Librarians Talk Story Workshops

Final details of the story hour workshops were discussed yesterday by Miss Louise Kellenberger at the annual meeting of the branch libraries of the Yakima county library at headquarters office.

Purpose of the program is to train story tellers for a summer program to be held in branch libraries throughout the county. Any adult interested in the course may participate. The workshops will be given under the direction of Miss Kellenberger who is one of the county bookmobile librarians.

Copies of the summer bookmobile schedule were distributed to those present by Miss Charlotte Hyre, bookmobile librarian. Mrs. Bradley Emery, reader's advisor, showed various methods of aiding the reader in finding material he wants, as well as the use of posters, and window displays to acquaint the non-user, of the library resources available.

The librarians voiced their approval of preliminary plans for a motion picture service for adults in the county library. The possible establishment of such a service was discussed by Miss Carol Trimble, county librarian.
