

SHADOWS OF COMING EVENTS!

I. PROPHETIC: National tensions become unendurable. An early break is inevitable. Evil is in process of destroying itself. Analysis of coming events verges on prophecy. Hundreds of modern prophets, professional and amateur, ring the dirges of a departing era of corruption. We have an equal right to do so. To the astute observer predictions can be made within limits. Fortunately, coming events not only cast their shadows of disaster before them but also spread their rainbows of hope across the sky. This will be no April shower, but Hurricane Zenobia and we are not yet so certain of weathering the storm that we cannot postpone discussions of rainbows until a later issue.

II. SHADOWS: It has been said that where there is no vision the people perish. Vision would include a regard for experiences of past history, intelligent interpretation of current events, and sound predictions of future events based upon knowledge of basic causes which impose definite effects.

Past history reveals few situations of potential disaster equal to our present "mess". The floods which wiped out the world of Noah's day; the slow "fall" of the Roman Empire consummated over several centuries; the sudden burial of the Italian city of Pompeii under the lava of erupting Mt. Vesuvius; the French Revolution with its "Reign of Terror"; could not surpass what we may expect. Our crisis involves economic dislocations far more severe than those of medieval France, and from that point spreads throughout our entire society from focal points of infection as full of disease as the "corks" of a carbuncle. The very thought of the "Reign of Terror" which may strike at any moment chills the blood. Read Reveille #s 10 and 11 for summaries.

a. Economic: National bankruptcy to a staggering total of one thousand billion dollars; 175 million people mortgaged to perpetual servitude under our debt economy; the economy motivated by usury - greed for the "fast buck" - surviving only through wars and preparations for wars; destitution and starvation living side by side with fantastic riches such as the world has never before known.

b. Political: Public servants turned outlaw to the Constitution and to the people to become the puppets of international financial monopolists, betraying the "general welfare" into the hands of private criminals. Such an orgy of public corruption as would be difficult to duplicate in all time - in Babylon, Sodom and Gomorrah, ancient Rome, Czarist Russia, the China of Chiang Kai Chek.

c. Jesuit-Vatican subversion: Co-conspirators with the Wall Street international financial gangsters, who infiltrate their agents of subversion in priestly garbs into our free institutions, and who conceal behind the dark cloak of their "religion" the sharp sword of the matador, prepared to strike the death blow to our liberties to establish a dictatorship of a revived "unHoly Roman Empire. (Read: "Catholic Words and Actions" by Raywood Frazier, P.O. Box 75673, Sanford Station, Los Angeles 5, Calif.)

d. The Press: (public communications) Betrayers of "Freedom of the Press". LIARS!

e. Education: Part of the system of national "brain wash", not with soap and water, but with the acid of falsification and hatred. Teach "hog wash" to our children because they dare not teach truth.

f. Religion: Turned from the worship of God to the worship of Mammon - the "fast buck". Priests and ministers become brainwashed instruments to brainwash their congregations, preaching world hatreds. A phoney, decadent "Christianity" which hasn't the guts to live by the great laws of life taught in the Sermon on the Mount, and has turned inside-out the great truths taught by its Master.

g. Health: A medical "racket" dominated by the criminal American Medical Association and the drug trust - medical "quacks" who grow rich by systematically destroying the health of the nation. (Read! "A Doctor is Born" by W. D. Chesney, M.D., 244 1/2 E. Broadway, Excelsior Springs, Mo.)

h. Integrity: Gone with the wind! Delinquent parents unto the fourth generation creating new generations of delinquent children. Children with whiskey and nicotine in their blood stream from the moment of conception. Delinquent churches, delinquent politicians, delinquent press, delinquent professors, delinquent "business". Phoney money, phoney religion, phoney TV programs; phoney medicine, phoney doctors, phoney standards of living. Cheat, lie, steal, murder, as long as it brings the "fast buck". The epic "Decline of the West" by Spengler.

