Thurs. Night

Dear Click

Aunt Pearl was happy to have your letter today - I read it to her. She isn't doing too well - sits with her eyes closed much of the time - The doctor put a bandage back over her left eye again. She was hospitalized for a week then here with me for a week and I took her to the doctor's office every day. Then I took her to Ethel Sullivan's and she will be there until the 4th of July holiday when I will bring her back here for a while - Ethel's family will all be home for the holiday. Last week she only went to the

At the moment Aunt Pearl didn't know of any Mineral King pictures - she may remember some later. The Crooleys were up there for years but none of them are left here so far as I know.

Thanks for your letter

Dear Click

It's nice to know the worst is over & you have nothing to do now but get well.

I took Aunt Pearl for her new glasses yesterday - Early next week she plans to return home & try it alone - physically she is about as usual - mentally too I guess (but that is confused) - time will tell how she can

manage

Best wishes for a
speedy recovery
Helma
