Dear Mr. Relander:

Your letter of July 30 is being referred to the State Parks and Recreation Commission for reply.

This Division is charged solely with the promotion of tourism and has very little to do with the development of activities as you outline and as would concern another State department.

I am very familiar with your personal background in the Washington Indian affairs and I am sure that your suggestion is well considered. I am sure that the Parks and Recreation Commission will take prompt action on your very colorful idea.

Very truly yours,

TOURIST PROMOTION DIVISION
