THE NEW DIRECTORY.

A Very Complete Work...Shows 2776 Names in North Yakima. Which indicates a Population of 6940.

R. L. Polk & Co's. new directory of North Yakima and Yakima county is now out, the books being delivered this week to local customers. It shows evidence of having been most carefully compiled. It is a work containing 902 pages, typographically neat and well bound. It was printed in Tacoma.

The names of persons recorded as living in this city is given as 2776. By using the usual directory multiple of 2 1/2 for each name, these figures indicate that North Yakima now has a population of 6940 souls. It is but fair to state, however, in this connection that the canvassers included in this number the names of a few people just beyond the city limits west and north of town. The total number of such persons enumerated though will not aggregate over 175 or 200 in the opinion of Mr. Von Rosenberg, the agent of Polk & Co., who superintended the canvass. This would tend to reduce the estimate of population within the city limits not more than 500, which means that the real population is about 6490. When compared with the results of the national census, taken three years ago in 1900, the percentage of North Yakima's growth shows up over 100 per cent for the three years, which is certainly a most gratifying showing.

The work contains a well written introductory article, describing North Yakima and Yakima county, from the pen of Mr. J. O. Cull, an attorney of this city.

The book contains the names of all persons who receive their mail at all the post offices of the county which includes Wenas, Cowiche, Nile, Tampico, Yakima City, Wapato, Toppenish, Zillah, Sunnyside, Mabton, Prosser, Outlook, Kloma and Kennewick, in addition to a short, descriptive sketch of each town or locality. The names of the people living on the different rural mail routes appear as does also a classified list of taxpayers in the county outside of the city. The work on the whole is a very complete production and is a credit to the publishers.

Fruit Crop All Right.

Mr. P. J. Flint, the largest individual fruit grower in the county, informed the DEMOCRAT the first of the week that with but few exceptions the fruit crop was so far uninjured, notwithstanding that the weather this spring has been considered as unfavorable. Nothing so far, he says, has been injured thus far in his big orchard at Parker except the sweet cherries, the Crawford peaches and two or three of the tender varieties of apples, including the Gravenstein. Except in the case of the cherries no material loss has been suffered, he thinks, as there is plenty of bloom left on the trees affected to insure a good crop.

Fruit Inspector Beck, who has been over a good deal of the country this spring, says that barring apricots and sweet cherries in certain localities, that the prospect at this time for an immense crop of fruit is excellent. "This will be an off year for the apricot," said the inspector, "on account of the enormous yield of that fruit last year. Generally speaking the apricot is an alternate bearer, and this is an off year."

Fruit growers of this vicinity seem to feel sanguine that they will secure good prices this year. Advice from the east say that the peach crop of Delaware, Michigan and other states was killed by the hard winter. For the same reason, it is said the eastern apple and other fruit crops will be materially reduced this year.

A Great Rubber Country.

A. D. Rison, a representative of the Mexican Rubber company of Portland, Or., was in the city this week and made the DEMOCRAT a pleasant call.

Mr. Rison says that his company owns a rubber plantation of 30,000 acres in the state of Chiapas, department of Palenque, Southern Mexico. The young rubber trees, he says, are raised in the nursery row and are transplanted to the orchard at the age of one year. The trees after transplanting grow at the rate of from 10 to 20 feet per year. At the age of five years they become producers and the trees are tapped annually after that for their milk which forms the constituent element of commercial rubber.

The rainfall of that country, Mr. Rison says, is about 200 inches per year, which makes it the best rubber producing country in the world.

Drainage Expert Coming.

Congressman Jones last winter received a promise from Secretary of Agriculture Wilson to the effect that an expert would be sent by the department to this valley to examine into the drainage proposition.

The first of this week the congressman received a communication from the department stating that a Mr. Elliott of the bureau on soils and drainage would be here within a few days from California.

Organized at Last.

Three members of the State Fair board, Messrs Spilwan, Shannon and Wyman, met in Dr. Gunn's office Monday afternoon. The other two committee members, Messrs Hill and Vessey failed to show up to quality. After waiting for some time the three went ahead and perfected an organization by electing Senator Spilwan president and J. E. Shannon secretary. Mr. Wyman will probably be made treasurer later.

Fire broke out about 2:30 Friday afternoon in the barn in the rear of the Hinman residence on North First street. The department was soon on the scene and had a stream playing on the blaze which soon subsided it. The family was away from home at the time and the cause of the fire is unknown. The loss is said to be fully covered by insurance.

A PROMISING INDUSTRY.

The Yakima Planing Mill, Owned and Operated by A. E. Howard, a Model Plant of its Kind.

The editor of the DEMOCRAT last Monday, for the first time, visited the Yakima planing mill, owned and operated by A. E. Howard. To say that we were surprised is putting rather mild.

From but a small beginning Mr. Howard's industry has more than kept pace with the growth of the town. It was begun in a small shop at the corner of Front and B streets some three years ago. Even after enlarging a time or two Mr. Howard found himself too much cramped and in such close quarters he concluded to build the present new mill situated on the corner of West D and Selah avenue.

This new mill has not only recently been completed. It is a substantial frame structure, two stories in height, with a basement, the dimensions of the building being 40x80 feet.

The finished products of the mill include sash and doors, moldings of all descriptions, brackets, scroll work, screens and numerous other useful and ornamental articles. Owing to the large amount of building being done in the Yakima valley the proprietor and his employees are kept very busy.

The power that keeps the wheels in motion is electricity furnished by the Yakima W. L. & Power Co. A 20-horse power engine located in the basement and attached to a main shaft 80 feet in length does the business. It is a steady and reliable power and is found to be cheaper than steam, besides much cleaner and safer.

The Mayor Got His Man.

Mayor A. J. Shaw arrived home Tuesday from Wallawa county, Oregon, with his prisoner, George Barrack, who jumped his bond here in November, 1900, while the charge of manslaughter was hanging over his head, Barrack having been accused of causing the death of a squaw in June of that year by striking her with a club over the head.

The mayor was one of Barrack's bondsmen and settled some time ago for his share of the \$500 bond, the other bondsmen being E. W. Dooly and John Farris. The mayor vowed that he would get his man sooner or later. He happened to learn that Barrack had fled on a homestead at the LaGrande, Or. land office and was living in Wallawa county so getting Sheriff Grant to deputize him he started after his man. It was a desperately hard trip, as he had to journey 125 miles away from the railroad. He learned that Barrack was employed to pack supplies to a sheep camp and accompanied by the local constable met him on the trail. Barrack, though much surprised yielded gracefully and consented to return without putting his captor to the trouble of securing requisition papers.

Mayor Shaw has received a good many compliments since his return for the splendid nerve he displayed going after his man. Barrack will probably be tried at the June term of court.

Goldendale has a Railroad.

Goldendale at last has a railroad and the people of that town and surrounding country hailed the advent of the first train with joy the first of this week.

