

Jan. 20, 1958

Dear Frank:

I have been doing lots of more work and have been too busy to drive down to White Swan again. I've been expecting to see you one of these days, but I know you have all been busy at the funeral of your relative.

I hope that you will be coming to Yakima one of these days this week, and that the old man will be coming with you. I will be wanting to see both of you and have some good things to tell you.

The bicycle is still here, the only one I could get for you at Christmas, so I think, too, you will be wanting to pick that up and get it ready, if it can be used, by Sluggo. If not, someone else there at the house you are living could use it. It is a girl's bicycle and a little large.

Find out where Harry Winn lives and tell him I will be wanting to see him too.

Tell Jim "Easletail" to get going on the jacket. I may be needing that sooner than I thought, within another month perhaps. The weather has been good for that sort of thing, making a jacket and getting the skins ready.

Within another two weeks I will be real busy, what with attending the Yakima hearings and helping them out, later, some speeches I have to make, committee meetings I have to attend, and trips I have to make to get some very important things done.

I will, as usual, take care of the gasoline if you have to get someone else to bring you in. You can come to the house if you come in after 3 or 3:30 o'clock. If you come to the office it will be best to come after 1 o'clock and before 2:30 o'clock when I won't be too busy with my own work.

Rex dropped by the other day for a couple of minutes.

See you and the old man later.

Now Tow Look
