Department of Justice
Room 2129 Department of Justice Building,
Washington 25, D.C.

Pertaining to File 90-2-20-273
[Enclosure No. 190992]

Sir:

I am enclosing the residue of a form, No. LN-5, sent me by the Department for execution.

The slip, enclosed by the Yakima Post Office Department explains that "the enclosed article was damaged by fire in a mail care while en route to Yakima, Washington."

The enclosed newspaper clipping adds a light to the situation. I had been expecting some mail, including the form, and by coincidence, [I am sure not through gifted foresight] brought the clipping home and was toying with the idea that my expectable mail was involved in the fire.

I trust that a replacement form can be sent, that you have the original material on which to base it. I will be most happy to process it when received.

Sincerely Yours