The new road which has put the isolated county seat of Klickitat in connection with the outside world is the Columbia River and Northern, owned by Portland capitalists. The road is now finished from Lyle, a point on the Columbia to Goldendale, a distance of 43 miles. As the altitude of the latter place is about 1400 ft. greater than that of the former the high grade of the road may be imagined. It is said that the road will very likely be extended during the present season at least as far east as Bickleton and perhaps to a connection with the Northern Pacific. Owing to delay in the matter of procuring the needed material construction work has been delayed on the road. As a result the warehouses at Goldendale and Centerville are full of wheat awaiting shipment.

The people of Klickitat county are to be congratulated on having at last secured badly needed railway facilities. In this connection the Goldendale papers give due credit to Hon. N. B. Brooks, of that city, well known in Yakima, whose untiring efforts for years to secure a railroad for his home town has at last been crowned with success.

Our Clubbing Offer.

Until further notice the YAKIMA DEMOCRAT will club with the following papers at the rates annexed. Delinquent subscribers to the DEMOCRAT in order to take advantage of any of these offers must first pay up to date.

THE YAKIMA DEMOCRAT,

JOHN DAVID MEDILL,

Editor and Publisher.

Entered at the North Yakima Postoffice as Second-Class Matter.

One Dollar Per Year—in Advance.

Published every Saturday morning at the Democrat Printing House on First Street, North Yakima, Washington.

OFFICIAL PAPER OF NORTH YAKIMA.

The Mt. Vernon Argus and the Ellensburg Localizer, both old line democratic papers, have recently changed hands and been converted into republican organs.

From a party standpoint this is unfortunate. There is a reason for it, however, and the reason in both cases seems to have been lack of support. The publishers evidently were not to blame for their held out as long as they could. There appears to have been nothing in it for them but glory, and glory butters no bread. The democrats of the counties of Skagit and Kittitas now bewail the fact that they are left without a local party organ but the probabilities are that they have nobody to blame but themselves. If they had supported their papers loyally the chances are that they would not have lost them.

The trouble is that democrats, as a rule, are not as loyal in the support of their newspapers as are their opponents, the republicans. Of course, there are plenty of exceptions, but this statement holds good as a general rule. A great many democrats don't seem to understand that publishing a newspaper is simply a business enterprise for the man that owns it, just as much so as is the business of the grocer or the butcher. They don't realize apparently that he must meet his financial obligations weekly, or at the farthest, monthly, and that if he fails to do this the paper must change hands or die.

With the passing of the Localizer, the YAKIMA DEMOCRAT is now the only paper left in all of Central Washington that advocates democratic principles. Of the fifteen papers published in the three counties of Kittitas, Yakima and Klickitat, but one preaches the sacred doctrine of self government as laid down by Thomas Jefferson, the father of the American republic. Surely this is not a creditable showing for any party to make that has for its object the crystallization of democratic principles into law.

The press is the most powerful agency in the world in the matter of creating and moulding public opinion. The press of this country is constantly engaged in making and unmaking public men as well as measures. No party can hope to succeed therefore that is without the support of a goodly portion of the press. In fact the cause of democracy, which is the cause of the common people, is simply hopeless without the aid of an enlightened press. The other side is not so much in need of the missionary work of the press for it has not only the money, but the official pie and the opportunities for preferment with which to strengthen itself.

W. R. HEARST has taken up the cudgel of defense in behalf of the people of the city of New York against the coal trust. Since the government has manifested its unwillingness to prosecute the coal trust thieves Hearst has come forward, employed eminent counsel at his own expense and directed that suit be brought against the coal carrying roads for known violations of both state and national law. For this Hearst is being roundly abused by the mammon serving press as an officious meddler who is endeavoring to make political capital for himself.

Yes, of course, we all knew that was just what the trust lackeys would have to say about it. Just the same the trust ridden people of New York will thank Hearst from the bottom of their hearts.

This people of Ellensburg, it seems, are still wrangling over the matter of building a ditch. The Capital, of that city, editorially bewails the fact that after nine months of incessant planning and figuring among the promoters which has exhausted the patience of the people there is as yet no signs of a ditch, except on paper, and ends up by inviting the chief mogul to step down and out.

If some of the Ellensburg people would like to see how a ditch is built, they ought to lay off from knocking for a day and journey down the creek for about 40 miles. That distance would bring them to the irrigation center of the northwest where they can see the real thing.

MAYOR SHAW has seen fit to exercise his prerogative by vetoing the ordinance increasing the license fees for theaters and bill posting.

We believe that the mayor has made a serious mistake in this matter as judged from the standpoint of the city's interest. The mayor, at any rate, might have given those who favored the ordinance a chance to be heard before proceeding to kill them. However, this paper is not disposed to quarrel with his honor about the matter. We feel that we have done our duty in presenting the case before the people on its merits.

The Sunnyside Sun in commenting favorably upon an editorial that appeared in this paper two weeks ago regarding the necessity of rail connection between this city and Sunnyside, says that it is "pleased to note that the DEMOCRAT has at last awakened to the fact that the Sunnyside country is quite able to take care of itself."

Well, well, brother, we thank you for this half-way compliment, but are you not a little bit late about making such a discovery? Can you remember any occasion when this paper has not pursued a policy of fairness toward the people of the "east end"? To be sure we have not advocated their interests where we believed that the same clashed with the interests of the balance of the people of the county. In fact, we never have opposed the wishes of the "east enders" in any matter outside of an unfair line of division.

The people of North Yakima, outside of possibly a few politicians, are not haughty in dealing with the people of Sunnyside, as the Sun assumes. The people of the county seat have only the kindliest of feelings towards the people of Sunnyside and are desirous of co-operating with them in every way possible. If the proposed steam road is built to Sunnyside the advantages will be mutual, although almost the entire burden in the way of concessions will have to be borne by the people of this city.

Our able editorial brother of the Sun should not lend his influence towards feeding the sectional feeling that already unhappily exists among the people of this county. "Let us all be men and brothers."

The Russian bear has at last served notice on poor old China that he proposes to hold on to Manchuria and add that province to his empire. China, being in no condition to resist such an unrighteous demand is forced to acquiesce and look pleasant.

This is probably the initial step in the final partition of the "flowery kingdom" among the great powers of Europe. Germany assents to the Russian program because she is desirous of securing for herself a large slice of Chinese territory while France already has her tentacles fastened upon a large belt of the most productive part of China which adjoins her colony of Tonquin. England, which hitherto has played the role of protector, is watching this international game of grab with ill-concealed vexation will now be likely to close in on her alleged "sphere of influence" and gobble up the remainder of the ancient empire.

After all it is perhaps better for the world that China should be carved into strips and divided up among the western nations. In an industrial way she is apt to be very much less of a menace than if her integrity were to be maintained. Western ideas and western ways are being gradually forced upon her anyway and after being thoroughly aroused from her sleep of centuries she might as an industrial competitor make it exceedingly interesting for the rest of the world. With her practically untouched great resources of coal and iron besides cheap labor she might become a dangerous competitor. The wise heads of Europe doubtless realize this, which probably accounts for the determination of the great powers to control the future of China.

