Mrs. Francis Bacon
1205 South 11th Avenue
Yakima, Washington

Dear Mrs. Bacon:

I find I am of necessity writing you in reference to the two loans we made your son, one in 1934 and one in 1935, both for \$50.00.

Nothing has been done about this although at one time you met me and said you would be in to see me. It has come to the point now where something must be done and you must come and see me and make proper arrangements. I trust you will give the matter the attention it deserves.

Yours very truly,

L.O. JANECK & COMPANY

Dear Mr Janeck: - In regards to the loan to my son Lloyd, from the School fund sponsored by the Rotary Club. I assume you had been every in the town of paying this in full long before now. as you no doubt know, I have had no income and a very small earning power the last three years. as the boy wishes for that matter. I tried this town over this fall, to get a reasonable loan on the place - to enable me

to pay my obligations, and finance Floyd in school. - But ~~not~~ we was interested - including your self:

I eventually was compelled to sell one lot. to pay up four years back taxes - fire insurance. and Floyd's life insurance.

We did however get a small loan on the building. bought roofing and brick for fence. and Floyd started all summer, trying to repair the building so we can rent them. but did not have enough for planting; and will not be able to rent them until summer. So if we can have some income here and both of us have earning power ~~besides~~ I am sure we can repay the fund by fall. - I've talked with Mr Richards on several occasions, and he has always assured me the note was all right. I am sure he understands the circumstances with us

Yours very truly

Frances E Bacon
