Yakima Republic
Yakima, Washington

Dear Click:

Thanks for the clippings.

Along with the thanks I want to add something else--that a really outstanding job was job in covering Dr. Driggs, The Cliff and the Prosser picnic. In fact there is a lot of evidence that your papers are really history-minded and that is something that isn't picked up over night. I am sure you folks have discovered, as some others publishers are learning this year--that local history rings the cash register pretty regularly.

Thanks again for this and so much other cooperation..

Faternally

CHAPIN D. FOSTER, Director