CHARLES A. TOWNE, former congressman and senator from Minnesota, in response to a toast at a democratic club dinner at Brooklyn, N. Y., Monday night, gave utterance to a sentiment that ought to serve as a gentle hint to the distinguished editor of the Commoner. Nobody can doubt Mr. Towne's sincerity. This is what he said in part:

"Speaking for myself, as a man who advocated before hundreds of thousands of citizens in many states the principles of the democratic platforms of 1896 and 1900, and who believed in those principles and believe in them now as applicable to the same conditions, I am very frank to declare my continued belief that expediency demands that no greater test of a man's democracy should be required today than his belief in and readiness to labor for the principles that are at stake today."

You will find that \$2500 goes a long way if you let us drive you out 20 miles to that 160 acre stock ranch with over 40 acres bottom land, fair improvements, all fenced, 400 boxes choice apples last year, plenty other fruit, No. 1 water right. R. D. Sanford of the "Buyers Home."

May 7th and 12th, via Seattle and Pacific Coast Steamship Co.'s steamers, rate \$45.55, final limit July 15th, stop-over in either direction.
M. S. MEERS, Agent.

For Those Who Live on Farms.
Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommend it to my friends as I am confident there is no better made. It is a dandy for burns." Those who live on farms are especially liable to many accidental cuts, burns and bruises, heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency 25c, 50c and \$1.00 at Fred L. Janock's.

The Outlook.

The prospects for Democratic victory in 1904 grow steadily brighter. The Republican party is by no means in good fighting feather. Evidences of jealousy and revenge, of bitter clashing and dissensions, and of restiveness to the reign of monopoly are everywhere visible. There is a trust faction and anti-trust faction, a high tariff and a tariff reform faction, an imperialistic and an anti-imperialistic faction, a public plunder and a public economy faction, a Roosevelt and an anti-Roosevelt faction—and the line of cleavage between these factions is daily becoming more apparent. In fact, the republicans are not united on any of the main issues. Nor are they united on Colonel Roosevelt. Almost without exception he is opposed by the bosses and politicians of his party, while the rank and file are for him. Perhaps the former can be lined up by a pronounced popular statement—bosses and politicians being usually cowards in the face of heavy odds. However, the president is not so strong with the masses of the east as he is with masses of the west so that the outcome is very problematical. In either event there will be disappointment and bad blood over the result.—Sumner Herald.

We keep in stock the largest assortment of steam, gas and water pipe to be found in Central Washington. We employ only first-class plumbers and are therefore in a position to fully guarantee our work. Western Sanitary Construction Co., next door to postoffice. 30-H

Announcement.

This is to inform the public that I have opened a real estate office in my own building, located for the purpose, corner North Wenas avenue and West A street, 4th block west of R. R. depot, North Yakima, Wash., where we shall be pleased to list for sale all classes of real estate and personal property, which may be offered at a salable value.

We take property to rent on commission and collect and remit promptly and shall be able to prove to those who favor us with their business, that real estate business can and will be conducted on as high a plane as any other business.

Having had 10 years successful experience in this line, as well as in farming, fruit growing, market gardening, dairying and creamery lines, will be apt to locate buyers more intelligently than some who have not such practical experience. But to do so to best advantage buyers should favor me with a plain statement of their wants, that I may have a proper chance to serve them faithfully. We aim to earn our commissions fairly. If you have property to sell, or wish to purchase, drop in and get acquainted with us and our methods. "The Buyers Home." 30-H R. D. SANFORD.

How's This.

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & Co., Props., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm. West & Truax, Wholesale Druggists, Toledo, O. Walzing, Kinnear and Marvin, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c. per bottle. Sold by all druggists. Sold by all druggists. Testimonials free. Hall's Family Pills are the best.

Spring Ailments.

There is an aching and tired feeling; the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole body and mind needs toning up. The trouble is, that during the winter, there has been an accumulation of waste matter in the system. Herbine will receive it, secure to the secretions a right exit, and by its tonic effect, fully restore the wasted tissues and give strength in place of weakness. 50c at Fred L. Janock's.

Business For Sale.

Owing to sickness in my family I have concluded to offer my barber business and cigar stand, located at No. 8 Yakima avenue for sale, together with lease on building. This is a good business opening as my books will show. 33rd MATT GROESCHMIDT.

Ice, Cool, Clear Ice.

I wish to inform the public that I have stored this winter over 2200 tons of good ice, the best in years. A large part of this was cut on the power house pond especially for the domestic trade. I wish to retain all of my old customers and secure as many new ones as possible. Prices reasonable. 23rd F. SINGLAIN.

OSTEOPATHY, SUGGESTIVE THERAPEUTICS And Magnetic Healing

ARE A DISEASE CONQUERING TRIO--To these we add Electricity, Massage, Turkish, Hot Air or Vapor Baths; Hygiene and Physical Culture, and we have a System at once Scientific, Peerless, Matchless. It is Nature's Own Method. A Combined System Taught and Practiced at the "INLAND EMPIRE SCHOOL OF NATURAL HEALING" 211 East Yakima Ave., up stairs over Ditter Bro's Big Store, by ZEDIKER & ZEDIKER.

TO THE PUBLIC:—It is just six months since we opened our offices for business in this city, strangers among strangers, and offering to the people something new to most of them and something against which there is so much prejudice, as there always is against something new and untried. Medical science to which the civilized world pins its faith today, did not discover the general circulation of the blood until Wm. Harvey declared it to be a fact in 1628, and then it took 50 years to force this simple, reasonable fact into the minds of the people so that they generally accepted it. It has ever been thus. So we are not surprised that the wonderful discoveries of the past 15 to 20 years along the lines of natural and scientific healing, are accepted by the people only very slowly.

But we have reason to THANK THE GOOD PEOPLE OF NORTH YAKIMA for their patronage and our patients for their kind words. We have had to enlarge our quarters and add to our facilities. We repeat we do not give medicine nor perform any surgical operations. However we have only the highest respect for all who HONESTLY and HONORABLY practice these noble professions. We were brought up that way ourselves. But there is no cure to severe for some unprincipled persons in the profession who needlessly slaughter human forms for the Almighty dollar. Several honorable M. D.'s have told us that they often have cases which medicine will not reach, and that they are often glad to send cases to us, believing we can do them good. On the other hand we sometimes have cases that we do not care to take charge of, and where the doctor doctor or surgeon, is what they need and we are glad to be able to advise them where to go for the needed help. Hence there is no warfare so far as we are concerned against honorable practice of the noble profession of medicine and surgery.

However, for a very large class of human ailments we are sure we have found a better way, and we ought to know for we have tried both systems. We propose at this time to tell the people something of our work in this city. Some have consented to speak over their own names. Are these, your neighbors' friends or foes? If not, then believe them and admit that this system is a success.

READ THE TESTIMONY: Quinsy Cured—Voice Restored.

NORTH YAKIMA, APR. 14, 1903.

TO WHOM IT MAY CONCERN:

On Saturday, January 3, 1903, I called Dr. J. F. Zediker to see if there was any relief for a most painful case of quinsy. I had suffered for six days; had not drunk anything for many hours, nor eaten anything for at least 40 hours. My throat was swollen so as to prevent opening my mouth, and it also held my head to one side. I could not sleep and had lost all my credit while waiting for something to happen, as all my previous doctors had assured me must be done to such a case.

