima Indian Agency.
January 3rd, 1881.

Hon. Carl Schurz,
Secretary of the Interior,
Washington, D. C.

Sir:

I have the honor to report a continuance of the examination here. How much longer it may be of use to continue it cannot now be definitely stated.

The falsity of August Wilbur's accounts is clearly demonstrable: to what extent and with what intent are questions that are now being inquired into, but they can never be fully and definitely answered, as there is

only data since in 1849, sufficient
to base a guess upon.

Very respectfully,
Your obedient servant,
(signed) Wm J. Pollock.
Inspector.

Pollack's Report
