

I read your
"Drummers & Dreamers"
With a great deal of
interest.

"I have written the
Image Program," N. B. &
about the Indians
in hopes they will do
a program on them.

Dear Mr Belander,

I first learned of your book thru' a review, of it that appeared, in the magazine section of the 3 pages man about publishing time. I saved the article a long time, as I intended to buy it. However it came to our library and I got it there.

I taught school in Asotin County 1909-1918.

These last years I have worked at the Lewis Clark Hotel.

My interest in the west comes from two things

My father Thos. H. Martin

was an early day
freighter from Fort
Benton to Price Utah
my maternal grand
father came from East
Tenn. in Cherokee land
I have lived near
the Nes Perces fifty six
years.

I am not related to
the Fishers of Lyons
Terry.

That image people are
going to do a series
on "American minorities"

If this is an honest
portrayal it seems more
important to us than
"Russia's Opera + School
system."

Very Sincerely
Verna Fisher