Mr. Zediker worked faithfully for about an hour and then pronounced me able to drink and to my surprise I got down a glass of milk and one of water. The swelling had all disappeared and my throat was easy. I went to sleep at once and slept all night and in the morning ate breakfast. After one more treatment to restore my voice, which had failed while I was ill, I dismissed the doctor and got up around the house.

Very respectfully,
(Miss) GRACE HAYCRAFT.

This above was case No. 42. Miss Haycraft is known to many people in this city. She has just returned with her parents and her brother Bae to their former home in Minnesota. Ray was the solicitor for the Yakima Tea Co. and is known to a large number of people in country as well as in the city. He too, was one of our patients and substantial friends. Case 42 shows that there is no necessity of days of suffering with quinsy, tonsillitis or sore throat. We have often cured them in one day but not every one will respond as quickly as this one.

HERE IS A MOST REMARKABLE CASE from a worthy young woman whose gratitude prompts her to tell the plain facts.

CASE No. 44.

Dysintery, Amenorrhea, Stomach Trouble Cured

NORTH YAKIMA, Jan'y 28, 1903.
TO WHOM IT MAY CONCERN:

It gives me real pleasure to testify to the wonderful healing powers of Messrs. Zediker & Zediker of this city. In June, 1902, by mistake in the night I took a swallow of commercial chloroform. A prominent M. D. of this city was called at once and gave me an anema of very hot coffee, which sorely scalded my lower bowels, and dysentery set in, and continued in spite of all the efforts of drug doctors in this and other cities, when I called on Messrs. Zediker & Zediker on Jan. 8th, 1903, my stomach too, was so badly affected that it would

not digest any solid food and I was compelled to live on milk alone. I had also suffered continuously from Amenorrhea from June 1902 until after I employed the Drs. Zediker Jan. 8, 1903. I also suffered from ovarian trouble, and my kidneys and bladder were affected. I was also very nervous and was in the habit of awakening about three o'clock at night and lying awake. I was greatly discouraged. No one knew my mental torture for I "wept alone." With doubts and misgivings and as a last resort, I decided to try this drugless system of healing and to my surprise I began to improve almost at once. In a few days I could eat and digest solid food. After several treatments they conquered the Amenorrhea and nature asserted itself without unnatural severity. The dysentery gradually subsided until my bowels moved regularly. One trouble after another disappeared until after taking only 12 treatments I feel fully well and am once more a happy girl. MANY, MANY THANKS, to the gentlemen, their system of NATURAL HEALING saved me. There is nothing in their mode of treatment to which any lady need take exception. I heartily recommend them to all who need treatment.

Very respectfully,
MARCEL L. CHASE,
Cashier in Meat Market on S. 2nd St.

CASE No. 48.

Stomach Trouble and Kidney Disease, etc., Cured in 6 Treatments

NORTH YAKIMA, Jan. 23rd, 1903.
TO WHOM IT MAY CONCERN:
On January 14, 1903 I began taking treatment of Zediker & Zediker for stomach trouble, kidney disease and other ailments. I had such a severe pain across the small of my back, that I could not work any to speak of. I took six treatments of them and am feeling almost entirely well, and can work with pleasure again. I live five miles in the country on Rural Route No. 4. I recommend all who are suffering from disease to call upon Drs. Zediker & Zediker. They use no medicine at all. I am much pleased with their treatment.

MARY E. PURVIANCE.

Mrs. Purviance is 47 years old, weighs 200 lbs. and is the wife of one of the substantial farmers of this county, a Christian woman and reliable.

CASE No. 68.

Constipation, Headache, Nervousness, Nervous Blindness and Female Trouble Cured

NORTH YAKIMA, April 15th, 1903.
TO WHOM IT MAY CONCERN:

On February 16th, 1903, I was suffering from constipation, poor digestion, heartburn, was very nervous and troubled with severe headaches, my eyes were so badly affected I could only read a few words at a time, until all the letters would seem to run together. I was so weak across my back I had to wear a body brace all the time and suffered much from back ache. I also suffered greatly at each monthly period. I had kidney trouble, also catarrh in head and throat, coughed some, expectorated much, had some soreness in the lungs and for many years had suffered from asthma. Hence, readers will not be surprised that I was much discouraged and despondent for I have had poor health all my life. I had doctor'd many years with drugs and drug doctors but got no relief. It was when in this condition that I called upon Drs. Zediker & Zediker and commenced taking treatments by their combined system and up to March 27th, 1903, I had taken 25 treatments and since that date have been doing my own housework. I recently rode 40 miles in a carriage in one day with my husband and carried my large baby and did not wear my body brace and got quite well. I can now see to read quite well. I have perfect control of my bowels. My monthly periods are nearly natural as to suffering and in every way I am so much improved that I cannot speak too highly of these gentlemen and their system of healing. I can and do honestly and earnestly recommend my suffering sisters to try this new method, which has done so much for me after so many years of suffering. In all their treatments both the Drs. Zediker were very careful and considerate, exercising proper delicacy in doing their work. No lady need hesitate.

Very respectfully,
Mrs. A. B. PEARSON.

We refer by permission to her husband, Mr. A. B. Pearson.

CASE No. 62.

Constipation, Headache, Kidney and Bladder Troubles.

This case is a lady 40 years old and wife of a prominent business man of North Yakima. Out of deference for her wishes we withhold her name from the public. She says she has suffered from constipation ever since she can remember and for many years from severe headaches. We found her with a coated tongue, cold hands and feet, with indications of kidney and bladder trou-

ble and other ailments. She had not been free from headache for a week and it was this that prompted her to come to us for she says she had no hope of relief from constipation. For it she had tried massage etc. 6 weeks and one osteopath for 2 months and drugs and drug doctors for years and finally relied on anemas altogether to move the bowels. This did not remove the cause and the system was clogging up more every day. Hence her sufferings. The osteopath had done her good physically, but failed to conquer the disease or remove the cause. Strange as it may seem, the morning following the third treatment her bowels moved at the hour we had appointed and she has had almost complete mastery over them ever since. The headaches subsided in about a week and her other minor troubles disappeared and she looks like another woman today. We began treatment February 4 and closed March 7 and gave her 25 treatments. It was a remarkable case and we won a complete victory. And why did we succeed in a few days, where another osteopath failed after two months? It is because we go farther than osteopathy can reach. We used all three of our systems upon her. She says she can see very plainly where in the other doctor failed and we succeeded. As to her headache, she thought she had a rush of blood to the head, whereas the fact was her brain was starving for blood and nourishment and the pain was its cry for help and we came to the rescue and she is now a happy, hard working woman.

A Complete Surprise

A Chicago Dentist adds his Testimony.
While attending college in Chicago we made the acquaintance of Dr. Eugene Hay, a very successful dentist at the corner of North Clark street and Diversey boulevard. And as the doctor was suffering from troubles peculiar to his profession, we prevailed upon him to try our treatments. He admitted that he felt better so we gave the matter no further thought, for nearly a year when we sent him a circular to let him know where we had finally located, when much to our surprise we received the following which shall speak for itself. It is highly prized by us.