III. KARMIC DEBTS: To pile trouble on trouble, not only do we face the current floods of economic and social disaster, but we are also bound to a heavy burden of past karmic debt of our corrupt society:

a. Looting of the North American Indians: A shocking record of centuries of murder, thievery, swindle, exploitation, degradation such as we might observe in motion picture "horror films" of monsters

from outer space. The record accelerates from day to day. Kidnapping of Ute children through the machinations of the "breed" puppet, Rex Curry, of Fort Duchesne, and stealing land, oil, grazing, timber and other resources of the Utes--- Swindles of Navajo oil and uranium and water resources worth billions through criminal conspiracy of the renegade Navajo, Paul Jones, Chairman of the Navajo Tribal Council, with Dwight D. Eisenhower, while Navajo women and children perish of disease and malnutrition in primitive hogans on the desert--- Theft of oil, grazing, hunting and fishing and other Indian rights from reservation to reservation, to destroy the economic life of the Indians as the noble White Man once destroyed the buffalo, food supply of the Indians, as a "sport" --- destroying Indian rights to their "home lands" and "integrating" them on the level of the Mexican "wet backs" to become outcasts in their own lands. Where General Custer and the cavalry left off, a shyster President, shyster politicians, shyster lawyers, shyster district attorneys, shyster courts, have taken over to crush out the last spark of Indian independence to destroy them. Woe unto the White Man who participates in these crimes against the Indians who are under the protection of the Great Spirit! They will be punished through White Man's courts, and not through placing the burden of retribution upon the Indians who would merely become the victims of greater atrocities. (Read the series of four articles appearing in The New Yorker, "Apologies To The Iroquois", by Edmund Wilson, which commenced in the October 17th issue.)

b. Against the Negro Here we find another long record of degradation and violence against an entire race. The emancipation of the negroes by Abraham Lincoln merely changed their masters from planters reasonably concerned over them as an investment needing protection, to new economic masters who are totally unconcerned over their well-being and think merely in terms of cheap labor. Negroes remain cattle, surrounded by a hostile White population, and association with them (except on a master-servant level), means "mongrelization". Be it noted, however, that illegitimate "mongrelization" is regarded as socially acceptable provided the White Man does the raping. "Christianity" as practiced against the negro has no faith in the ability of Infinite Intelligence to solve the problem of the races, and is callously unconcerned over the teaching: "Even as ye did it unto the least of these, my brethren, ye did it also unto me"

IV. HOUR OF RETRIBUTION: We should not be too surprised by this sweeping indictment of a corrupt society. Historically, when a civilization begins to fall apart it becomes difficult to separate any area of public activity from the process of degeneration. We have lived by the sword, and by the karmic law of cause and effect, we can expect to perish by the sword. By this law, as exact as the Mosaic Law of "an eye for an eye, and a tooth for a tooth", the "sinner" by his own acts becomes his own accuser, his own judge to impose sentence, and his own executioner. "The wages of 'sin' is death", and many a man who has waged war against his fellow-man in the cynical belief that he is above the law, has placed himself upon his own "purge list" and is - if he but knew it - already occupying his own death cell.

V. BOLTS OF LIGHTNING IN THE COMING STORM: A. KHRUSHCHEV STRATEGY: Premier Khrushchev has given us due warning of his next move. He has insisted - and rightly so - upon total disarmament as the only alternative to world suicide, and upon termination of the war of nerves (the illegitimate "baby" of the Jesuits). But he has also stated clearly that "socialism" will bury capitalism. God knows the putrid institution of usury and exploitation is now in process of destroying itself by its own wickedness, and deserves to be buried. But how does Mr. Khrushchev propose to accelerate the process?

It is reasonable to expect that he has his strategies clearly developed; that he has obtained agreement from China and other communist countries to back these strategies; and that they will be of such a nature as to induce Britain and France eventually, and certainly Cuba and other Latin American countries, and nations of the Middle East, Africa, and Asia to accept them. My expectation would be the formation of a gigantic international economic pool, within which trade would be arranged through barter, without profit. Our profit system could not survive such competition. A similar move by Hitler relative to Latin America was one of the causes of World War II. This strategy may be coupled with a drive to devalue the dollar, (already as worthless as counterfeit money, as every foreign nation knows), facilitated through the use of the considerable Soviet gold reserves, supplemented by "foreign aid" gold reserves of the United States transferred "for free" to foreign nations as bribes, in amounts sufficient to empty Fort Knox. This contingency already has Wall Street and its hired economists "running scared".

These, and related strategies, should be effective in pulling our economic rug from beneath our feet, render us incapable of paying our foreign obligations, close down our industries, create mass unemployment, and give a knock-out blow to our entire economy. The unemployed workers, most of them trained in the use of arms in our armed forces, angered by hunger and illness (needless) of their families, would soon

learn how easy it would be to smash plate glass windows of giant food markets, and strip the shelves of supplies, which would never be restocked. Hunger, disease, and civil war would become epidemic, complicated by the viciousness of religious wars and a rising of the colored population. The armed forces would lay down their arms and refuse to shoot down starving fellow-citizens, victims of economic and political outlaws. Those responsible for this criminal situation would start running, to flee from the wrath to come. Ike would speed to the security of his "Berchtesgaden" at Camp David ---- and there you have a super-duper Reign of Terror completely spelled out. He who runs may read. Ignore the warning at your peril!

