Dear Click

I finally have finished the work I was trying to get done all summer, and am at leisure to write. Thank you very much for the clippings you sent me about the Yakimas, and the clippings you sent all of us about the dig. I have just sent them on their way to the members of the party.

In about ten days I shall be driving through Yakima, headed for Portland. Do not know if I will stop in town, but will probably go out to Simcoe to see how things are. From Portland I will go to Seattle to do research for next summer, + see the man at Fort Lewis, etc. I will see Doug. and Al Culverwell about next summer's dig, and start school at the U. in winter quarter.

On the other hand, I might stop by for just a moment in Yakima to say hello. If any thing of great interest has turned up, I could return it on my way back.

Sincerely Yours, Edward