CHICAGO, Feb. 18, 1903.

DR. JAMES F. ZEDIKER,
Dr. Friend—It gives me great pleasure to bear testimony to the marked efficiency of your combined Osteopathic and Magnetic treatment in my own case. Having a chronic case of lumbago, plus rheumatic arthritis of the shoulder joint, if you remember, extending down the fore arm, which had persistently refused to submit to internal medication of the most heroic nature, and had become so deep seated that I began to despair of ever getting any better of it; but thanks for your skill and superior method, a very few treatments sufficed to effect a PERMANENT CURE. I am pleased to know that you are still treating the sick, and restoring them to health. It is surely the highest calling now followed by civilized man, being partly at least, the one followed by our Saviors, while passing along the highways and byways of Galilee, besides sowing the seed that was to spring up into everlasting life. I am led to believe that you also, are no stranger to this latter class of work, having incidentally at least like some of the rest of us scattered a few precious seed whenever and wherever we got the opportunity. Time and the want of space forbids my saying all I should like to say in favor of your system of treatment. "The proof of the pudding is in the eating," so it is absolutely necessary for the sufferer to take a few trial treatments, when I feel very certain that all doubts, if he has any, will speedily vanish from his or her mind, and the infirmities of the flesh will disappear and be succeeded by the bloom of health. May God bless you and yours in the work and speed the day when there shall be no more sickness or bodily ills, but that all shall be like unto Him who will drive away all sickness even death itself. Thank you for letting me know where you are located and I earnestly wish you the success you deserve.

Very truly yours,
EUGENE T. HAY.

CASE No. 71.

Asthma Cured in 9 Treatments

TO ANY ONE CONCERNED:

On February 14th, 1903, I began treatment with Zediker & Zediker for various troubles, chief among which was asthma. I felt languid and discouraged, had a poor appetite and was run down. I have taken only nine treatments under their combined system, but must frankly say that I am most agreeably astonished. The characteristic wheezing of the asthma disappeared after the third treatment, and I am in this short time practically well. I am gaining in flesh every day. It is very difficult to say too much in favor of their combined system of treatment and any one afflicted with any disease would do well to consult them.

Respectfully,
A. E. LINN.

No 12, South Natches Ave.

Mr. Linn went into the country at once and has been performing hard manual labor on his ranch ever since his treatments and keeps well. His wife is one of the leading music teachers of the city and is a paid leader of the Baptist church choir, and is widely known. Ask her about this case.

CASE No. 90. Inflammatory Rheumatism Cured in 3 Days.

NORTH YAKIMA, April 12, 1903.
TO WHOM IT MAY CONCERN:

About two days ago I was taken with inflammatory rheumatism in my right knee. I applied the common remedies, liniments etc., but it got worse and worse until I could hardly hobble about with the help of a cane, and was not able to work. Mr. Paul Kruger, the nurseryman, for whom I was working, induced me to go to Zediker & Zediker and try their drugless system of healing. I took a treatment the 10th of April and another on the 11th and was so much improved that I threw away my cane and went to work. I have taken only three treatments and feel that I am nearly well, and all in three days time. I am much pleased with their treatment. The Turkish baths and osteopathic manipulations did the work for me in a hurry. I recommend my friends and others to this new system of drugless healing.

Respectfully,
JAMES WALSH,
With Paul Kruger, the nurseryman.

REMARKS: We often hear of people in this city who suffer for weeks and months from rheumatic afflictions when a few of our treatments would put them to earning money and relieve them of suffering. But their foolish prejudice and unbelief keeps them away and will make them cripples for life. We have had a fine experience with this class of cases and are using the best known methods of the day for the cure of this dreaded family of diseases. Our treatment and instruction safeguards every patient to a very great degree against future attacks. IT IS NOT STRANGE that the people do not believe in us or our new system. They did not believe Noah but the flood came just the same. The people of Sodom did not believe but fire and brimstone burned them up. Christ came to his own people but they did not believe and hanged him to a tree and they are cursed to this day. The people would not believe Galileo, nor Columbus, nor Franklin, nor Morse, nor Marconi. But the truths they declared are history now. They would not believe the pleading rider of the foam backed steed at Johnstown, Pa., nor the warning cry of the old man who fled from the volcanic smother at Martinique and all went to their death; and all because of their UNBELIEF. Unbelief fills the jails, stocks the prisons, supplies the gallows and populates Hades, and still people hug their OLD ideas and PET opinions to their breasts, ignoring and disregarding the onward march of science, and the discoveries and established facts of scientific investigators, who have money and brains to use in their life efforts to bless mankind. ALL BLIND UNBELIEF. THOUSANDS OF LIVES might be relieved from suffering and made useful to family and friends and state and nation, if they would accept the newer and better methods of treatment, studied out by the brightest men of our advanced age and promulgated only after thorough and complete testing and experimenting.

The fruit grower and the stock grower will accept the statement of the expert ment stations as to methods of culture, and how to battle with diseases, whether in the animal or vegetable kingdom, but when something new is discovered for the benefit of THE HUMAN BODY OR MIND, these same people rebel and refuse to believe—refuse to give it a trial. Strange, is it not? And pity 'tis 'tis true.

Every lady in the land is ready to cast off her last year's robes and adopt any new fashion of dress to adorn her body, but when science proffers a new method of adorning her frail body with health, strength and beauty, she rebels and hugs to her bosom the fashionable, OLD FASHION of doping the stomach, with drugs and suffers still.

Remember this is in an age of progress in which we live. That the mill will never grind with the water that has passed. It takes a new current, a new supply and a new force to keep the mill grinding and the wheels of progress turning, and a share of the world's grand advancement, is for the healing of the people, without the use of poisonous drugs. Will you receive it?

Will anyone deny that the poisonous drugs used for medicines will make a well person sick? Surely not. Then why won't they make a sick person sicker? Think it over, figure up the size of SOME of your doctor's bills and ask yourself why? WEALTH WITHOUT HEALTH IS NO GOOD, yet some people prefer suffering and death rather than spend a reasonable sum to get relief. This is not so with JOHN D. ROCKEFELLER. HE OFFERS A MILLION DOLLARS to have his stomach put in a healthy condition so it will digest his food. We accept the offer. We are so sure we can cure him that we will make this offer. If he will come to North Yakima and be subject to our orders, we will treat him every day for a year free of charge, if we don't cure him sooner; and if we DO cure him THEN WE WANT HIS MILLION. No one system can reach such a case, but our combined system can and will do the work.

CASE No. 73.

Stomach and Bowel and Female Troubles etc. Cured in Seven Treatments.

NOR HILL, NORTH YAKIMA, APR. 23, '03.
TO WHOM IT MAY CONCERN:

On February 13 I employed Drs. Zediker & Zediker to treat me at my home on Nob Hill. I think I have endured every pain known to my sex. At this time the entire length of my spine was so sore as to almost make me faint at the slightest touch. How the doctor could make his treatment avail anything was a mystery to me. But he did. My head pained me dreadfully, blood escaping from it every morning. I was so despondent I hardly cared to live. I slept but little; my heart was affected, stomach in awful condition and bowels constipated.