B. JESUIT - VATICAN STRATEGY: This strategy is as specific and as fully developed for total war as the strategy of the USSR is in the direction of total disarmament and peace. The record of the Vatican over the centuries has been one of continuous violence, of which the Massacre of St. Bartholemew's Day in France is but one illustration. The Jesuits know that they must maintain the status quo of exploitation or perish. They, too, have read the prophecies which predict that the Vatican will be destroyed in one quick moment "as a stone cast into the sea!". They fight as cornered animals.

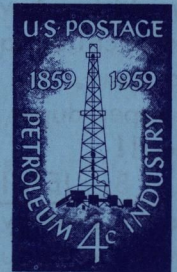

Pope Pius XII put Hitler into power and approved his destruction of Roman Catholic France, Poland, Czechoslovakia and Hungary. The post-war incitement to an A-bomb war: "Hit Russia Now!", was clearly hatched in the Vatican, and promoted by the US press and public officials. The policy was publicized by Jesuit Father Edmund Walsh, head of the Department of Diplomacy of Georgetown University. Pius XII promoted the massacres of Roman Catholics in Hungary (aided and abetted by Allen Dulles of the CIA and by Roman Catholic General Gruenther), to restore Hungarian lands to the Church and the big landowners, exactly as happened in Medieval France. Pope John XXIII has enunciated much the same policy, giving moral support, in advance, to an H-bomb war to protect Jesuit interests in Berlin. Senator Kennedy, "favorite son" of the Holy Father, declares his candidacy for President of the United States on this openly-announced platform of international murder. Governor Brown of California, another "favorite son" of the Holy Father" runs interference and hopes that he, too, may be called. "Slippery Dick" Nixon, married to a Roman Catholic (daughter of Roman Catholic parents), who has openly conspired with the Vatican hierarchy in Latin America, and whose finger is undoubtedly in the current Cuban "pie", is equally dangerous in the Republican Party. These subversives are truly demented if they believe that the non-Jesuits of the United States will hold still while they overthrow our Constitutional freedoms by placing a Roman Catholic into office as President to bring the Pope into the White House by the back door.

Pius XII engineered the massacres in Guatemala and Buenos Aires a few years ago. John XXIII follows the same strategy in Cuba today. If an H-bomb war is ever launched it will not be by accident by some overwrought pilot of an H-bomb plane flying beyond his assigned mission, but by a homicidal Roman Catholic maniac in the White House, the State Department, or the Pentagon, who is already in a position to give the command, and who has been briefed for this assignment. Surely Mr. Khrushchev is too well informed not to realize that he can never obtain total disarmament as long as the Jesuit-Vatican forces dominate our foreign policy.

C. CUBA: History repeats itself. The record of conspiracy to overthrow the government of Guatemala by force and violence consummated by the forces of the Vatican and Wall Street, with our public officials and military personnel acting as hatchet-men, is reproduced currently in Cuba. American planes fly over Havana stirring up rebellion. The United States government, through puppet Eisenhower, orders Britain to refrain from selling jet planes to Cuba to defend the country. U.S. weapons and dollars are smuggled into Cuba to murder, and bribe assassins. The U.S. press builds up its campaign of vilification of General Castro to prepare public opinion in the United States for outright intervention, as happened in Guatemala. Economic reprisals are initiated against Cuba, which is struggling to bring some measure of economic security to its poverty-stricken, Roman Catholic, peons, victims of the absentee landlords of Wall Street. The Jesuits, as stated above, give their full support to the overthrow of General Castro, for they are as deeply involved in economic corruption in Latin America as Wall Street. At any moment we may learn that Hungarian "freedom fighters" (assassins) trained in murder by the Jesuits, Allen Dulles, and General Gruenther, have parachuted down upon Havana from their base at Fort Bliss, Texas, to restore control of Cuban lands to the United Fruit Company and the "Black Magicians" of the Vatican, as happened in Hungary under the leadership of Cardinal Mindszenty. General Castro has succeeded in bringing retribution to puppet generals and politicians in Cuba, but has been unable to reach out to punish the "prime movers" in Wall Street, Washington, and Rome. That is a disagreeable job which we, the people of the United States, must consummate.

