Returned

Mr. Norman Clark,
Everett Junior College,
Everett, Washington.

Dear Sir:

Under separate mail I am sending some 58 clippings, most of them from the Yakima Republic, dealing with the prohibition movement in this state. Also included are clippings pertaining to the anti-cigarette law.

When I dropped you a note last spring I was sailing blithly along, and shortly afterwards was grounded for a time by an acute coronary. I have not yet caught up with little things like this I like to offer in the hope they may be of some small assistance.

I have had no opportunity to search my typescript files for material of older vintage. And I was unable to find in my basement several ~~skaka~~ little books, published in this state concerning the movement. One I recall was published at Seattle, was black and called "Censor Echoes."

I wish you luck on your dissertation and hope you may scan the clippings pertaining to liquor on the Yakima Indian Reservation, intermixed, first, as I may be using them in a couple of weeks. As I come across other material I will forward it.

My sincere regrets that I was not able to forward this material at an earlier date.

Sincerely