I dismissed the doctors after only seven treatments, as I was feeling almost well. I have continued to improve and am sincerely grateful. Their combined method of drugless healing has my sincere endorsement. Very truly,
Mrs. W. W. FELTON.

REMARKS: This lady's husband is one of the leading contractors of this city and well known. This was a remarkable case. Vexing on to nervous prostration, super-sensitive to touch, strong congestion of blood in the head, acute gastritis, congestion of the uterus and all ailments. Her cure was rapid and permanent. She is feeling first rate now.

CASE No. 86.

Indigestion, Constipation, Rheumatism, Nervousness, Etc

TO WHOM IT MAY CONCERN:

As a matter of justice to Drs. Zediker and with a hope of helping other suffering women to find relief, I will say: On Jan'y 23, 1903, I was suffering very severely at my home on Nob Hill. I was very nervous and had that all gone feeling that made me so weak and faint that I could hardly speak above a whisper. I had some rheumatism, also constipation, hemorrhoids, poor digestion and backache, with pain at 102 and weak and faint. The Drs. Zediker gave me eight of their treatments and dismissed me Feb. 2nd, 1903. I am highly pleased with the treatment as given by them and the results they obtain. I think it is just the thing for such cases as mine.

Very truly,
Mrs. ROBERT RAY.

REMARKS:—It was 10 o'clock p. m. when we reached the home of the estimable lady, and it was with difficulty that she could tell us of her troubles and part of the time in whispers. We at once touched a few of her nerve centers, stimulated and strengthened them and assisted struggling nature to resume its normal condition, put the balance wheel in steady motion, quieted the nerves, strengthened the voice, removed the faintness and in one hour's time, left her comfortable and next day had her pulse down to 84, and not one drop of poisonous drugs did we put into her system. She is as well today as she has been in for years. Ask her or any of our patients about us and our system of treating.

Such an Array of Witnesses

As we are presenting in this sheet would be accepted by any court or any jury as ample to convict or clear any one of you of any criminal charge, if they all testified on one side. Now, will you, dear reader, accept this testimony as evidence sufficient as to the efficiency and power of this new system of healing and do yourselves and us the justice of giving it a fair and honest trial, or will you slap these witnesses in the face with the remark that they are fools or liars.

CASE No. 83.

Impediment in Speech Cured.

This patient is a fine appearing young lady of 19 years, but had a defect in her speech so bad that she could hardly converse with people at all, and avoided doing any shopping and shunned society. We gave her 24 treatments of the vocal cords and systematic training as to pronunciation of consonants and she is cured. We gave her complete mastery over herself and she is a happy girl. This is another victory for our combined system.

CASE No. 72.

Tuning up the Vocal Cords.

This patient is a married lady and one of the best vocalists in North Yakima. On one occasion she found her vocal cords out of tune, her voice almost beyond her control and an important engagement on hand. We are glad we were able to remove the inflamed condition and restore them to perfect action.

Baths and Massage.

We give the Hot Air, Turkish or Vapor baths, with or without Massage. Many take these who are not sick. These treatments are very acceptable and restful to anyone who is tired and weary of body or mind. They are a safeguard and preventive from attacks of disease. Nothing builds up the system generally like a course of our treatments. This is the universal testimony. Hot weather is coming and if you have more flesh than you care to carry during the summer come and try our treatments for obesity. If you are tired out and run down so that life is a burden and you feel that you are good for nothing, come and take a course of treatment. It is sure to build you up. We are masters over the whole rheumatic and paralytic family. Don't get the idea in your mind that we only treat a few complaints. With our combined system we cover very nearly the whole field of human ailments; except the contagious and infectious family.

MANY PEOPLE, HOWEVER, ARE UNFAIR TO US in this way, viz: they seem to expect some marvelous or miraculous action—i. e., a cure immediately or nearly so. True indeed we make cures in from one to three treatments in some cases. But that is no assurance that the next case will yield so readily, although it appears similar. Some patients, too, who have tried medicine for weeks or months or years, and until every tissue of the body is diseased, seem to expect very radical or quick work when they come to us. Not realizing that it is an immense task to build over the whole human body. One case may be deep seated and even constitutional, while the next may be merely local and easy to reach and conquer. IN ALL CASES WE SPARE NO PAINS to do honest, faithful work, and bring favorable results as quickly as the combined influences of a powerful system can accomplish it. We have had a number of chances to take cases on a guaranty of no cure no pay, but do not do business that way. The farmer may just as well try to live hands on "NO CROP NO PAY," or no profit i. e. benefit, no pay. Men who have spent many hundreds of dollars with the drug doctors, until they are sure there is no remedy for them in that line and paid for it every time, now ask us to be the scape goat for all the short comings and failures of other and entirely different systems and to guaranty a cure or no pay. It is all unfair, very and entirely unfair. If it was someone offering a drug remedy, then there would be wisdom in demanding a guaranty. There are many cases which we would feel safe in guaranteeing a cure, if we could only rely on the humanity to be honest with us and themselves in obeying our every direction and in admitting the truth as to their condition. No, no, we would be simply at the mercy of each patient and they have no professional reputation at stake. Our success in business depends upon our success in healing and in being fair and square and honest and gentlemanly with our patrons; and so we are bound to do the very best we can and we expect \$1 per hour for every hour we work. So don't ask us to guaranty or no pay.

MISS ADELLA ZEDIKER is present at the treatment of ladies and gives them the Thermal baths and helps at times in the treatment. These baths are a wonderful remedy for many complaints of women as well as men, especially when followed by our treatment while in the relaxed condition; and they are not weakening as we give them. We find they work splendidly in cases of asthma, bronchitis, colds, catarrh, laryngitis, pneumonia and in paralytic affections, and in nervousness and in the whole family of rheumatic affections etc., when followed by a vigorous scientific application of Osteopathic work.

CASE No. 99.

A man of 43 years, carpenter of North Yakima, has had bronchitis 5 years. Doctors called it catarrh of stomach. We have only given him 10 treatments and every symptom is gone and he is working hard at \$3.50 per day, happy over the results. He is still taking treatment for another trouble and says he never got so much good anywhere as from us.

CASE No. 64.

A single lady 22 years old, attending high school, caught a hard cold in Jan. 1903 and let it run till Feb'y 6, 1903, when her pulse was 96. She had a very severe cough and lungs very sore, felt exhausted, tongue coated, breath foul, digestion poor, takes cold easily, severe pain, through right shoulder, and very weak across the back, with urine scant and highly colored, appetite poor, just on the verge of a general collapse. She was a good patient, entered earnestly into the work of getting well, obeyed orders to the letter and in 3 treatments we had her back in her school work again feeling well and vigorous.

CASE No. 103.

A little girl five years old, threatened with malarial fever, no appetite and gave up her plays and would sit by the hour in a chair to rest or sleep. Three treatments put the life and play into her again.

CASE No. 80.

A little girl 7 years old, daughter of a prominent biz. man in this city, partial paralysis, extreme nervousness and other troubles. We have made a very marked improvement in 21 treatments.