D. DOMESTIC FOOTNOTE: Outlaw Summerfield Rides Again! Postmaster General Arthur Sum-

merfield, who became accessory to the robbery of my mail at West Point in 1957, and whose agents rob my own, and others' mail, again establishes his true colors in issuing a 4 cent stamp commemorating - of all things - the petroleum industry! Imagine! This damnable gang of international pirates now sailing under the seal of the United States, who should be flying the skull and crossbones at their masthead, honored by a postage stamp emanating from the Postoffice Department! This international "mafia" of cut-throats has stolen from the public domain every drop of the oil it controls; almost forced us into a suicidal H-bomb war for the oil of the Middle East; is currently swindling the American Indians of their last drop of oil through conspiracy with Dwight D. Eisenhower, William Rogers, Glenn L. Emmons, and a gang of Indian renegades. These international swindlers have connived with the Jesuits and the Vatican to defraud the peoples of the world of their oil resources. General Mark Clark (Roman Catholic) in full military regalia including stars and medals, wraps these criminals in the flag of the United States and of The Citadel in Charleston, and in a national magazine, presents them as great national heroes. General Alfred M. Gruenther (Roman Catholic) does the same (though wearing civilian dress), on a national TV hook-up sponsored by the (Dutch) Shell Oil Company. A Boston paper shows Cardinal Cushing's agents hob-nobbing with officials of the petroleum industry - presumably because this brings in more cash than their "bingo" games. (No wonder this legion of retired generals reaps rich rewards in the form of fat jobs in civil life.) No wonder Cardinal Spellman, elevated by Ike Eisenhower to become "spiritual" leader of the Armed Forces. This is the same Spellman who has repeatedly toured the Far East at government expense, accompanied by his "aide", General "Joe" Collins, to protect Vatican properties from the "commies". No wonder he dares visit West Point to defame Prime Minister Khrushchev, and establishes West Point at the level of a Roman Catholic parochial school, one grade below Notre Dame.

VI. THE HOLDRIDGE PLAN - BLUEPRINT FOR ECONOMIC DEMOCRACY: Month after month, while preparing issues of REVEILLE, I have promised myself to present a comprehensive analysis of my positive "Rainbow!" program of action contained in my BLUEPRINT, but circumstances have prevented. The fever of corruption has not yet burned itself out. Too many are still too prosperous to concern themselves about millions of destitute, or even about their own dwindling prospects of survival. The lightnings of disaster must slash the dark curtain of greed and self-complacency and strike the roof of the individual before he will move, and by that time it may be too late for positive alternatives. The laws of compensation must still blow up the whirlwind of retribution. It is questionable even whether the great mass of the people deserve, or would be able to understand, the life more abundant so easily available under the Holdridge Plan.

Nevertheless, there the plan is, if and when needed. During the 25 years I have discussed it publicly and privately, not one major objection has been offered as to motivation or practicability. It is the "American" alternative to Communism which can "co-exist" with Communism: the economy under the protection of the Constitution "to promote the general welfare" --- usury (profit, interest, rent) abolished --- a cooperative (positive) economy to replace the competitive (negative) economy --- functioning under a fourth coordinate branch of government, the economic, democratically controlled, operated by technically qualified personnel --- purchasing power equal to total costs of goods and services - a "balanced exchange" --- total employment, total security, total abundance, total freedom. If you have not read this summary send for a copy of the pamphlet and read it! 50 cents per copy, 3 for \$1.00. I challenge anyone, anywhere, to produce a better, more practical plan designed to perpetuate our own, true, "American" way of life.

VII. FABLES OF MORONIA: Please note the enclosed announcement of a special sale of a paper cover edition of my book, The Fables of Moronia. This little volume has been reviewed as another Gulliver's Travels satire, and as being prophetic of coming events. Fine printing and illustrations. An excellent, inexpensive present for Christmas. Price \$1.25, including tax and mailing charges. Copies will be mailed directly to your friends. All proceeds will be used to repay the loan I was forced to raise to pay my attorneys on my case involving Paul Jones of the Navajo Tribal Council. (This case comes up again on November 12th. Watch for reports of official trickery inspired by Roman Catholic William Rogers, Attorney General.)

VIII. DISTRIBUTION OF MATERIALS: Help distribute materials to friends and enemies. At the present time this means of distribution constitutes our only channel to inform the people of impending catastrophe, and to outwit the outlaw FCC. Don't leave it to the Gods, or to the Space People. Do it yourself!