CASE No. 60 1/2.

A boy of 10 years, a very bad case of BED WETTING—we gave him 20 treatments and he says he is cured.

So we treat children quite successfully too.

CASE No. 100.

TO WHOM IT MAY CONCERN:
This is to certify that in a recent injury of the spine received by a severe fall, producing nervous trouble and sciatic rheumatism, I took treatments of Drs. Zediker much to my relief and satisfaction. I offer this testimony not so much for Zediker & Zediker, but as a timely hint to those afflicted who would seek relief.

R. A. MAZE,
General Organizer T. F. B.

We have had patients from other states and other cities in this state, and either cured or bettered the condition of all. No matter where you live, nor what your ailment, whether of mind or body, it will surely pay you to investigate our combined system and give it a fair honest trial. If you have not seen our two-page circular No. 1, send for it, we have one for you. We are constantly buying and studying the latest and best works along our line. We mean to keep abreast of the tide of progress, we are broad minded enough to take in the whole line of sciences and mechanical aids that will in any way make us more successful in NATURAL HEALING. The time will come when there will be a treating table in every home and when M. D.'s will make these INNOVATIONS a part of their profession. HAIL THE GLAD DAY. We are agents for bath cabinets, books and magazines and all supplies along these lines. Every family in this city should buy a water still and have absolutely pure water to drink—no few dollars gets one. Call and give orders, or write us. Remember our street number, 211, East Yakima ave., north side, over Ditter Bros.

Respectfully,
ZEDIKER & ZEDIKER,
Drugless Healers.

BASEBALL NEWS.

The Hoppickers Beat the Walla Walla Twice on Their Own Grounds. The Local Association Reorganized at a Meeting Held Tuesday Night.

The Hoppickers were not met at the depot with a brass band when they arrived home from Walla Walla Monday morning as they ought to have been, but they were given the glad hand and received many compliments for the splendid work they did at Walla Walla in the games with the Garden City team. Walla Walla simply wasn't in it. They couldn't hit the ball. "Klink's" drop balls were handed to them red hot, so hot that they could not find them. Big crowds witnessed both games, although Sunday was a rainy day.

The score Saturday was 4 to 1 in favor of the Hoppickers, while Sunday's game resulted in a shut out for Walla Walla, the score standing 4 to 0. The Walla Walla manager, in fact, was so impressed with the game put up by our boys that he offered to hire the entire bunch and asked them to name their price. He did manage to secure two of the local team, Dunn and Taylor, while Peckleton secured a third, Daviscourt. That was the bad feature of the trip to Walla Walla.

A meeting was held at the Club cigar store Tuesday night which resulted in the almost entire reorganization of the Yakima Baseball association. H. H. Schott was elected president to succeed Thomas Lund, who found it impossible to devote the time to the sport. W. A. Patterson was elected secretary and treasurer. The new directors are Z. Y. Coleman, Dan Arnold and J. T. Foster. The new board of directors re-elected Fred Chandler as manager of the club. The manager, in turn, appointed Joe Wilkins captain of the team.

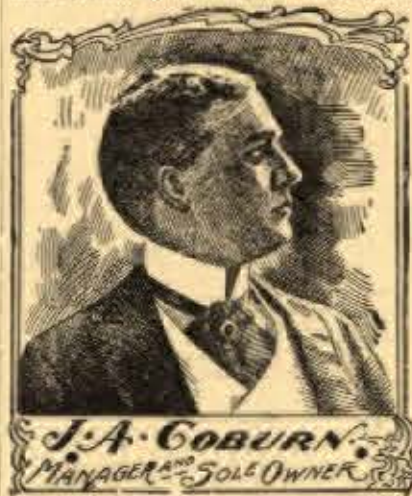

Manager Chandler has been keeping the wires hot this week in negotiating for new players. He has succeeded so well that the assurance can now be made that the reorganized team will be better than ever.

The Hoppickers go to Ellensburg Sunday morning to play the aggregation there. A large number of rooters will go along so it has been decided to have an excursion.

The Great Barlow Minstrels.

On next Tuesday, May 5th, this celebrated minstrel organization will again visit North Yakima and will provide one night's entertainment at Larson's opera house, and guarantees for its patrons the latest, best and brightest in music, comedy and up-to-date specialties and novelty acts. This company, which gave such splendid satisfaction on its last visit, has been greatly improved the past season, and at the present time ranks with the best minstrel companies on the road. Manager J. A. Coburn, the owner, has spared no expense in equipping this organization throughout with beautiful costumes, special scenery and splendid furnishings, aving a strong desire to keep his com-

pany prominently before the amusement public as a first class attraction at

all times, and will present the best of everything in this particular branch theatrically.

"Are You a Mason?"

It is stated rather emphatically that rarely have people in a theatre been heard to laugh so much, so often and so heartily as they do at the fun of "Are You a Mason?" the comedy which is to be given at Larson's Theatre, on Thursday evening next, May 7th. It is also stated that if there weren't any intermissions between the acts of the piece, a

large percentage of the spectators would be so weak from laughter that they would be in no condition to go home. These statements may be slightly exaggerated. At the same time there is no doubt about "Are You a Mason?" having made a number one success as a mirth-producer. It will be given here by Rich & Harris' comedians, headed by John O. Rice and Thomas A. Wise.

World Wide Reputation.
White's Cream Vermifuge has achieved a world wide reputation as being the best of all worm destroyers, and for its tonic influence on weak and unthrifty children, as it neutralizes the acidity or sourness of the stomach, improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood.

The Local Round-Up.

The produce firm of Mignerey & Cousin is shipping several cars of potatoes to Albusa this week.

The baseball excursion will leave for Ellensburg tomorrow on the 10:30 train. Fare for round trip \$1.50.

The commencement exercises of the graduating class of the High school will be held at Larson's theater June 4.

Judge Taggard at his office on Wednesday united in marriage Alfred Presser and Mrs. Martha Presser, both of this city.

Postmaster Will Lemon wears the Gun club championship medal this week, having won the same at the match shoot last Sunday.

The annual school election will be held at the Central school May 9. Only one director, a successor to Prof. Barge, is to be elected this year.

Fruit Inspector Beck says that the number of young fruit trees shipped into the county this spring for orchard planting will reach 150,000.

The sheepmen as a rule are well satisfied with the result of the lambing season this season although the weather has been rather unfavorable.

Spuds are selling on the local market this week at from \$6 to \$8 per ton. The onion market is very weak. The hop situation remains unchanged.

The people of the town of Sunnyside are favorably considering the proposition of sinking an artesian well to furnish the town with water for domestic use.

Syringa chapter No. 38 O. E. S. gave a social and banquet the evening of the 24th at Masonic hall in honor of Mrs. Libbie Demorest of Tacoma, grand secretary of the order.

The Woodmen of the World are making great preparations for their big blow-out in this city May 6. A class of 150 new recruits will be initiated that evening in the local camp.

Marriage licenses were issued this week to Frank E. Lampkin and Miss Gertrude Golliver; Alfred Presser and Mrs. Martha L. Presser; A. J. Lynch and Miss Ella Dillon.

L. L. Thorpe this week purchased the Taft & Taft band of horses, consisting of about 100 head running on the Cowiche range. Mr. Thorpe will have the horses broke and put on the market.

The Natches camp of Modern Woodmen opened their new hall in the upper valley Friday night of last week with a basket social and ball. The neat sum of \$190, was realized from the affair.

The furnace of the Cascade Mill company was fired up Wednesday in order to test the big boiler. No logs have been received yet, owing to the low stage of water in the Yakima river.

The open air band concerts will be given Sunday evenings this season instead of Fridays as heretofore. The first will be given from the stand on Natches avenue tomorrow evening, beginning at 8:30.

Dale Thorpe is in receipt of a letter from his uncle Willis, at Dawson, in which the latter states that the Tanana boom is a fake and that hundreds of prospectors are returning to Dawson disgusted.

Lloyd Purdin has sold his 5 acre tract in Fruitvale to a Mr. Kitt, recently of Tekoa, Whitman county, the consideration being \$2500. Mr. Purdin is now building a residence at 107 N. Tacoma avenue.

The Hotel Yakima now has a beautiful fountain playing in the big court of the building. Mr. and Mrs. Johnson are planning to decorate the court by planting some rare varieties of flowers therein.

Bessie, the pretty little 3-year-old daughter of Fred Thompson, of the postoffice force, died at the residence of her grandparents on Nob Hill early Monday morning. The funeral was held from the home Tuesday afternoon.

Henry D. Baylor and Miss Alice J. Kimball were married at the residence of the bride's sister, Mrs. E. F. Benson, at Tacoma, Monday last, at 4 p. m. The happy couple will make their home in this city, where they have a host of friends who will wish them joy.

The new carpet for the Congregational church has arrived and will be used for the first time Sunday morning. The church will be appropriately decorated and special music will be rendered. The pastor, Rev. H. P. James will conduct the services both morning and evening.

Geo. Rosset has resigned the position of secretary of the Yakima Valley Canal company, now that the work of construction has been finished. The directors have appointed Ed. Carpenter, a clerk of the First National bank to act as secretary, who will in the future collect the water rental.

"Young Corbett," the champion feather weight pugilist, and his vaudeville company played to a fair sized house at Larson's theater Monday night. The program concluded with a four-round go between the champion and his sparring partner, "Kid" McFadden. In the opinion of many the show is a good one of its kind.

The many friends in this city of Mr. F. W. Gilbert are glad to learn of that gentleman's promotion to the position of general superintendent of the Northern Pacific with headquarters at St. Paul. Mr. Gilbert not only has the reputation of being a thorough railroad man but of being a thorough gentleman as well.

County Attorney Warner of Kittitas county has begun suit against the state to recover the sum of \$3765.93 which it is claimed represents the amount of taxes which the state was overpaid for the year 1899. The counties of Spokane, Thurston, Franklin and Yakima likewise have claims against the state based on the same grounds, the claim of this county amounting to \$4892. The general relief bill which passed the last legislature it will be remembered was vetoed by Gov. McBride. The Kittitas case against the state will be regarded as a test, the decision of which will settle the whole matter.

Personal.

S. J. Cameron visited Prosser Tuesday.

Garrett B. Hunt is a Spokane visitor this week.

C. M. Bartlett was an Ellensburg visitor Tuesday.

Mrs. Wm. Lee, sr., of Nob Hill is reported to be quite ill.

Mrs. W. P. Guthrie left recently on a visit to relatives at Enfield, Ill.

E. J. Walsh, a well known citizen of Tacoma, was a Yakima visitor Tuesday.

J. W. Thomas left for the Swauk Monday to look over the mining situation.

Mrs. L. L. Porter of Roslyn, is visiting her daughter, Mrs. H. H. Lombard this week.

F. W. Beck and family leave Monday for Fresno, Cal., where they will make their future home.

Attorney H. H. Wende and Merchant J. B. George of Sunnyside, were county seat visitors Tuesday.

Geo. Livesley is over this week from Sumner, Pierce county, to look after his large property interests here.

C. H. Ross and family left here Monday for Calgary, N. W. T., where they will make their future home.

Lonis and Fred Janek are enjoying a visit this week from their mother who came over from Everett Saturday.

R. A. Maze, general organizer for the Fraternal Brotherhood, went to Seattle Friday in the interest of that order.

H. J. Snively has been in Spokane this week engaged in trying a damage case against the N. P. Ry. company.

Geo. Eder, of the North Yakima drug store, successfully passed an examination before the state board of pharmacy at Seattle last week.

Matt Grobschmidt, an avenue barber, accompanied his wife to Seattle Wednesday, where an operation is to be performed on Mrs. Grobschmidt's day.

Miss Cooper, one of Ditter Bros. popular salesladies, left Wednesday for Elwood, Ind., where she is to be married soon to a popular young man of that city.

G. F. Allen, supervisor of the eastern division of the Ranier Forest reserve, is in the city and will make his headquarters here during the summer months.

J. H. Lewis, who recently sold his place near the fair grounds to L. V. McWhorter, late of Ohio, left, with his family Thursday for Seattle where they will remain for a time.

Messrs. Edward Whitson and Edward Parker left Saturday night for Knox county, Kentucky, where the expect to make an investment in oil lands. They went via St. Louis where the expect to stop for a few days to witness the dedicatory exercises of the St. Louis Fair.

A very beautiful pair of elk's antlers are on exhibition at the North Yakima drug store.

In building your new house, don't overlook the fact that good plumbing is an essential. That is the only kind that we do. Western Sanitary Construction Co., next door to postoffice. 30-1t

First class furnished rooms to rent in new building. Inquire of Mrs. J. T. LARSEN, on West Yakima Ave. 33-1t

Call at the office of the Western Sanitary Construction Co., next door to postoffice, and get an estimate on the cost of piping that new house you intend to build. Our work is always guaranteed. 30-1t

If you are looking for an elaborate home with a few acres near the city, that is a joy to its owner, the "Buyers Home" can put you on to it for less than \$8000. Might take good land at rental value farther out as part or all pay, or give good terms. 33-1t

An unheard of occurrence is that the "Buyers Home" has secured the sale of the best addition yet offered, "Millview," best soil, best prices, best terms, best water right. Come early and get choice. 33-1t

How would you like to exchange from 5 to 20 acres of choice Nob Hill property for a 20 acre coal mine being worked steadily, on a royalty, that brings a steady income without any looking after, or a cent of expense, except taxes, that will last your lifetime? Also two residences with five lots, four unimproved lots and an 11 acre tract in a prosperous southwestern Oregon town. Call on the "Buyers Home" real estate office, N. Yakima, Wash. 33-1t

Cures When Doctors Fail
Mrs. Frank Chisason, Patterson, La., writes June 8th, 1901: "I had malaria fever in very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine the fever would return. I used a sample bottle of Herbine, found it helped me. Then bought two bottles which completely cured me. I feel grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them.
Herbine 50c a bottle at Fred L. Janek's."
